WORKINGMEN FOR BRYAN.

A Prominent Labor Paper Makes a Vigorous Pronouncement.

Buffalo, N. Y., Republic: The Republic is not a Democratic paper. It is not a Republican paper and it is not an Independence party paper.

It has no more interest in the Democratic party than it has in the Republican party; no more in Democratic politicians and office-seekers than in Republican politicians and office-seekers.

The rank and file of both parties is made up of decent, patriotic citizens, and it is only when the Cannons, the Aldrichs, the Jim Shermans, the Postes—tools of ruthless financial and corporate interests—secure control of a party that that party becomes vicious and a positive menace to the rights, liberties and material well-being of the rank and file of all parties.

The Republic is for labor and everything that will advance the cause of labor and increase the opportunities and improve the conditions of the laboring man.

The Republic at this time is heartily in favor of the programme of President Gompers and the Executive Council of the American Federation of Labor.

There are substantial, over-powering reasons why The Republic lines up with Gompers in this fight and stands ready to use all its feeble efforts to uphold his hands.

This fight means the honorable, glorious and righteous triumph of Gompers and organized labor or it means their humiliating, ever-widening and permanent subjugation at the hands of its selfish and relentless enemies.

Where do you stand? Let no toiler in this land of alleged freedom mistake the true significance of the conflict now being waged.

Let no workingman who believes in a square deal, who believes that they who labor are entitled to a fair share of the fruits of their toil, blind himself to the fact that if organized labor goes down to defeat in this crisis the victors will seize all the spoils of war and exact a merciless tribute, under the burden of which organized labor, crushed and enfeebled, will stagger through many generations to come.

IN THIS FIGHT LABOR STANDS ON FAIR GROUND.

It was not many days ago when the word was sent out boldly throughout the land that the representatives of the great financial and corporate interests had come to the conclusion that the time had arrived when they should make common cause against organized labor for the purpose of crushing it once and for all.

That this determination has led up to the conflict now being waged can be no doubt. The game of wits was sneeringly and insultingly thrown at the feet of labor in Chicago a few weeks ago, when Cannon, Sherman, Aldrich and the rest of labor's foes controlling the Republican National Convention, themselves controlled by the ancient enemies of labor—and ignoring the known wishes of Roosevelt—defiantly denied to organized labor the just recognition of the labor union man's rights as a citizen, drove President Gompers and the Executive Council out of their convention and heaped insult upon injury by nominating for Vice-President, Jim Sherman, the errand boy and handy man for Joe Cannon, the most relentless and effective foe that labor has had at Washington in generations.

At the Democratic National Convention every step made by the American Federation of Labor, through Mr. Gompers and the Executive Council, was granted.

As a natural consequence, President Gompers and the Executive Council of the American Federation of Labor have advised organized labor to vote this fall for Mr. Bryan, who stands on a platform framed in the interests of organized labor, and against the Republican candidate, whose platform was framed in direct and affirmative defiance of organized labor.

To the workingman this is not a party issue that is to be fought out this fall.

The dignity, the rights and the life of organized labor are at stake and will be won or lost in this battle.

The powerful interests that are opposed to Mr. Gompers and the American Federation of Labor are opposed to the right of the Republican workingman, precisely as they are opposed to the rights of the Democratic workingman.

You workingmen all must stand or fall together.

If they defeat Gompers, they crush you.

If the American Federation of Labor is beaten—and it cannot be beaten except through the disloyalty or folly of organized labor—then the voice of organized labor, now so powerful, will cease to have any strength or potency in your legislative halls or in the offices of the employers of labor and will henceforth be lifted in vain in the cause of the toiler everywhere throughout the land.

Mr. Gompers understood this situation and so did his fellow leaders

in the Executive Council, and knowing that it was labor's fight for life, they bravely and loyally sounded the warning and summoned labor to arms in its own defense.

The advice to labor that labor should take sides in this fight was not given as the result of Mr. Gompers' individual judgment alone.

Standing shoulder to shoulder with Gompers are John Mitchell, who led the Pennsylvania coal miners through their awful travail of strife and suffering until he had brought the arrogant coal barons to their knees; James Duncanson, one of the sturdiest champions labor has ever known; James O'Connell, whose loyalty, brains and level head have been a pillar of strength to unionism; Daniel J. Keefe, who did more to release the dock workers from bondage than has any other man; W. D. Huber, the beloved leader of a vast army of carpenters; Frank Morrison, the efficient secretary of the American Federation of Labor. In fact, every labor leader whose record entitles him to distinguished consideration and whose loyalty to the cause none may question, is with Gompers in this supreme test in which organized labor either triumphs or is destroyed on this continent.

Mr. Gompers is entitled to the loyal support of every man who toils. The history of this great republic for a hundred years does not reveal a citizen who has labored more intelligently, more unselfishly, more patriotically for the well being of the people.

No man has expressed and typified more completely the dignity, the intelligence, the patriotism and the spirit of fair-play that characterize the American workingman.

For twenty-six years he has been at the head of the American Federation of Labor, ceaselessly and valiantly, fighting the battles of the toiler, and has secured for organized labor the respect and confidence of all fair men.

