## TOURNAMENT OPEN

### Crack of Rifles Resound at Camp Perry, Ohio

## COMPANY TEAM MATCH ON

### Regimental Event, Feature of Long Program, Commences Next Monday Morning

SANDUSKY, C., Aug. 14.—The crack of many rifles is resounding from Camp Perry, the famous rifle range on the banks of Lake Erie, where the National Rifle Association today began its annual tournament. The contest follows the usual matches of the Ohio State Rifle Association and preceded the opening of the National Rifle for the Promotion of Rifle Practice, and the triple attraction has brought to the beautiful camping grounds some of the best shots of the nation.

Today's program opened with the championship company team match, at 200 and 500 yards, open to teams of five men from any company of the United States army, any ship of the navy and any company of organized militia from any state or territory.

Other matches to be commenced this afternoon are the inter-club match, for the rifle club championship of the United States; the "life members" match, for the championship of the National Rifle Association; the state secretaries' match, open to state secretaries of the National Rifle Association, and the press match, open only to newspaper men.

The most important event on the program is the championship regimental team match, open to teams of six from regiments of the army, navy, marine corps, state militia, West Point and Annapolis. This contest will be commenced Monday morning.

The first prize in this match is a handsome championship trophy valued at \$500. It has been won twice by the Sixth regiment Massachusetts volunteer militia and if this team is again victorious the trophy becomes its property. Next in interest is the company team match, commenced today, in which the prizes are cash and medals. Of the individual matches

it is difficult to determine which is the most interesting, the Leach cup, the Wimbledon cup or the President's match. They are shot under different conditions, the Leach cup being seven record shots at 800, 600 and 1000 yards, while the President's match includes everything from the skirmish to the 1000 yards stage. Both the Leach and Wimbledon cups are historic, and the winner of the President's match receives an autograph letter from the president in addition to a substantial cash prize. There are medals and cash prizes in each match.

Another very interesting event is the Championship Regimental Skirmish match, open to teams of six. When won twice the beautiful silver trophy becomes the property of the winning team. Last year this match had 51 entries. There is also a Championship Revolver Team match. The great feature of summer at Camp Perry will be the matches of the National Board for the Promotion of Rifle Practice, of which Herbert Shaw Oliver, assistant secretary of war, is president, and which are held annually under the provisions of an act of congress approved March 2, 1903. Following the close of the National Rifle Association events, next Thursday, the contestants will have two days of practice, preliminary to the beginning of the national matches on Monday, August 24.

The principal match will, of course, be the National Team match, for which congress has provided the trophy. It is for teams of twelve, open to the army, (2), navy, marine corps, military and naval cadets and the national guard of the various states and territories, including the District of Columbia. In this match there will probably be forty entries. The second team receives the famous Hilton trophy and the third the Soldier of Marathon, while there are six cash prizes for the six highest teams. Each member of the winning team receives a medal. Next in importance are the national individual rifle and national pistol matches, in both of which there are a number of cash and medal prizes. Last year there were 418 competitors in the individual rifle and 250 in the pistol match, and more are expected to enter this year.

Major William B. Martin, of the New Jersey national guard, who was tied for the highest score in the Olympic rifle matches in England, will be one of the contestants in the national matches and is expected to give additional proof of his supremacy as a rifle shot.

## HARRIMAN CALLS CONFERENCE

Invites Chamberlain, O'Brien and F. S. Stanley to Visit Him.

PORTLAND, Ore., Aug. 13.—E. H. Harriman has invited Governor Chamberlain, J. P. O'Brien, vice-president of the Harriman trust, Oregon, and F. S. Stanley, president of the Deschutes Irrigation & Power company, to make him a visit at Pelican Bay. The three guests have accepted the invitation and are to leave today on the trip.

Vice-president O'Brien said last night that so far as he knew, Mr. Harriman's purpose in extending the invitation to himself and the others was to obtain further information concerning the progress made in the development of Oregon since his last trip into this state. Mr. O'Brien said the governor was doubtless invited because of his well-known ability to speak authoritatively on the subjects presumably to be discussed.

"The governor," continued Mr. O'Brien, "I understand, has said since receiving his invitation to visit Pelican Bay, that he expects to discuss the construction of the Central Oregon road and of the Crater Lake road with Mr. Harriman. The governor is said to have added that he was about to make the trip because he believed something for the advantage of Oregon would result from a conference with the president of our systems."

Mr. Stanley is president of the Deschutes Irrigation company and has given a great deal of study to transportation as well as irrigation matters and his visit to Mr. Harriman's lodge at this time is regarded with much interest in railroad circles. He is closely related to various development organizations in the state and is regarded as a good representative to present the various improvements advocated for the good of the state.

## CUTICURA CURED MOTHER AND BABY

Southern Woman Suffered With Itching, Burning Rash—Drove Her Nearly Crazy—Her Baby Had Sore on Neck, and Two Other Babies Had Skin Troubles—Calls CUTICURA A STAND-BY THAT NEVER FAILS HER

"I just can't say enough for the Cuticura Remedies. I can't find words high enough to express my thanks to God for hearing of the wonderful remedies. My baby had a terrible rash on his neck and nothing that I did for it took effect until I used Cuticura. My face was nearly full of itter or some similar skin disease. It would itch and, after scratching, it burned so that I could hardly stand it. Two cakes of Cuticura Soap and a box of Cuticura Ointment cured me. Two years after it broke out on my hands and wrists. I cured it for a while, but it came again in the summer. Sometimes I would get nearly crazy for it itched so. I used ten dollars' worth of so-called blood medicines which did no good at all, then I went back to my old stand-by, that had never failed me. One set of Cuticura, Cuticura Soap, Ointment, and Cuticura Resolvent did the work. One set also cured my uncle's baby whose legs were a cake of sores, and I know of another woman's baby who was in the same fix and nothing else did any good. I speak a word of praise for Cuticura whenever I see a case that needs it. Mr. Little Wheeler, 770 Eleventh St., Chattanooga, Tenn., Feb. 16, 1907."

## S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

The skin is an index to the quality of the blood. Eczema, Acne, Tetter, pimples, rashes, eruptions, etc., show that some unhealthy humor or acid impurity is diseasing and corrupting the circulation, so that instead of supplying nourishment and strength to the fine, delicate tissues of the skin, it is continually pouring out its acid and unhealthy accumulations. External applications of salves, washes, lotions, etc., may relieve some of the itching and other discomfort caused by skin troubles, and for this reason should be used, but such treatment cannot reach the humor-laden blood, and therefore cannot cure. A thorough cleansing of the blood is the only cure for skin diseases. S. S. S., a purely vegetable preparation, is the best and quickest remedy. It goes down into the circulation and neutralizes and removes the acids, impurities and humors, thoroughly purifies the circulation and permanently cures skin diseases of every kind. When S. S. S. has driven the humors and impurities from the blood, and cooled and cleansed the acid-heated circulation, every symptom passes away, the skin is again nourished with rich, healthful blood and the trouble cured, as the cause has been removed. Book on skin diseases and any medical advice free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.
