Excess of religious fervor or of indulgence in alcoholic stimulants probably both is held to be responsible for the partly demented condition of Mrs. L. Reed, an elderly lady, who was taken off the northbound flyer in this city Thursday afternoon, and turned over to the county authorities. While on the train, Mrs. Reed became hysterical and declared she would depart for the spirit world were it not for the fact that her work on earth is not completed. An examination of her personal effects here revealed a quart whiskey flask, nearly drained of its contents. It is not likely that Mrs. Reed will be committed to the insane asylum. She is now being cared for at Mrs. Bayless' hospital, and it is believed that she will be able to resume her journey by tomorrow. Her frequent requests for stimulants have been denied and she is gradually getting more rational in her conversation. Mrs. Reed carries a railroad ticket from San Francisco to Seattle.

NOTICE TO TAXPAYERS.

The last half of taxes due for the year 1907 will be delinquent after Monday, October 5, 1908.

Delinquent taxpayers will take notice that delinquent taxes will not be advertised as heretofore; under a law passed by the last legislature of this state taxes that are delinquent after the expiration of six months from the first date of such delinquency may be paid by any one demanding to pay same and a certificate of delinquency will be issued to such party.

Section 37, of said law, in part, reads:

"Any day after the expiration of six months after taxes charged against real property are delinquent the tax collector shall have the right, and it shall be his duty, upon demand and payment of the taxes, penalty and interest, to make out and issue a certificate or certificates of delinquency against such property."

Section 38, in part, reads: "Certificates of delinquency shall bear interest from the date of issuance until redeemed at the rate of 15 per cent per annum."

Delinquent taxpayers are therefore advised that if they have not paid at least one-half of their taxes on or before the first Monday in April that the same are delinquent and have been delinquent since said first Monday in April, and those who have paid one-half of their taxes at above the remaining one-half will be come delinquent after the first Monday in October, and six months from such dates a certificate of delinquency bearing fifteen per cent interest per annum may be issued against your property.

To save further costs, penalty and interest you are earnestly requested to settle the same at once. B. FENTON, Sheriff and Tax Collector dws5

"LEAGUE" GETS BUSY.

Warns Local Business Men to Heed Sunday Closing Law.

Several Roseburg business men this morning received through the mail letters warning them to cease violating the Sunday closing law. Each letter was typewritten in its entirety and signed "League." All are dated at Roseburg, Sept. 16. The recipients of the letters are Ed. Jennings, G. L. Flint, R. B. Matthews, Paquette Drug Co., all dealers in soft drinks, and Henry Althaus, who conducts a machine shop and automobile garage. The notice sent to Mr. Althaus reads as follows:

"See no more gasoline on Sunday because of Sunday closing law. We are going to enforce it. The letters received by the other business men are of substantially the same language, save that they refer to soft drinks. The one sent to Mr. Matthews was made a little more emphatic than any of the others, as the sender had drawn a picture of a jail in one corner, for fear, perhaps, the recipient might not understand the full significance of the warning.

The identity of the "League" is left to conjecture. None of the men who received the notices are able to state positively who is so vigilant in behalf of the Sunday closing law, but they, of course, have their suspicions.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of the prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for 20 years, although I am now 81 years of age." HAWKING MACHINES.

Cataract Sufferers are Nothing But Hawking, Splitting and Blowing Machines, Says an Authority.

Is it possible that in these days when cleanliness and sanitary reform is being preached in the churches, schools and at public gatherings, that thousands of people will continue to suffer from cataract, when there is an absolutely certain remedy always "in hand."

Hysomet (pronounced High-o-me) is a pleasant, medicated and antiseptic air. Breathe it in and it will cure cataract. It will stop foul breath, watery eyes, and crasis in the nose, in a very few days.

I suffered from cataract for two years; tried numerous remedies that failed; used one and one-half bottles of Hysomet and am entirely cured.—C. S. Lindsay, 407 East First Ave. Mitchell S. D.

GUARANTEE OF DEPOSITS.

(Continued from page 1.)

lars constantly remain hidden, hoarded in old stockings, boxes and all sorts of receptacles. It was estimated that were these hoarded dollars brought forth and deposited in the banks the increase of the currency would be sufficient to provide all the needs of business, for which so many plans have been formulated in late years.

