INTIMIDATING VOTERS.

Former Tactics of Trusts Proving Severest of Boomerangs.

Former Congressman Robert Baker has sent a sharp reply to the suggestion from the New York Leather Belting Company that industrial interests support the Taft-Sherman ticket to the end of restoring business activity. Mr. Baker, always an ardent Bryan man, is now the president of the Austin Rotary Engine Company, a young corporation that is marketing a new rotary engine recently invented by a South Brooklyn friend, William K. Austin.

The Austin Rotary Engine Company a few days ago received a letter from the New York Leather Belting Company offering republican campaign cards to be posted in industrial establishments, bearing the promise of "full time" on the strength of republican victory. The method of campaigning for republican votes through the corporation is resented by Mr. Baker who asks why the factories are not on full time now, in a republican administration.

The correspondence in self-explanatory. The letter received by the Austin Rotary Engine Company was as follows:

"New York, July 22, 1908.  
Gentlemen:—We have tacked this notice upon the walls of our factories in Brooklyn and New York:  
"Believing that the election of Taft and Sherman means a safe and progressive business administration the day following their election we shall start this plan on 'FULL TIME AND KEEP GOING.'"  
"If you believe with us that by relieving any uncertainty as to what the wage earner can expect in the event of electing men who will secure the business prosperity of this country, we should be glad to have you follow our example.

"As members of the National Association of Manufacturers, the American Hardware Manufacturers' Association, the American Supply and Machinery Manufacturers' Association, the National Credit Men's Association, the Manufacturers' Association of New York, the New York Board of Trade and Transportation and other commercial bodies, if you will kindly fill in and return to us the enclosed card, we will supply you with a 'full time and keep going' card, such as we have posted, and notify all these associations of your harmonious attitude.

"Regardless of politics, once the manufacturers of this country join operation, while they are generally credited with having in October-November last gathered in nearly everything in a large way in the shape of banks, trust companies, industrial and railroad combinations, which had not far escaped them, in fact the bulk of the people have been set a lively pace to pay the increasing prices for the necessities of life these and a few other control.

"But what has happened to the masses, whom you and other boosters of McKinley and Roosevelt assured were to share in the prosperity? With a total estimated wealth of some hundred and ten billions the per capita tables work out all right, here should be enough to go round, for that's what is wanted, not per family. But who has it? How many of the millions of toilers have a tenth of that sum free and clear? How comes it that the bulk of the people

"Believing that the election of Taft and Sherman means a safe and progressive business administration the day following their election, we shall start this plan on 'FULL TIME AND KEEP GOING.'"  
"Permit us to say we do not understand. Why have you stopped your factories? Why is the 'Full Time and Keep Going' plan not now in operation? Why has there been any shutting down by you and the other members of the National Association of Manufacturers, the American Hardware Manufacturers' Association, and the numerous other similar associations to which you say you belong? Did you not assure us that McKinley would insure a 'full dinner pail' to all who desired to work? Was not this assurance renewed when your several bodies endorsed Roosevelt and Fairbanks? Then what has emptied the dinner pail of millions of men who are willing to work? What greater reliance can be placed on this assurance than on the others? If you were false prophets before, how do you know you will not be again?

"But why the closed factories? Why the idle mills? Why the unused freight cars? Why the maintenance of high prices in the face of falling demand? Where is the 'abounding, marvelous, wonderful, unparalleled, widespread prosperity?' Haven't we got a republican administration? Haven't we got a republican senate and house of representatives? Haven't we had them uninterruptedly for 12 years? Haven't the republicans made the laws. State as well as national, and haven't they been charged with their enforcement? Then what is the matter? If the laws are defective, why haven't they been altered? If defective now, were they not equally defective eight and four years ago, when you assured us, 'all is well' and 'leave well enough alone'?"

"Why the depression we ask? Haven't we had seven years of Roosevelt, who, according to republican orators and assistant republican,

as well as republican newspapers, is the greatest, wheat and best president the country ever had? Haven't we had 12 years of 'standstill' with Hanna, Adair, and Cannon sitting on the brakes to prevent the enactment of legislation not desired by the gentlemen who are so conspicuous in their support of Taft and Sherman—Morgan, Rockefeller, Carnegie, Harriman, Schiff? Do these men ever make a mistake when they seek candidates? Which is most likely to be mistaken, these men who say that Taft is all right, that he is a conservative, or the western farmer who is told that Taft is radical?

