VOL. 24. ROSEBURG, OREGON, TUESDAY EVENING, JULY 16, 1908. NO. 118.

CASE WAS CALLED

Government's Charges Against Messrs Booth

DEFENDANT NOT ALARMED

Although the Government May Drag the Case Along for a Couple of Weeks

Special to the Evening Review.

PORTLAND, Or., July 15.—Robert A. Booth, ex-State Senator; James Henry Booth, ex-Receiver of the Roseburg land office, and T. E. Singleton, their brother-in-law, were placed on trial in the federal court this afternoon on an indictment charging them with conspiracy to defraud the government of its public lands. Selection of a jury is now in progress.

The defendants are represented by Dan J. Malarkey and County Judge L. R. Webster, of this city, and A. C. Woodcock, of Eugene. The prosecution will be conducted by Tracy C. Becker, special assistant to the attorney general, assisted by United States District Attorney McCourt and Thomas B. Neuhausen, representing the Interior Department.

Outcome of the Case.

Portland Oregonian, July 15: The indictment against the two Booths and Singleton was filed in the United States court on April 8, 1905. The specific charge is an alleged conspiracy on part of the defendants to defraud the United States out of the title to a tract of 160 acres of public land in Lane county through the use of false affidavits and proofs of homestead entry procured to be made by L. Thomas Agee. The fraud charged in the indictment was perpetrated prior to and during the year 1902.

The government expects to prove that Agee, early in the year 1902, had a homestead which was located within the Cascade Forest Reserve and in Douglas county; that he was induced by the defendants to relinquish the same and to select in lieu there an equal acreage of valuable timber land in Lane county. The prosecution expects to show that the exchange of the land was expedited by reason of the fact that James Henry Booth at the time was receiver

of the Roseburg land office, where the transaction was conducted. Witnesses and evidence will also be submitted by the government to show that within a short time after Agee finally received the patent on the Lane county timber land he disposed of the land to the Booth-Kelly Lumber company, of which the defendant, Robert A. Booth, was president and manager, for a consideration of \$200.

While no outline of the defense was obtained by the government, through examination of witnesses, it is understood that the defendants will contend that the settler borrowed money from the Booths to prove up on the claim and that later, when the settler was unable to repay the amount, the claim was decided to the defendants.

Between 25 and 30 witnesses will be called by the prosecution and undoubtedly a great mass of documentary evidence will be offered in support of the charge. In this respect the suit promises to be fully as long and tiresome as other preceding land-fraud trials. It is admitted by the government that two weeks will be required to try the case and the probability is that fully three weeks will be necessary.

(While the defense has announced no outline of their case, it is currently reported that they will be able to show their innocence more easily than in the recent trial of J. H. Booth, wherein the defendant was found not guilty by the jury although none of his witnesses were called to testify.)

TO HANG A NEGRO

OKLAHOMA, City, Okla., July 16.—Will Johnson, a negro youth, who committed a brutal assault upon an aged white woman near Shawnee, causing her death, is under sentence to be hanged tomorrow.

The crime of Johnson was but one of dozens that have been committed by negroes in Oklahoma during the last few months and which have at times threatened to result in a general race war. In some instances pitched battles have taken place between whites and blacks, and over a dozen persons have been killed and many wounded as the result of trouble caused directly or indirectly by the colored "bad men" of the new state.

Johnson, who is to be executed tomorrow, strenuously maintained his innocence until his trial, when he created a sensation by suddenly jumping to his feet and loudly declaring that he was guilty. The trial stopped and the jury was instructed to bring in a verdict of guilty, which it did and added the death penalty.

RUSSIAN JEW'S RISE.

Born in Squalor, he becomes Prize Winner at Cambridge.

LONDON, July 15.—It required all the magnanimity Englishmen could muster to pay honors due young Selig Brodetsky, the young Russian Jew who won the senior wranglership at Cambridge. But once having become reconciled to the idea that the blue ribbon of British scholarship should go to the son of a humble immigrant, the son himself having been born in Russia and reared amid the squalor of the East End, Brodetsky was made the hero of the hour.

And no one will deny that the young Russian Jew deserves all he has won. Determining to get an education he entered the Jew's free school in Whitechapel. After four years he won his first scholarship, which provided fees and part maintenance at the Central Foundation school. From that on prizes came thick and fast. In his first year he won the Lady Tite scholarship of \$100 and became captain of the school. The next year he took the Fishmongers' Company scholarship of \$250 and in the same year entered Trinity College, Cambridge.

This scholarship provided \$250 a year for four years, but as \$250 a year does not go very far at Trinity, where maintenance costs more than \$1000, young Brodetsky set out to win other prizes. He first took a minor providing \$300 a year and followed it up by carrying off a major worth \$500 a year, tenable for five years. Next he tackled the Marmaduke and Levitt scholarship and annexed it, giving him another \$200 a year for three years. The Anthony Death scholarship came next, with \$300 a year for four years.

