SPRINGFIELD MOB DISPERSED BY SOLDIERS

Riot Ends at 4 This Morning After Night of Horror

QUIETING VOLLEY KILLS 4

Negro Lynched and Riddled With Lead —Section Occupied by Blacks is Destroyed

Special to the Evening Review.
SPRINGFIELD, Ill., Aug. 15.—A volley from the guns of the soldiers, which mowed down five members of the mob and slightly wounded many others, put an end to the riot here at 4 o'clock this morning. The city is now quiet after its night of horrors, during which two persons were killed by bullets, one negro lynched and 25 places of business conducted by negroes destroyed. All saloons are closed and soldiers are patrolling the streets.
Fearing another outbreak, however, Governor Deneen has ordered the 1st and 4th regiments and the remaining companies of the 5th regiment of state militia to report here today. When these troops arrive, there will be three full regiments on the scene and these will be ample to suppress any disorder that might arise.
John Caldwell, white, who was shot through the stomach last night, died this morning. W. H. Bows, a clerk in the county treasurer's office, who was attacked by a gang of negroes yesterday forenoon, is now dying in a hospital. While going home, Bows was fired on until he fell. His assassins rifled his pockets, taking all of his money, also a diamond ring and a diamond shirt stud.
Scott Burton, colored, a saloon porter, who shot James Hayes, a white onlooker at the riot, was seized by the mob, amid yells, and

hanged to a tree. His suspended body was riddled with bullets.
The negro quarter of the city looks as if it had been struck by a cyclone. The restaurant of Harry T. Loper, who yesterday loaned the sheriff his automobile to spirit away George Richardson, the negro whose heinous crime precipitated the riot, is a complete wreck. While the mob was wrecking the restaurant, which was one of the finest in the city, Loper sat in the rear smoking a cigar and holding a rifle on his knees.
Chaffin's Head Cracked.
Eugene Chaffin, prohibition candidate for president, in protecting a negro from death, was struck on the head with a brick and put out of commission temporarily. The negro he saved drew a knife and badly cut several men in the fight.

Assault on Woman is Cause.
The rioting was precipitated by an atrocious assault committed by Richardson upon Mrs. Mabel Hallam, wife of a street railway employe. While the woman slept alone in her home on a populous residence street, awaiting the return of her husband, the man broke into the house, dragged her into the rear yard and assaulted her.

To avoid lynching, Richardson was first taken to Bloomington, McClellan county, and later in the night to Peoria, 100 miles distant. Troops are being sent to Peoria to guard Richardson and another negro, who murdered Clergy Ballard, State Mine Inspector, while the latter was defending his daughter from assault.
Trouble is looked for at Peoria as there were riots in that city three years ago, when a mob tried to lynch a negro murderer. Prompt local execution of the black alone prevented a bloody uprising there at that time, but the people are ready for a fresh outbreak.

Albany Democrat: Mr. Claire Baker last evening had an interesting experience. He and his family have been sleeping in their yard in a tent. They heard some one outside, and Mr. Baker peering out saw a woman stealthily going between the tent and the house towards the rear door. Without any preliminaries, he started out in his night shirt, the woman fleeing past the Presbyterian church, across the court house lawn. About then he hit a nail, besides saw three women coming, and not being in full dress, returned for more clothing, when the midnight murderer had disappeared. Just what the visitor was after is guess work, but it was undoubtedly not a friendly visit.

POSTPONE LUMBER RATES. RUFEE LOSES AGAINST BURNS.

SAN FRANCISCO, Aug. 15.—Lumber carrying railroads of the Pacific coast, which were ordered by the interstate commerce commission to reduce their rates on lumber and its products, effective today, have been granted an extension of time until October 15. It was shown by the carriers involved that it would be impossible to check up rates and file new tariffs in time to become effective today.
Assurance was given the commission by some of the carriers that if the extension were granted they would not apply for an injunction to restrain the commission's order from becoming effective. However, the carriers expressly retain their right to test the reasonableness of the rates ordered by the commission in a suit to be brought for that purpose, or in suits which may develop out of reparation claims made by shippers who have been shipping under the advanced rates.
This does not include the case involving rates from the Willamette Valley to San Francisco in which the Southern Pacific Co. has already filed a petition at San Francisco asking for an injunction against the commission's order.

Religion an Issue.
CHICAGO, Aug. 15.—That religion will be made an issue in the coming presidential campaign seems probable from the following statement made today by J. H. Atwood, of the democratic subcommittee on speakers:
"Taft's Unitarian views deprive him of any right to expect the support of Christian voters, whereas Bryan's devotion to the church furnishes an appeal to every believer in Christian doctrines."

End of Strike in Sight.
WINNIPEG, Aug. 15.—J. T. McVey, strike manager for the entire western section of the Canadian Pacific machinists, left hurriedly today for Ottawa to hold a conference with President Shagnessney, of the Canadian Pacific, with a view to effecting a settlement of the difficulty. Robbery Frustrated.
SEATTLE, Wash., Aug. 15.—Four masked men, intending to hold up a street car early today on its way to this city, was frustrated by the motorman, who observed one of the men put on his mask. Allowing his car full speed, the motorman sped away too fast for the robbers, who fired at him, but did not hit him.

Special to the Evening Review.
SPOKANE, Wash., Aug. 15.—Masked bandits last night held up and stole the engine and mail car of a Northern Pacific train, taking them down the track, where they rifled the registered mail pouches. Postal authorities are now trying to learn the amount of money stolen, which is believed to be small. A search for the bandits is being made in local saloons and lodging houses, but so far no trace of them has been found. A suspect, found riding on the top of a coach, is under arrest, but there is no evidence against him.

SERIOUS GRAIN FIRE.

About 800 Bushels Burned on R. B. Dixon Farm Friday.

Starting about 3:30 o'clock Friday afternoon, fire destroyed five stacks of grain on the R. B. Dixon farm, about seven miles east of this city. The grain was mainly oats and was estimated at about 800 bushels. Fire evidently started from a spark from the engine of J. T. Spangh's threshing machine, which had started work there only a few moments before the fire was discovered. An alarm of fire was at once raised but the flames seemed to envelop the stacks of grain almost like a flash. The engine was stopped, the big drive belt thrown off and the engine was run around to the rear of the threshing machine. There, after three or four attempts, a chain was fastened to the machine and it was drawn out of danger. The self-feeding attachment of the machine was burned. The grain was a total loss, with no insurance.

F. J. BLAKELEY'S CAR LINE.
Medford Council Puts Question of a Franchise up to People.

Medford Tribune: The city council last night unanimously adopted a resolution submitting to the public the matter of granting a franchise to Fred J. Blakeley for an electric railway upon certain streets of the city for a term of 50 years. The election is set for August 31.
By the terms of the franchise Mr. Blakeley agrees to have one mile of the road completed and in continuous daily operation within 18 months from the time the franchise is granted. He also agrees to pay his pro rata of the cost of improving any of the streets of the city along which the lines of his company extend.

WHI Hasten Work.
Mr. Blakeley stated to the council last evening that the sooner the matter is acted upon the sooner he can get to work. He wishes to have the Seventh street track laid before the pavement is put down, as this will mean a saving of about \$2700 to his company.

The franchise grants to Mr. Blakeley the right to lay tracks upon Riverside avenue and Seventh street from city limits to city limits and upon Third street to Holley, on Holly to Eleventh, on Eleventh to Central avenue, on Central avenue to Twelfth and on Twelfth to Riverside avenue.

As most of the citizens of the city are alive to the advantages to be derived from an interurban trolley line, the franchise will probably be sustained at the election.
