AUGUST 13, 1908.

A SPLENDID OUTLOOK.

Do you know that next Monday night the city council will open bids for 18 blocks of modern bituthick street paving in Roseburg? That it is what is going to happen, and it is also reasonably sure that some of the bids will be satisfactory. It will then be up to the contractor to get his equipment in place just as quickly as possible and begin the work of paving. There is plenty of time yet this fall to complete the first installment of 18 blocks if reasonable activity is applied. This and the accompanying cement sidewalks and the new bridge across Deer Creek will be a substantial starter toward the building of a fine modern city. More capital than ever before is being invested in this county and the development of our great natural resources is bound to be rapid from now on. Work is about to begin on the half-million dollar cement factory at Portland, for the operation of which the raw material is to be shipped from near Roseburg. Large farms are being subdivided and sold in 10 and 20-acre tracts, which will be developed as garden, fruit and vineyard lands. Holders of large tracts of timber will soon be putting in mills and manufacturing the products of these forests and that industry alone will bring in untold wealth. Other industries are sure to come along with these, electric car lines will be built to handle the traffic of these various enterprises and our city and county will experience a remarkable period of advancement—and this is the very near future. A number of enterprises are now being investigated by heavy capitalists. The sooner the street paving work is started, the sooner will these other enterprises be developed, as paved streets will inspire faith of investors in the town and surrounding country.

ORGANIZE FIELD DISTRICTS.

Forestry Service to be in Closer Touch With the Public.

Plans for the Forest Service field headquarters which are soon to be established in the west are being rapidly worked out in detail. Each headquarters will be modeled after the Washington office. In all there will be six headquarters, one located at each of the present inspection district headquarters—Portland, San Francisco, Albuquerque, Salt Lake Denver and Missoula, Montana, or some other points equally well or better located for the purpose. At the head of each office there will be a District Forester and an Assistant District Forester. Under these will be experts in charge of the various lines of work. A Chief of Grazing will have charge of range matters. A Chief of Products will handle the preservative treatment of timber and strength tests and study market conditions. A Chief of Lands will look after such matters as land examinations. The Office of Lands deals with questions involving the validity of claims asserted under the public land laws; applications for special use of the resources of the National Forests; changes in boundaries of Forests, and the examination of lands applied for under the Act of June 11, 1896, for agricultural settlement. The Forest Service, however, never passes on the titles themselves. That is entirely a matter for the General Land Office to decide. In the case of application for homesteads under the act of June 11, 1896, the forest service is called upon to decide whether the land is in fact more valuable for agriculture than for timber and if it is, to recommend its listing as open to entry and patent. In the case of claims the Service ascertains whether any facts exist which seem to show that the claim is not a legal one, in order that National Forest Land may not be unlawfully taken up. But it rests always with the Land Office of the Interior Department to decide whether the title should or should not be granted. The branch of Lands in the district Forest Service organization does not mean any new assumption of land business. There will also be in each district a Chief of Silviculture, who will have charge of timber sales, planting, and silvicultural experiments, and a Chief of Operation. The latter will supervise the personnel of the Forests; the permanent improvement work, through an engineer in charge; the accounts of the district, including receipts, disbursements, and book-keeping which will be directly supervised by an expert accountant; and the routine business of the district. In each of the lines of work the management will be in the hands of a man who is a specialist and who has had thorough experience both in the west and in Washington. The foresters and clerks at each district headquarters will number about 50. The establishment of these field districts will bring the service into

more immediate touch with the public. It is merely the completion of the movement, started some time ago, to have the Forests administered as far as possible by men actually on the ground.

The change will not affect the investigative work of the Service, which will center, as hitherto, in Washington. Mr. Pinchot is expected soon to name the men who will fill the various positions.

FULTON DYING HARD.

Trying to Get Statement 1 Men to Repudiate Pledges.

The Portland Journal of Aug. 11 says: Senator Charles W. Fulton, in his race for re-election to the United States senate and his desire to defeat the will of the people of Oregon and the ratification of the election of Governor Chamberlain, expects seven Statement No. 1 members of the legislature to prostitute their pledges and go into a joint caucus on the United States senatorship. That is the ultimate aim of all his plotting. Senator Fulton wants a joint caucus of the members of the legislature, every one of whom will pledge himself before going in to abide by the will of the caucus as regards the election of a United States senator.

Incidentally he expects to be that nominee, but he is not saying that to those whom he wishes to go in to the caucus. All efforts to control the organization of the legislature, and all effort to gain control of the party machinery of the state by the deposition of William M. Cake from the chairmanship of the republican state central committee, is subordinate to the effort to secure the 45 members of the legislature for the senatorial caucus.

