AUGUST 31, 1908. As the fall season approaches there is an increasing interest in the question of a new theatre for Roseburg, our former playhouse having been converted into a store building last January.

The Umatilla county and Palouse regions have grown wealthy from wheat crops averaging from \$10 to \$30 per acre annually. Imagine, if you can, the riches that are in store for owners of Douglas county fruit lands, the annual crops from which bring from \$100 to \$500 per acre.

"Advertising Oregon" is the title of a page in Oregonian, No. 8th, one of the most widely known of advertising journals. And it is no wonder that the state's work along these lines has attracted this attention, for no portion of America is circulating the attractive literature that burdens the mails of Oregon every day in the year.

Street paving, the work upon which is to begin in a few days, will have a great influence toward making Roseburg a modern city. Of far greater importance to the county is the building of good roads and the planting of thousands of acres more of orchards of choice fruits.

Chairman Mack and other democrats are making a fuss because the railroads refused to make special rates for the Bryan notification last week, though special rates were made for the Taft notification. They should remember that railroads are not in the habit of charging regular rates for their own construction material or for their employees.

G. O. P. NEEDS MONEY. Campaign Outlined Requires Amount Hanging Around \$1,000,000.

CHICAGO, Aug. 31.—Preparations were completed today for the opening of Republican National Congressional headquarters here. Methods of raising money for campaign expenses are still a source of worry to the campaign managers.

Where all this money is to come from, now that the corporations are excluded from making campaign contributions, is a matter of conjecture. It is likely that the original estimates will have to be greatly reduced.

BAN ON BUCKET SHOPS. New York's Prohibitive Law Became Effective Today.

NEW YORK, Aug. 31.—Under the operation of the Cassidy law, passed by the last legislature and signed by Governor Hughes, bucket shops will become illegal institutions in New York after today. It is alleged that

leading operators of bucket shops in this city have planned to evade the provisions of the law by conducting business through the medium of an apparently legitimate exchange.

Under the Cassidy law a bucket shop is declared to be any building or any room, apartment, booth, office or store therein, or any other place where any contract prohibited by the statute is made or offered to be made.

The prohibition extends to the making of contracts for the purchase or sale of stocks, bonds, securities or commodities, wherein both the parties thereto intend that such contract shall or may be terminated, closed or settled according to or upon the basis of the public market quotations of prices made on any board of trade or exchange upon which such commodities or securities are dealt in, and without intending a bona fide purchase or sale of the same.

Similar provisions are made to prohibit other phases of the bucket shop, gambling business. The penalty for violating any of these provisions is a fine of not more than \$5,000 for each offense, if the offender be a corporation, and in all other cases a fine of not more than \$1,000 or imprisonment for not more than five years or both.

She Likes Good Things. Mrs. Chas. E. Smith, of West Franklin, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it."

Free Johnson returned Sunday from a two weeks outing at Bandon. He reports a fine trip and says Bandon is enjoying a splendid growth.

A Square Deal. Is assured you when you buy Dr. Pierce's family medicines for all the incredible values entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct.

Besides curing the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages, of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield in this sovereign remedy if its use be persevered in.

THE HUMAN ENGINE.

To Operate This Masterpiece Air is the First Necessity. Of all the engines cunningly devised by man not one can equal that masterpiece of construction, the engine of the human frame.

The body burns the carbon and hydrogen of these substances, carbon dioxide (carbon acid gas) and hydrogen oxide (water). The water that is formed within the body by the burning of hydrogen is of comparatively slight importance in a consideration of the vital questions of the effect of city air upon the individual, but the other factor, the carbon dioxide formed in the body, is of direct importance.

FOOD FOR CANNIBALS.

One of the Many Tragedies Enacted in Polynesia. It is not so very long ago that cannibalism was rife throughout Polynesia, so that to be killed, cooked and eaten was the almost invariable fate of sailors who chanced to be so unfortunate as to be cast away on any of the outlying little visited islands.

Philadelphia's Anti-tipping Scheme. A Philadelphia acquaintance has invented a way of getting rid of the "brushing" nuisance. He places a silver quarter in the hollow of his right hand and, turning to the boy who is pretending to find dust upon his clothes, says: "You are such a tremendous 'brusher' I will give you this money if you can brush it out of my hand."

A Wart Superstition. Boys in the west of England believe that by squeezing a mole to death between the hands and touching the affected parts with the blood that oozes from the mouth of the dying animal warts will disappear and will not reappear. The culprits are convinced that moles, worms and other subterranean dwellers have no feelings, and therefore it is not cruelty to put them to death in this way.

Sarcasm of English Humor. It is to be feared that if the papers reserved a special corner once each week for the witicism of the week it would be often left blank. There is no wit to speak of today, only a feeble imitation of it which people are fond of calling the saving sense of humor.—London Saturday Review.

Just a Change. "Poor man! Have you always been blind?" "No, mum," answered Tired Timmy, "but dere wuzn't euff in it."—Louisville Courier-Journal.
