S.S.S. CONTAINS NO MERCURY

Medicines containing Mercury are often given to persons suffering with Contagious Blood Poison, and so powerful is the action of this drug that it frequently removes the symptoms in a short while, and shuts the disease up in the system to do greater damage to the delicate internal members. When, however, the treatment is left off, the disease always returns, and the patient finds that his health has been injured by this powerful mineral, and he is often left with weak stomach, disturbed digestion, mercurial rheumatism, etc. The action of S. S. S. is entirely different. It contains no Mercury, nor any other harmful drug, but is made entirely of healing, cleansing roots and herbs. It cures Contagious Blood Poison by removing the virus from the blood. It searches out every particle of the poison and does not leave the least trace for future outbreaks. S. S. S. in addition to curing the disease, builds up and strengthens every part of the body. Its fine tonic effects tone up the stomach and digestion, improve the appetite and regulate the entire system. Home treatment book containing valuable information about the different stages of the disease and any medical advice desired sent free to all who write

DEMOCRACY AT DENVER

(Continued from page 1.)

rence of the convention the chief executive was compelled to abandon the most vital reforms that he has been urging during the last four years. The war secretary was either not in sympathy with these popular reforms himself or else he and his friends feared that their presence in the platform would sacrifice his nomination or his election by arraying certain special interests against him. In either case the omission of these reforms is to the discredit of the nominee for if he favored an income tax, a collateral inheritance tax, a law requiring the publication of campaign subscriptions, the physical or actual valuation of the railroad properties in the supervision of fares and freights and the issuance of railroad stocks and bonds; or if he were against the reckless expenditure of public moneys amounting to over a billion dollars at the last session of congress, or if he, like his illustrious mentor, discerned grave dangers to the republic through the great centralization of wealth, he should have so declared in unequivocal terms and demanded that these things be inserted in his credentials, or he should decline to become the beneficiary of whatever popularity his chief has acquired by his strenuous championing of these measures. The logic of the situation prohibits the war secretary in this campaign from riding any hobby but his own. The Chicago platform, which must be considered as his official pronouncement, bears about as much resemblance to the belligerent manifestos that have been hurled from the White House as a lad bears to his stepfather.

"The idea seems to be creeping into the popular mind that if the nominee of the Chicago convention shall be elected in November we will have a directed presidency at the head of our affairs. The American people are sticklers on some things, and one of the things that they will not stand for is a divided responsibility in the White House. They will demand, and they have a right to demand, that the heart that conceives, the brain that plans and the hand that executes shall be directly answerable to the sovereign power that built the White House and selects one man at a time to fill it.

Tariff Revision Farce.

"There is a vast difference between the protection of American industries and the protection of criminal monopolies. Which kind of protection does the Republican party really intend to preserve and what tariff schedules does it propose to scale down? Will it not depend upon the preponderance of power in the councils of the party and in the body of legislation and with the Democratic trusts in control of the machinery of the Republican party do any reasonable man believe that American farms, American labor and honest American industries will escape the tariff blades? Can you imagine Cannon, Dalzell and Paine and others of the same stripe sitting down at a long table and devising ways and means for the retention of tariff benefits to the farmers, the artisans, and that class of manufacturers who are satisfied with a fair return on their investments, while they use the pruning shears on the products of the favored trusts? Such an unusual scene would live long in the history of the nation.

Campaign Corruption.

"In the Chicago convention a minority report of the committee on resolutions, containing a declaration in favor of campaign publicity, was overwhelmingly defeated upon a roll call of the convention, and the Republican party placed itself squarely on record in favor of concealing the names of the contributors and the amounts of their subscriptions. By a vote of 52 to 1 in the committee, and a vote of more than 10 to 1 in the body of the convention, they confessed their guilt. They thus admitted the charge so frequently made by our party that Republican success in the past has largely depended upon the vast sums of money collected from the great monopolies of the country and corruptly used in the conduct of its campaigns. The people have a right to know whether or not any political party is maintained from the treasuries of the corporations, for it is not to be presumed that large appropriations for campaign purposes will be made by corporate interests unless there be an implied or expressed agreement to protect or serve them in their lawless exploitation of the people. Let the voters of this country seriously consider whether the refusal of the Republican party to disclose the sources and amounts of its election finances is not a confession of the debasing and corrupt use of money in its campaigns.

Reckless Extravagance.

