THROWN BY HORSE

Alice Mathews, Aged 17, Killed Near Myrtle Creek

FAILS TO HEED WARNING

Sustain Terrible Injuries And Dies About One Hour After the Accident

Special to the Evening Review.

MYRTLE CREEK, Ore., July 11.—Miss Alice Mathews, aged 17 years, daughter of Mrs. Frank Mathews, a widow lady of this place, was thrown from a horse last evening and injured so badly that she died a short time afterwards. The accident happened about 7:30 o'clock near Joe Harris' farm, one mile south of town, where the girl was employed as a domestic.

The horse that figured in the occurrence is owned by Clifford Smith, a young man, who had called at the Harris place for a visit. Being a racer the animal is naturally high spirited, and Miss Mathews was told of such a fact when she expressed a desire to ride the horse. Undeterred, however, she mounted the animal and a moment later it ran away with her, pitching her to the ground with terrific force.

In her fall, the girl sustained a fractured skull, a dislocated neck and the rupture of a blood vessel in the abdomen. She was rendered unconscious, and died one hour later without reviving.

Besides her mother, the girl is survived by six brothers and sisters. The family formerly lived at Repton. The funeral will be held here at 2 o'clock tomorrow afternoon.

RACES AT FAIR GROUNDS.

Nearly \$2,000 Will Change Hands There Next Wednesday.

Nearly \$2,000 will change hands at the fair grounds, east of the city, next Wednesday afternoon, when three exciting horse races will be pulled off. The chief race, a one-mile dash, will be between "King Kohr," the well known stallion owned by W. W. Cardwell, the local attorney, and "Lady Bunch," Sam Smith's fast mare that defeated "Virginia Dare" at the fair grounds on July 4th. Over \$1,800 has already been wagered on this event, and more money is in prospect.

"Oregon Frank," the unbeaten bay owned by Bert Brown, of Oakland, will be matched against "Frances," the blooded running mare purchased in Portland a few months ago by W. W. Cardwell, but now owned by Dr. J. H. Chapman and Ned Gibson. The distance is five eighths of a mile and the bet is \$250 a side.

The third event is a trotting race, which will afford Roseburgers their first opportunity of seeing in action "Sonoma Boy," 2:20, the \$5000 stallion owned by Frank E. Allen, of this city. "Sonoma Boy" will trot again "Malibu B," a fast horse owned by Mr. Cousins, of Crescent City, Calif. The distance is one mile, one heat only, for a purse of \$500.

An admission of 50 cents will be charged at the entrance to the track. Interest in these races is increasing daily, and a big crowd will be present to see the sport.

PANAMA ELECTION SUNDAY.

Presence of American Marines to Preserve Order is Requested

PANAMA July 11.—Final preparations were made today by the canal zone authorities to prevent rioting and illegal voting in tomorrow's presidential election in the republic of Panama. All saloons in this city and Colon have been ordered closed this evening to remain shut until Monday morning, and all liquor sellers will be summarily arrested. United States marines have been stationed throughout the republic and will patrol all polling places.

Despite the fact that Dr. Arlio, present minister of foreign affairs in Amador's cabinet, has the support of the administration, it now appears almost certain that he will be defeated for the presidency by General Obaldia, the opposition candidate. Uncle Sam's guardianship of the polls is fiercely resented by a majority of the natives, and a Panama newspaper denounces it as a display of tyranny in the guardianship of the polls, unprecedented in the history of the world.

Of the two presidential candidates Arlio stands for disfranchisement and qualified suffrage, total elimination of the negro from the ballot, the prohibition of internal development of the country by outside exploiters, and the building of a transcontinental railroad to be owned and operated by the Panamanian government, which would be a direct violation of the franchise granted the Panamanian railroad, now operated by the United States government.

Obaldia does not endorse the railroad scheme of the present government, and he is willing to throw open the republic to outside development, thereby giving many Americans an opportunity to exploit the vast resources of the country.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy of treatment, and has for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine drug stores out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by Hamilton Drug Co.

POPULISTS NAME WATSON.

ATLANTA, Ga., July 10.—Thomas E. Watson, of Thompson, Ga., candidate of the People's party for president of the United States, was formally notified of his nomination by the committee appointed at the St. Louis convention, at a largely-attended meeting of the Populists in this city tonight. The notification speech was delivered by Judge Forester, of Albany, N. Y.

In accepting the nomination, Mr. Watson made a characteristic speech, going back to the dawn of history and drawing on the story of the decline and fall of Rome for examples of the inevitable fate of an unbridled plutocracy.

He also devoted much attention to the money power and lauded both Andrew Jackson and Thomas Jefferson for their efforts to curb the rapacity of the money kings.

Just Exactly Right.

"I have used Dr. King's New Life Pills for several years and find them just exactly right," says Mr. A. A. Pelton, of Harrisonville, N. Y. "New Life Pills relieve without the least discomfort. Best remedy for constipation, biliousness and malaria. 25c at A. C. Marsters & Co's. drug store."