Brodetsky had now provided himself with an income of \$1500 a year, but he kept right on annexing prizes. In fact he added so fast to his income that the Chancellor of the Exchequer swooped down upon him and mulcted him of a share of his earnings by the machinery of the income tax commission. The college authorities declare that the Russian Jew's record of prize winning is without parallel in the history of Cambridge.

RURAL CARRIERS AS NOTARIES.

WASHINGTON, July 15.—Assistant Postmaster-General Draw has empowered rural lettercarriers to act as notaries.

TO REFORM BILLBOARDS.

DETROIT, Mich., July 16.—Members of the Associated Billposters and Distributors of the United States and Canada, in annual session here, have agreed to continue the movement for the suppression of all objectionable billboard advertising. Hereafter the "paper" of burlesque shows and similar attractions will be subjected to a severe censorship and pictures of stage beauties, likely to bring blushes to the cheeks of passersby, will not be allowed a place on the billboards. Melodramas with suggestive titles have also come under the ban of the billposters' displeasure.

MRS. EDDY IS 87.

Caustic Statement Shows Her to be in Full Mental Power.

BOSTON, July 16.—Mrs. Mary Baker Glover Eddy, founder of Christian Science, is today celebrating her 87th birthday. Admirers and followers of the famous religious leader in all parts of the world sent telegraph and cable messages of congratulation. Mrs. Eddy spent the day quietly in her handsome house in Chestnut Hill. Recent rumors to the effect that she is seriously ill are denied and her private secretary declares that she is wonderfully vigorous, mentally and physically, for one of her years.

Mrs. Eddy's followers declare that their leader has been persistently misrepresented by a prominent New York newspaper, especially as regards her physical and mental health. When this journal recently declared that she was ill, because she had failed to take her customary drive, Mrs. Eddy issued the following caustic public statement:

"Since Mrs. Eddy is watched, as one watches a criminal or a sick person, she begs to say, in her own behalf, that she is neither; therefore to be criticised or judged by either a daily drive or a dignified stay at home, is superfluous. When accumulating work requires it, or because of a preference to remain within doors she omits her drive, do not strain at gnats or swallow camels over it, but try to be composed and resigned to the shocking fact that she is minding her own business and recommends this surprising privilege to all her dear friends and enemies."

TRUST LAUGHS AT LAW.

Paper Combine Keeps Thousands Out of Employment.

NEW YORK, July 15.—"Not only are the paper makers keeping their own employes in idleness but are enforcing idleness upon thousands of workers in printing and publishing plants throughout the country."

This is the conclusion Herman Ridder, president of the American Newspaper Publishers' association, expressed in a letter addressed to the president about paper combinations.

The letter states that the promise that the courts would provide an adequate and prompt remedy, after an appeal to Congress for relief had failed; that after 24 paper companies acting together in the fiber and manila association had been subjected to investigation by the federal grand jury, the paper makers admitted that they had placed their records beyond their reach; but simultaneously all but two of the participants pleaded guilty, and that immunity was practically given to all who participated in the pool.

The treasurer and originator of the pool, John H. Parks, is now, the latter says, a fugitive in Europe. He was included in the indictments. "Such a finish to the procedure," the letter adds, "is a miscarriage of justice."

The situation, the letter concludes, requires drastic treatment and the appeal is made that steps be taken "to bring the law-breakers to their senses, and to end a lawless condition which interferes with the return of prosperity."

The Remedy That Does.

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at A. C. Marsters & Co.'s drug store, 50c and \$1.00. Trial bottle free.

MORE RACING NEXT WEEK

One week from tomorrow, Friday, July 24, another exciting running horse race takes place at the district fair grounds, east of this city. The entries are the same four horses that ran at the fair grounds yesterday, W. W. Cardwell's "King Kohr," Bert Brown's "Oregon Frank," Sam Smith's "Lady Beach," and Dr. J. R. Chapman's "Princess." This event will be a half-mile dash, best two heats in three, with a 60-foot distance limit, that is: If in the first heat any one of the four horses gallops under the wire at least 60 feet ahead of all the other three such horse also wins the race. In case a third heat is necessary to decide the race it will be run only between the winners of the first and second heats. The purse is \$400, made up of bets of \$100 a side.

There are prospects also of numerous other wagers, with "King Kohr" and "Oregon Frank" ruling as favorites. "Princess," on account of her defeat by "Oregon Frank" yesterday, is considered by many as the least likely to win, while "Lady Beach's" stock is running low on account of a sprained knee, which her owner states was solely responsible for her poor showing against "King Kohr." While "King Kohr" is generally conceded to be the best horse of the four on a mile run, "Oregon Frank" is claimed by many to be his master at a half-mile. Opinion differs on this strongly, however, and as a result considerable money may change hands when the race is over.

The Oldest Treaty.

The oldest text of a real treaty now in existence is that of the convention between Rameses II, king of Egypt, and the Prince of Kheta, which embraces the articles of a permanent offensive and defensive alliance, with clauses providing for the extradition of emigrants, deserters, criminals and skilled workmen. This treaty was drawn up in the fourteenth century B. C. and is the earliest record that we have of any international transaction.