Agree to Caucus.

Fulton agents are now busy sounding the different members of the legislature regarding the joint caucus. It is known that every one of the anti-Statement No. 1 members of the legislature has been seen and it is said that all of them have agreed to go into such a caucus. Effort is now being turned towards the list of 21 Statement No. 1 members of the legislature and each republican member is being sought out individually and brought to go into the caucus. All of the arguments which have been made in the past are being used but as yet it is not reported that any of the Statement No. 1 members have agreed to go into the conference.

The plan of Fulton and his friends is simply this: There are now 25 members of the legislature who are free to go into the caucus and by so doing, that is, provided that the "republican choice" men consider themselves absolved from their pledge to vote for H. M. Cake. It takes 7 men over and above the 25 to form a majority of the joint assembly and elect a senator.

All kinds of efforts are now being made and will be up to the time of the legislative convention to win over seven Statement No. 1 men to the senatorial caucus idea. The effort will be to get these men to agree to go into a caucus and to abide by a decision of that caucus regarding the senatorship. The Public Be Damned. No member of the legislature who aspires to office or to important committee appointment can hope for the support of the Fulton faction unless he agrees to support the joint caucus plan. The whole thing hinges on the joint caucus. If 16 members of the legislature can be secured to stand for a joint caucus Fulton expects to be able to land the senatorship in spite of the people of the state.

Fulton's attitude regarding the senatorship is summed up in the words attributed to him in a recent discussion of the senatorial question in which he is reported to have said: "I am going to beat George E. Chamberlain for the senate before the legislature if I can and I don't give a damn what becomes of my own political future."

That is the slogan of the Fulton men. They do not give a damn so long as they beat Chamberlain, but incidentally they are framing it up to make sure that Fulton will be the man who defeats the people's choice.

GUN SHOT IN THE DUCK.

After Eating Fowl, Cook Man Gets Appendicitis.

MARSHFIELD, Or., Aug. 12.—A novel cause of appendicitis was found when James Nowlin, a well-known Prosper man, was operated on at Mercy hospital in North Bend. Several small gunshots were found in the appendix as a result of an examination by the physicians. So far as can be ascertained, the only manner in which the shot could have found their way to Nowlin's stomach and appendix was in wild duck which he and friends had shot. The shot had not been removed from the birds in dressing them nor were they when Nowlin manifested the ailing meat. He remembers that he thought there were shot in the meat but he didn't find them.

SHERMAN NOTIFICATION.

UTICA, N. Y., Aug. 12.—Preparations are going forward for a great celebration here next Tuesday, when James S. Sherman will be formally notified of his selection as republican vice-presidential candidate. The town will be decorated in an elaborate manner and thousands of visitors are expected. Senator Burrows will make the notification speech. Mr. Sherman is now at work on his speech of acceptance.

FOR GOOD ROADS.

Oregon Association Adopts \$10,000 Educational Plan.

PORTLAND, Or., Aug. 12.—Education of Oregon people of the value of practical road construction was inaugurated yesterday on the plan endorsed by Tuesday's good roads conference. John H. Scott, ex-county judge of Marion county and president of the Oregon Good Roads Association, contracted his services to the committee on ways and means, appointed by the conference to direct this work and which has volunteered to raise \$10,000 to defray the cost of this popular education. Immediately he will enter the field and organize road construction in the various counties on a systematic basis. Judge Scott yesterday met with the members of the ways and means committee appointed at Tuesday's meeting and entered into a contract to spread the gospel of good roads throughout the state. He will assume his mission immediately and begin holding meetings in the different counties. Sufficient funds to start the work have been provided and the balance of the \$10,000, it is said, will be forthcoming whenever it is needed. Multnomah county is pledged to raise half of the \$10,000 that has been assured for educational work in addition to this substantial support. Multnomah county pays one-third of the state taxes, from which an appropriation will be asked of the legislature next January further to aid road construction throughout the state. In the six months ending June 30 last, this county expended over \$65,000 in the cause of good roads and there remains a balance of nearly \$140,000 in the county's good road fund.

A Bold Step.