A BRAINY LAWYER

Bryans Running Mate Has Been in Politics 24 Years

STATE SENATOR FOUR YEARS

Against Free Silver in 1890, but Did Not Desert Bryan—Once Ran For Governor

INDIANAPOLIS, Ind., July 10.—

John W. Kern, nominated for the vice-presidency by the Deaver convention today, has been a prominent figure in state politics for a period of 24 years, having been nominated by the democrats in that year for reporter of the supreme court and elected with the entire state ticket. He was born and reared in Howard county, is a graduate of the University of Michigan, and before his nomination for court reporter was regarded as one of the brightest young lawyers of the state.

Since he retired from the office of reporter, Mr. Kern has served four years in the state senate from this county, has been twice honored by his party with the gubernatorial nomination and once received the complimentary vote of the legislative minority for the United States senate.

Fought Against Free Silver.

Mr. Kern has always been a staunch party man. In the preliminary campaign of 1896, when there was such a determined free silver sentiment and it seemed inevitable that the approaching democratic state convention would endorse free silver, he was a pronounced gold man and entered freely into the fight to create sentiment in the party against the new political dogma.

He made a number of public utterances in opposition to the doctrine and predicted that the party, if it should endorse free silver, in the state and national platforms, would go down to defeat. When the state convention met he was arrayed on the side of the gold standard and was one of its most eloquent, and at the same time its most fearless, champions, in the face of certain defeat.

Loyal to His Party.

When the state and national conventions had spoken on the subject, he declared his allegiance to the party and went into the campaign that followed and did his utmost to elect Bryan. His pro-convention speeches were heard at him by the opposition press and by voters in the hearings, but Kern took the ground that his party had spoken and its utterances were law to him.

Mr. Kern has twice been married. His first wife died while he was making the campaign for reporter of the supreme court, leaving a daughter but 2 years of age. He was remarried in December, 1895, and two children have been born to the second marriage.

ROSEBURG'S MARKET DAY.

Experiment Satisfactory—Likely to Become Regular Event.

Roseburg's first "Market Day," held today under the direction of Max Zimmerman, drew a large crowd of visitors from all points radiating from the city. Merchants who subscribed to the fund to defray the expenses of the event did more than enough business on their special sales to justify the experiment, and its safe assertion that "Market Day" will become a regular thing in Roseburg from now on.

The feature of the day was the parade, made up of the Roseburg band and a long string of fine horses, some driven and others led. It began at the Roseburg Hotel, and ended finally at the Hochdale store after doubling back from the Hotel McClallen. After the parade broke the band played in front of the "boosters" business houses, proceeded in each instance by a "spiel" from the incomparable Zimmerman, whose style of oratory, while short on polish, is several miles long in effectiveness.

The auction sale of horses, held at Dixon's stable yards, was the concluding event of the day. It was attended by practically every visitor in the city, and when it was over everyone departed satisfied. Now that such an affair has passed the experimental stage, the future holds promise many "bigger and better" ones. All that remains to be done is to set the date.

TIME TO CHLOROFORM OSLER.

LONDON, July 11.—Dr. William Osler, who, while a professor of medicine at John Hopkins university, had fame thrust upon him by his reported declaration that sixty years was the limit of man's usefulness, will himself enter upon his sixtieth year tomorrow. It is evident however, that the eminent physician and instructor has no immediate intention of resorting to the chloroform bottle, for he has consented to run in opposition to Winston Churchill and George Wyndham, ex-Chief Secretary for Ireland, for the Lord Rectorship of the University of Edinburgh next November.

Mayor Reddy, of Medford, Colonel Ray, of New York, Dr. Ray and District Attorney A. E. Roames of this city, were viewing the right of way of the proposed electric railway. It is thought that the line will pass through Central Point, Medford and Jacksonville, thence to Applegate, Hineson and Ashland. The line will reach Medwater at some point near here, although it is not definitely known—Jacksonville Post.

Robt. Alexander, a former lumber manufacturer, of Cottage Grove and well known in Roseburg, died in Oakland, Calif., July 6, 1908, at the age of 66 years. Mr. Alexander was at one time interested in the Kinney addition to this city and superintended the construction of its main thoroughfare, now known as North Jackson street. While in business at Cottage Grove he was associated with Thos. K. Campbell, now state railroad commissioner.

PAY HIM \$2 PER WORD.

Scribner's Magazine Will Publish Roosevelt's African Hunt.

NEW YORK, July 10.—The price Charles Scribner's Sons will pay President Roosevelt for his account of his hunting trip through the African jungles will be the highest ever given to an author for a work of similar length.

Not only will the president receive a lump sum of between \$60,000 and \$75,000 for the serial privileges, but he will also get a high royalty on the book into which the magazine articles will be incorporated.

It was learned on good authority that this royalty is not less than 15 per cent on gross sales, and is probably as high as 20 per cent. It is said the publishers expect to sell enough copies of the book so that the president will receive in all \$150,000, or something like \$2 a word.
