WASHINGTON LETTER.

Texas Fever Tick—Women in Canal Zone—Wood Pavements.

WASHINGTON, June 23.—Sixty-three million dollars damage yearly through the ravages of the Texas fever tick among cattle is the tremendous loss which the Bureau of Animal Industry of the Department of Agriculture is endeavoring to stop.

The magnitude of the work is little understood. The quarantine line for cattle has until recently been steadily moving northward, an increasing territory opening up for the pests, and the already enormous damage being added to rapidly. Working in co-operation with the state authorities, the bureau of Animal Industry, under appropriation from congress, has already accomplished a wonderful amelioration of conditions. With the fiscal year beginning July 1, with an increased appropriation from congress of $250,000, and confident anticipation that the states and counties where the work is undertaken will double that sum, there is every prospect that the dread quarantine line will be forced further back. Since the work was inaugurated, in 1906, an area of 56,000 square miles—or almost the size of the state of Georgia—has been entirely freed from the ticks.

Officials of the Bureau declare that the damage caused by the ticks and the benefits to follow from their eradication are not generally appreciated. It is estimated that the Texas fever tick is responsible for about $40,000,000 loss annually to people in the infected country, and that it lowers the assets of the South by an additional $23,250,000, making the enormous aggregate of $63,250,000.

Various methods for exterminating the ticks are used, including transferring the cattle from pasture, and dipping, spraying and hand dressing with oil and oil emulsions. With large herds dipping is most usually the practice.

Women at Panama.

In spite of the rule of the Canal Commission to bar women out of the service because the Isthmus is no place for them, 205 have succeeded in finding a place upon the list of gold employes.

Women have been employed to teach in the schools, as they have been employed to nurse in the hospitals, on account of their natural qualifications for the work and because at the salaries paid it is easier to secure women with the requisite experience than men. Of the 25 women teachers now employed a majority are the wives or the daughters of male employes who were living in the Canal zone prior to their appointment, and comparatively few women teachers have been brought from the United States. The first of the Canal zone free public schools was opened in January, 1906, at Corozal with Miss Emily Ryte as teacher.

In addition to the nurses and the teachers, 45 women are employed by the commission on a gold basis. Seventeen of these are rated as copyists, ten as coupon counters, four as clerks, two as postal clerks, two as dietists, two as laundresses, two as matrons, two as timekeepers, one as telegrapher, one as storekeeper, and one is employed on special service. The highest salary paid any woman in the service is $175 a month, and the lowest salary paid is $25 a month. The average salary of the women now in the service is $73.90 a month.

Women have not been generally employed in clerical positions because the commission cannot undertake, except at a disproportionate expense, to provide quarters for female employes. Almost without exception, the women who have secured appointments in the offices of the various departments are related to male employes occupying married quarters, who provide them a home.

Booming Wood Pavements.

There is a boom on now for wood pavements. Three-quarters of a century ago our ancestors tried wood street pavements, but were handicapped for some preservative treatment to prevent quick decay. Wood paving was therefore abandoned, and its revival nowadays is due to the fact that experiments with creosoted wood have proven the practicability of its general use.

Among the advantages claimed for wooden pavements are greater smoothness, resiliency, ease of repair, and more rapid cleaning. Through selection of suitable woods, cutting the blocks into rectangular shape so that their edges may lie close together, and treating them chemically to increase their durability, wood pavement is better in many respects that any other in common use.

The cost of creosoted, or "preserved" wood, is greater than that of macadam, brick, or asphalt, but not so great as granite or sandstone. On the other hand, it exceeds any of the first group in wearing qualities. Wood paving costs from $2.40 to $3.50 per square yard.

Cedar has been extensively laid in the middle west, and oak, cypress, white pine, and other conifers in various cities of the country. A pavement of Australian eucalyptus has lasted in one city for from fifteen to twenty years.

The United States Forest Service believes that the cheaper woods can be generally utilized for wood paving, and has issued a circular giving instructions for use.

WHAT ROSEBURG IS MISSING.

Corvallis Fruit Cannery Has Many Offers for Entire Product

CORVALLIS, Or., June 22.—The new fruit cannery, built recently in this city, is in full operation on a run of strawberries, and will continue in that line for the next two weeks. The berries are very fine, being in especially good condition, and as the plant is the most modern obtainable, the output is expected to be of especially high grade. Many offers have been received to take the whole product of the establishment.

The cannery was built by a local stock company and its capital is fully paid up. As much large and small fruits have been set out in this vicinity, as a result of the new industry as has been planted altogether in 20 years before. The price paid for strawberries for canning purposes is 4 cents a pound. One man delivered 1440 boxes at the cannery Saturday.

THE FISHING TRIP.

'Tis now that you long for a spot by a pool
Where the fish
Gaily swish
In the depths clear and cool.

So you take a day off and you go to a nook
Where the fire
Sup'rvise,
And you simmer and cook.

Then you yearn for a place by a rotary fan,
And skidoo
Thereto
Just as fast as you can.—Ex.

MAY GO IN CABINET.

Senator Fulton Mentioned for Two Different Portfolios.