"Where is the 'abounding prosperity?' Wealth has certainly increased enormously, or, at least, prices have been boosted to a point that ought to have satisfied the most avaricious. The fortunes of the few have become gigantic—bounded out of sight. Morgan, we are told, has three hundred or so millions. Carnegie, as such, while Rockefeller is credited with a billion; a few thousand others have from one to a hundred millions each. These seem to have had their 'full time and keep going' cards in operation, while they are generally credited with having in October-November last gathered in nearly everything in a large way in the shape of banks, trust companies, industrial and railroad combinations, which had not far escaped them, in fact the bulk of the people have been set a lively pace to pay the increasing prices for the necessities of life these and a few other control.

**Bad Symptoms.**  
The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has increasing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdomen, irritable or painful periods, with or without pelvic catarrh, is suffering from the whole female system, and should have early attention. Not all above symptoms are likely to be present in any case at one time.

Kept quiet or badly treated and such cases often run into malacia, which means the surgeon's knife if they do not mend naturally.

No medicine has such a long and successful record as Dr. Pierce's Favorite Prescription. No medicine has such a strong and reliable effect on each of the delicate and important organs of the female system. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No useless, harmful, or habit-forming drugs to be found in the list of its ingredients printed on each bottle, and it is not a secret under oath. In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system, and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this 'Favorite Prescription.' It will not perform miracles; will not cure tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Dr. Pierce's Medical Adviser, which is held as strictly private and confidential. Address Dr. E. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (31 pages) is sent free on receipt of 21 stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

will have to toil such long hours that life becomes a burden.  
"Finally, firmly believing in the fundamental democracy of American institutions, we have no more right to dictate how our employees should vote, than they have to coerce us."

By Robert Baker, Pres."

**Excellent Health Advice.**  
Mrs. M. M. Davison, of No. 379 Gifford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at A. C. Marsters & Co.'s drug store, 50c.

**INDIANA INDEPENDENTS.**  
Governatorial Nominee May be Maker of Band Instruments.

INDIANAPOLIS, Ind., Aug. 27.—Brass bands will play a prominent part in the campaign of the Hoosier branch of the Hearst Independence party, if the plans of the party leaders are carried out. Charles G. Conn, of Elkhart, the millionaire manufacturer of musical instruments, is being urged to accept the nomination for governor and according to delegates who are here today in advance of the state convention, he will probably accept.

Mr. Conn is known all over the world as a maker of wind instruments and his fame in this direction should insure him the brass band vote. He has made many millions in his business. Until recently he was a democrat and served several times in congress. At one time he was the owner of the Washington Times, now the property of Frank Munsey, which he conducted for the alleged purpose of giving his congressional acts proper publicity. He is a clever advertiser, and if nominated for governor by the Independents, he will likely make a spectacular race.

**JUDGE BAKER EXPLAINS.**

Standard Oil of Indiana and Not Parent Concern on Trial.

GOSHEN, Ind., Aug. 26.—Judge Francis E. Baker, of the United States Court of Appeals, which reversed the decision of Judge Landis fining the Standard Oil Company \$29,000,000, replied yesterday to the criticism of his court.  
"In the first place," he said, "it was not the Standard Oil Company incorporated under the laws of New Jersey, the parent concern, that was on trial, but the Standard Oil Company of Indiana, an off-spring, undoubtedly, but a much weaker organization."  
"But when it came to pass judgment it was on the offenses of the parent company, that the Indiana off-spring was found guilty, and it was on the property and revenues of the parent company that the fine of the off-spring was assessed. If it was the purpose and purpose of the court to punish the Standard Oil Company of New Jersey, that company should have been indicted, either jointly or separately, and have been brought in to court."  
"Every corporation has exactly the same rights as an individual, no more, no less. The parent company is, of course, more or less responsible for the acts of the Indiana company. The people will sooner or later realize that the courts are not swayed by any other influence than law and precedent. What any one man may say in regard to the decision of a court counts for no more than his opinion. All I know in reality about the case is that a common thing has occurred—a motion for a rehearing has been filed."