To overcome the well-founded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published, broad and open to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicine. Thus he has taken his name, patrons and patients into his full confidence. Thus he has removed his medicines from among secret nostrums of doubtful merit, and made them medicines of known composition. For this bold step Dr. Pierce has shown that he is not afraid to subject them to the light of scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomachs, and liver or biliousness, and all curable diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicine. One of these little books will be mailed free to any one sending address on postal card to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. This little book will be mailed to Dr. Pierce's medicine, and that they are made from nature, medicinal roots of great value, and that some of the most valuable medicinal plants entering into Dr. Pierce's Favorite Prescription for weak stomachs, nervousness, "run-down" nervous and debilitated women, were raised here in the United States. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Pierce's Root." Our knowledge of the medicinal value of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, Dr. Pierce's Prescription is a most efficient remedy for regaining health, and procuring peaceful periods, leading to a perfect health, and to all failures in medicine.

ESTIMATING GREEN TIMBER.

Force of 15 Cruisers Now at Work on Pacific Slope.

PORTLAND, Or., Aug. 12.—In carrying out its plans to furnish the trade in the United States with correct estimates of all green timber on the Pacific slope, the United States Bureau of Corporations has established a division in Portland, with C. E. Edgerton in charge. It is proposed to secure the highest quality of skilled employes, so that the work can be done rapidly and correctly, and 15 men are now at work in the coast territory.

The examination of the timbered areas will of necessity require estimates to be made of the old burns and this part of the report to be submitted by Mr. Edgerton will likely be used by the allied lumber interests and timber owners as the basis of a demand for further protection from the state government and the various counties of the state in preventing the spread of forest fires.

It is claimed that the greatest wealth of Oregon and Washington is on their pine-clad hills, in the trees which have required hundreds of years to mature. In the morning they stand there representing the wealth of an individual, or a company, and the field of employment which supports a community. In the evening there is only a blackened waste—desolate homes and despair. An asset of the state has been negligently allowed to disappear. Watersheds are injured, and as a consequence, towns, farmers and grazers suffer.

There are about 350 deputy fire wardens in Oregon. If these men were under salary and doing patrol duty during June, July, August and September of each year, it would mean the saving of much valuable timber. It is contended that if the cost were apportioned between the state and counties it would not prove burdensome.

Clyde Davitt, assistant chief of the Forest service, states that he has been informed that the losses of timber in Oregon and Washington approximate 42,000 million feet. Part of it in dollars—and buy a new lead pencil to get the result.

Mr. Edgerton will not be ready to submit his report until December. He is receiving generous assistance from the Oregon and Washington Lumber Manufacturers' Association.

She Likes Good Things.

Mrs. Chas. E. Smith, of West Franklin, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at A. C. Marsters & Co.'s drug store, 25c.

DEMOCRATIC RALLY PLANNED.

Judge Alton B. Parker Speaks in Portland Next Tuesday.

PORTLAND, Or., Aug. 12.—Judge Alton B. Parker, the "Stage of Emancipation" and democratic presidential candidate four years ago, will deliver an address in Portland on next Tuesday evening, at a grand democratic rally now being arranged for by Alex. Sweek, chairman of the Multnomah County central committee.

The plan as now outlined by Chairman Sweek is to make the meeting next Tuesday evening a state-wide rally and he has already secured the consent of W. H. Holmes, of Salem, to act as chairman of the meeting at which Parker will speak. Other democratic leaders throughout the state will be asked to be present in the capacity of vice-presidents, and this afternoon Sweek will select a committee on entertainment for Judge Parker. F. V. Holman will be chairman of this committee, which will consist of about seven of the party's local leaders.

WILCOX AT LIBERTY.

Chief Justice Bean Admits Him to Bail in the Sum of \$2000.

SALEM, Or., Aug. 12.—Chief Justice Bean, of the Supreme Court, yesterday granted a petition for the release of probable cause, and admitted J. C. Wilcox, of North Bend, Coos county, to \$2000 bail, pending an appeal of a decree of the Circuit court, in which Wilcox was convicted of selling liquor to a minor, and was sentenced to one year in the penitentiary. Wilcox had served three months, when released. R. C. of Portland, is Wilcox's attorney. Wilcox is the leader of the liquor interests in Coos county, and has been arrested and fined upon numerous previous occasions for infractions of the state liquor laws.

PARCELS POST.

WASHINGTON, Aug. 12.—Under a parcels post convention with the governments of Chile and Ecuador, merchandise may be mailed to those countries at a rate of 12 cents a pound.

The mailing rate on merchandise between points in the United States remains 16 cents a pound, owing to the influence of the express companies.

For Sore Feet.

"I have found Bucklen's Arnica Salve to be the proper thing to use for sore feet, as well as for healing burns, sores, cuts, and all manner of abrasions," writes Mr. W. Stone, of East Poland, Me. It is the proper thing too for piles. Try it. Sold under guarantee at A. C. Marsters & Co.'s drug store, 25c.