Those twenty-six years of loyal leadership have not been marred by a single act or mistake. He has inspired the enmity of such men as Joe Cannon, who scoffs at organized labor and openly threatens its existence, but he has never sold out.

He undoubtedly has been tempted by the possessors of the swollen fortunes of which President Roosevelt speaks, but he has never once betrayed his trust.

He has held in his hands tremendous power, but he never has used it for a single selfish purpose.

Hats off to Gompers! Are you workingmen going to stand by a man like this? Or are you going to rally beneath the standard he has held aloft for you for so many, many years? Are you going to desert him and the cause now when the crisis is at hand, and join with Cannon and with Post and with Aldrich and with Sherman and with all the other implacable enemies of the toiler in their efforts to destroy him and disarm and shackle the wrking masses?

Already the railroads have threatened to reduce wages. At the request of the corporations, the public utility party is now controlled they have deferred action until after 'ecton.

That is nothing more or less than an attempt to intimidate the vast army of railroad employes.

If they beat Gompers and organized labor this fall, do you think they will hesitate to reduce wages not only on the railroads, but in all industrial pursuits?

Do you think, if with your votes, Gompers and organized labor win this battle, they will dare to reduce wages on the railroads or anywhere else?

When Taft was a Federal judge every time a great dispute arose between labor and capital, the possessors of the swollen fortunes rushed into Judge Taft's court, where they never once failed to be comforted, and protected at the expense of the workingman.

Taft, through instinct and training, has all his life been out of sympathy with the cause of labor. It has been born and bred in him ways to use first the rights of property and to

protect those rights as above the rights of men.

In May, 1903, the Journal, official organ of the Brotherhood of Locomotive Engineers, had this to say of Judge Taft:

"Judge Taft's decision proclaims members of the B. of L. E. a band of conspirators.

"We cannot accept Judge Taft's decision in any other light than treason to Republican institutions and the liberties of the people. It is, will be, and ought to be denounced and repudiated by all liberty loving men."

Back of this candidate, as the most conspicuous figure in the fight, stands Joe Cannon, who has had his foot on the neck of labor in Congress for twenty years, and who now is making a tour of the country, bitterly and falsely assailing Gompers and union labor.

As between Gompers and this man Cannon, where do you workingmen stand?

A Healthy Family.

There is no way of making lasting friends like "Making Good," and Doctor Pierce's medicine well exemplify this. Its users, after more than two decades of popularity, are numbered by the hundreds of thousands. They have made good, and they have not made frankers.

A good, honest, square-deal medicine of such composition is Dr. Pierce's Golden Medical Discovery. It sits down on the senseless sale, while most of the preparations that have come into prominence in the earlier period of its popularity have gone by the board, and are never to be heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When one gives a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has a wide and growing popularity. It has been used in the most singular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's a honest, square-deal medicine with all its ingredients printed on the wrapper—no secret, no humbug, no quackery, therefore don't accept a substitute that the dealer may possibly make a little larger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only a mild woman's specific of ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it should ever two decades ago. As an invigorating tonic and strengthening tonic it is unequalled. It won't satisfy those who want "booster," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the small and little Liver Pills, although the best pill of their kind in the market, still lead and when once tried are ever afterwards in favor. Easy to take as a cake—one to three a dose. Mucus inhibited, but never squelched.

SUICIDES IN WATER TANK.

ASHLAND, Or., Sept. 30.—An unknown and apparently demented man committed suicide in a sensational and novel manner this morning by climbing to the top of the big railroad water-tank and jumping into the water and drowning himself. His queer actions were noticed by workmen about, who saw him first jump into the receiving tank of the big oil storage tanks filled with fuel for the locomotives of the railroad company, thence he ran up the ladder of the watertank and deshabble, and jumped down the manhole. When rescued he was past resuscitation.

NOTICE TO TAXPAYERS.

The last half of taxes due for the year 1907 will be delinquent after Monday, October 5, 1908.

Delinquent taxpayers will take notice that delinquent taxes will not be advertised as heretofore; under a law passed by the last legislature of this state taxes that are delinquent after the expiration of six months from the first date of such delinquency may be paid by any one demanding to pay same and a certificate of delinquency will be issued to such party.

Section 37, of said law, in part, reads: "Any day after the expiration of six months after taxes charged against real property are delinquent the tax collector shall have the right, and it shall be his duty, upon demand and payment of the taxes, penalty and interest, to make out and issue a certificate of certificates of delinquency against such property."

"Certificates of delinquency shall bear interest from the date of issuance until redeemed at the rate of 15 per cent per annum."

Delinquent taxpayers are therefore advised that if they have not paid at least one-half of their taxes on or before the first Monday in April that the same are delinquent and have been delinquent since said first Monday in April, and those who have paid one-half of their taxes as above the remaining one-half will become delinquent after the first Monday in October, and six months from such dates a certificate of delinquency bearing fifteen per cent interest per annum may be issued against your property.

To save further costs, penalties and interest you are earnestly requested to settle the same at once. E. FENTON, Sheriff and Tax Collector.
