Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner, of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." ### EXIT DRAIN NORMAL.

Annual Catalogue For Other Three Schools—High School.

SALEM, Or., July 29.—The catalogue and announcement for the normal schools have gone to press and will be ready in a few days. Under the new plan all the schools are managed by a single board of regents and one catalogue for all the schools was deemed sufficient by the board. The Drain school is not included in the new announcement; in fact, the board is about to sign a contract with the school board at Drain to lease the normal school building and equipment for public school and high school purposes at Drain.

The announcement contains besides the usual catalogue material the policy of the schools, the uniform student regulations at all the schools, the uniform course of study adopted by the executive committee of the board of regents and the uniform marking system. The description is general in nature and the purpose is to advertise the Oregon normal school system rather than any particular school.