Would not any plan which would insure the bringing forth of these hoards recommend itself to you? Would not you endorse it, so long as otherwise it proved to be sound and healthful?

I am sure that examination of the facts bearing on the Oklahoma situation will indicate that guarantee of deposits is the plan the country has been looking for.

A National Banker's Testimony.

After the guarantee plan had been in force in Oklahoma for a time, S. H. Burnham, president of the Lincoln, Neb., First National bank, wrote to O. J. Fleming, president of the Enid, Okla., National bank. Mr. Burnham expressed his assurance of deposits. He told Mr. Fleming that he desired the facts. Mr. Fleming gave them. He told about the increase in the deposits of the guaranteed banks of about \$2,000,000 since the law had gone into effect and the decrease of between \$500,000 and \$1,000,000 in the deposits of national banks, which were not permitted by the controller of the currency to participate in the guarantee offered by the state law.

In other words there was an increase of \$2,000,000 in deposits of one class of banks and a decrease of less than \$1,000,000 in another class, or a net gain of at least \$1,000,000 in the total bank deposits of the state.

Opponents of the guarantee have represented that this increase came from deposits sent in from out-of-state banks. In part this was true.

But read Mr. Fleming's written testimony as to whence came most of the increase. He wrote thus the Lincoln, Neb., banker:

Brought Old Shoe Boxes. "One man came into our bank with an ordinary shoe box. He brought it into the private office of our bank and asked us to open it and count the contents. We found the sum of \$1,450 done up in little rolls of \$100 each, tied with an ordinary string. This money bore all the evidence of having been buried. Upon another occasion a farmer sold his farm for \$4800 cash, and at the time of sale he came into our bank and was intending to take the proceeds of the sale all in cash. After I explained to him the new banking laws of Oklahoma, which gave to depositors a protection not afforded by any other state, of which he had never heard, he immediately concluded to leave his money on deposit with us. The amount is still on deposit in our bank at this time. On another occasion a widow sold her farm in our county and removed to Colorado. She said she desired to have her money left with us, as she knew the banks of Oklahoma were under the guarantee deposit law of the state. She felt perfectly satisfied with that protection afforded by the new banking law and would not draw upon her account when actually needed.

"We could multiply instances of the same character almost without number, but hardly think it necessary to give additional ones. I am one of the national bankers who have availed myself of the benefit of the depositors guarantee law of our state, and feel that it is the best move that we have ever made since we have been in the banking business.

"There was no particular reason why our deposits should increase so rapidly, as our city has only had steady growth, no boom of any kind and no unusual deposits of any size.

Bank Failures Unnecessary. "I believe the banking business to be an honorable business and if conducted according to law there will never be a failure of either a national or a state bank, and as long as banks are conducted along these lines the bankers should be willing to stand for each other and there would be no liability in doing so if the business is conducted as it should be. If the bankers of our state are not willing to stand for mutual protection of each other, I cannot for the life of me see how they could expect the deposits of the public to be left with them without any guarantee whatever. If the bankers themselves cannot trust each other, I feel certain that no banker will ever be called upon to pay any guarantee for our business, and I have faith in the banks of our state that I conducted along similar lines that I will not be called upon to pay for any of their shortcomings. With the supervision that the state banking laws is giving the secured banks, together with the class of bankers that we have in the business, I feel quite sure there will be no loss to the banks on account of the depositors guarantee law.

"There is a sense of security in running a bank under the depositors guarantee law that there never was before. In this, as we know that no false rumors can be started affecting the banks that are under this new law. The public knows full well that the failure of any bank would not affect their deposits, hence, for that reason, along with many others, I think that the law is having a good effect upon the banks and the people that do business with them. We can loan a larger percent of the bank's funds and feel perfectly safe in so doing, knowing full well that the tongue of the slanderer is hushed and a false report of the business is stopped before it even gets a start."

of that comet's tail 300,000 miles. And there was not the slightest thing by which anybody could know what happened. There was not even a haze. The tails of comets are so thin, so tenuous, that it is almost impossible to put it in words. Through the nucleus or head of a comet the light of a fifth magnitude star passes without any diminution.

There are dozens of lost comets known to astronomy. These monsters of the sky have into sight, astonished everybody by their brilliancy and had their orbits calculated and then when the astronomers predicted they were going to reappear they never returned, and the astronomers were covered with confusion.

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn, of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every preparation known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. Red Cross Pharmacy.