WASHINGTON, June 22.—The Washington Post in speculating on prospective cabinet changes, says:

"Senator Fulton has been a consistent Taft boomer, and the secretary likes him. The Pacific coast will have a seat somewhere around the cabinet table, and the chances of Senator Fulton for appointment as Attorney General or Secretary of Commerce and Labor are as good as those of any man who has been named."

BEWARE OF THE FLIES.

It is more necessary for the welfare of your family to screen your house to prevent the entrance of flies than it is to lock your doors for fear thieves might find their way in while you are asleep. The former can do much damage by robbing you and your loved ones of health, while the latter can deprive you of only a little material wealth, which will not weigh anything worth while as compared to the priceless possession of good health. One fly can do more damage than one thief. If you leave your house unscreened, the former will enter by battalions, while unlocked doors only mean a remote possibility of a visit from thieves.—Ex.

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorder and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and, through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

STATE RIFLE RANGE.

One at Salem Will Probably be Selected for O. N. G.

SALEM, Or., June 22.—Adjutant-General W. E. Finzer was in Salem today inquiring into details regarding the condition of the local rifle range, and he will tomorrow decide where the National Guard rifle meet will be held. While he has not finally made up his mind, he expressed himself so strongly in favor of Salem that there seems little room for doubt that the teams from the 20 companies of the state will meet here. The meet is to be held July 20 and will last about a week. Practice shooting will begin July 20. About 175 officers and men will be in attendance.

The fact that the rifle range is across the river in Polk county, a county that voted dry, is an incident that is being discussed in this connection.

General Finzer says it is the intention of the military board to send another state rifle team to compete in the national shoot, to be held at Camp Perry, Ohio, on the shore of Lake Erie, beginning August 24. The averages made by the Oregon military riflemen, as well as throughout the United States, is lower than that of last and previous years on account of the experiments being made with the new Springfield rifle and the new pyrocellulose powder, but the men are improving rapidly in marksmanship with practice and General Finzer expects the Oregon candidates to develop a good average in time.

For a mild action of the bowels, a single dose of Doan's Regulets is enough. Treatment cures habitual constipation. 25c a box. Ask your druggist for them.

NOTICE TO CREDITORS—Having lost our business by fire, we reckon themselves indebted to us to settle as soon as possible. T. J. WILLIAMS & SON, Wilbur Or. tf

FROM EDENBOWER.

I met a friend the other day, who to me kindly said,
That folks were asking when I died, how long I had been dead.
In answer, I make this reply that no one has disproved,
The reason I have silent been is simply this—I've moved.

I've moved? Ejaculation—could I find one that would fit,
Permit me to say "awful," I think that that is it.
I tell you, John, when I move again, (I'll change my mind of course)
Is when they choose to move me or to give me a divorce.

We're getting straightened round a bit—at least I've found a pen,
And here I am to all who'd like to hear from me again;
I make my bow, right here and now—
Your servant from this hour—
To write in rhyme from time to time,
The news of Edenbower.

Edenbower is just now deserving its name. The roses are out in all their glory, the strawberry crop is on the decline, but the famous loganberry is just beginning to ripen. This is a fine location for berry growing.

G. W. Thompson, who bought Mrs. N. Boyd's ten-acre tract, has built a new barn and has a new house fairly under way of construction. Mr. Thompson is a home builder and will soon have one of the prettiest homes in Edenbower.

Mrs. Kate Brewer returned to Myrtle Creek, after picking 1947 boxes of strawberries.

Mrs. Sam D. Whipple and little son, Leonard, arrived here not long since from Kendall, Mont. Mrs. W. is delighted with Oregon, although she thinks Montana a grand state. She will be joined later by her husband and they may make their home here.

Mr. and Mrs. Tolley, of this place, sold upwards of eighty gallons of gooseberries at 40 cents a gallon.

The ladies of the W. C. T. U. met at Mrs. Ferguson's last week. They will meet two weeks later at Mrs. Munson's.

Automobiles frequent our roads and the roads are fine at present.

Fred Farrell has made a small fortune selling peas. He got the earliest in market here, receiving 8 cents per pound and shipped eight sacks at one time. This is quite an industry here, many farmers planting them for the early market.

Mr. Melton, Roseburg's pioneer drayman, is building a fine new residence on the road leading to Edenbower. MARGARET.

PERMANENT EXHIBIT BUILDING.

The lease for the grounds at the S. P. depot in this city for a permanent exhibit there of Douglas county products has been received by Station Agent L. B. Moore, but have not yet been formally turned over to the Commercial Club. Plans for this structure are already drawn and the work of its erection will begin at an early date.

Now is the time to list your Farms, Orchards, Stock Ranches, Timber Lands and City Property.

We offer you the advantages of wide-awake outside connections.

Thinks it Saved His Life.

Lester M. Nelson, of Naples, Me., says in a recent letter: "I have used Dr. King's New Discovery many years for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints and would no more be without a bottle than I would be without food." For nearly forty years New Discovery has stood at the head of throat and lung remedies. As a preventative of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at A. C. Marsters' drug store. 50c and $1.00.

SPECIAL BARGAIN $3,000.

42½ acres, all good fruit land, 32 in hay and grain and 7 in pasture; 6 room house and furniture, 2 barns and 1 chicken house; good steam wood sawing and feed grinding outfit; 2 good horses, cow, 2 pigs, 25 chickens; 1 wagon, 1 buggy, and two sets of harness all new.