"We search in vain for one syllable in the Chicago platform pledging the Republican party to retrenchment and reform; and it is no mere coincidence that has given us a billion dollar session of congress on the eve of a national election and the possible revision of the tariff. Reckless extravagance is to be condemned at all times for, aside from squandering the substance of a nation, the federal government sets an example that undoubtedly weakens the habits of frugality so necessary in the private concerns of life, but how much worse is this prodigal expenditure when we realize that it will be the chief argument for maintaining the iniquities of the tariff system upon the ground that customs duties are the chief resources from which our revenues must be drawn, and that therefore no material change in the tariff can be made without reducing the revenues that are needed to support the nation at the rate of a billion dollars a year. The slogan in the last session of congress seems to have been "Spend all the money you can, for every dollar that is paid out will have the tendency to maintain the high water mark of the present tariff."

Election of U. S. Senators.

"On five different occasions, the house of representatives has passed a constitutional amendment providing for the election of United States senators by the direct vote of the people, but these measures have been sand-bagged in the senate by those who are determined that the senate shall not become an integral part of our free, representative institutions, and thus we behold the upper branch on congress, which was established by the constitution as a co-ordinate of the United States congress, absolutely arrogating to itself the right to control all national legislation, and to exercise that right for the defeat of measures intended for the public good.

"The Democratic party will continue to labor for the direct election of United States senators, and it appeals to the voters of America to elect members of the different state legislatures who will pledge themselves to vote for no candidate for the United States senate that is not in favor of this reform; and we warn the people of America that unless this be given immediate and serious attention, the oligarchy now exercising almost despotic sway in public affairs will continue in the usurpation of power until every fabric of self-government shall be destroyed.

Humanity Ignored.

"The affirmative position of the Democratic party upon these great questions will be made clear during the impending campaign, and, disdaining all subterfuges, it will speak in a language that cannot be misunderstood. Its voice will ring with a genuine love for humanity and the cause of inalienable will never be brought to its knees. Let our party declaration in this convention present the strong contrast between that which we here propose and that which was declared at Chicago. Let any man take the temperature of the Chicago platform, and discover, if he can, any sign of human warmth. It reads like the annual report of a bankers' association, cold, calculating and commercial. Where do you find one word to allay the fears of our people or to quiet the unrest and anxiety that everywhere prevails? Not a single sentiment is there to redeem it from the materialism it represents. It drones and groans with just simply a promise to help the people who want more money, that is all that it expresses for money is everything. Why discuss character, they ask, or great moral principles, the golden rule is left to be worshipped, and there is no time or space to waste on sentimental things. Such is the message of the Republican party has given to the world."

New York Sincerity.

DENVER, Colo., July 7.—The New York delegation to the National Democratic convention today adopted the most radical platform ever suggested from an eastern source. Among other things it grants, without any reservation, all demands of the American Federation of Labor, including the anti-injunction bill. The Brooklyn men are furious. They charge the New Yorkers with trying to embarrass the Nebraskan, whom, they assert, would be held responsible if the platform is rejected.

An attempt to incorporate in the platform planks favoring coast defenses and exclusion of Japanese coolies is being made by Thomas Casey, of Seattle, who has prepared resolutions on the two subjects. One of them says that thousands of Orientals are employed on the coast depriving citizens of a livelihood and the other asserts that it is imperative that the Atlantic battleship fleet be retained on the Pacific coast.

The Remedy That Does.

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at A. C. Marsters & Co's. drug store. 50c and $1.00. Trial bottle free.

DOCTOR'S ORDER WAS: 'CUTICURA'

For a Bad Case of Eczema on Child —Suffered for Three Months— Disease Reached a Fearful State —Pain and Itching were Terrible.

CURED AFTER OTHER PRESCRIPTIONS FAILED

"When I was small I was troubled with eczema for about three months. It was all over my face and covered nearly all of my head. It reached such a state that it was just a large scab all over, and the pain and itching were terrible. I doctored with an able physician for some time and was then advised by him to use the Cuticura Remedies which I did and I was entirely cured. I have not been bothered with it since. I used Cuticura Soap and Cuticura Ointment but do not know exactly how much was used to complete the cure. I can safely say that Cuticura did a lot for me." Miss Anabel Wilson, North Branch, Mich., Oct. 20, 1907."

ITCHING CURED

With Cuticura Remedies in Three Days After Six Months of Suffering.

"I suffered fully six months. The trouble began on my arms in little red pimples and it was not long before it was all over my body, limbs, face, and hands. It was so bad that I could not rest night or day and during the six months, I did not get a good night's sleep. I doctored for three or four months and spent at least twenty dollars trying to find a cure but none could be found. Then I saw the Cuticura Remedies advertised, and the next day I purchased some for seventy-five cents at the druggist's. I used them and I was relieved of the itching in three days, and I have never had a sign of any skin disease since. The Cuticura Remedies are the only remedies to use for skin diseases, they have cured me and they will cure others in the same way." J. W. Bloom, R. R. Telegrapher, Holloway, Minn., Nov. 20 and Dec. 20, 1906."

Cuticura Remedies are guaranteed absolutely pure under the United States Food and Drugs Act.
