UNDETERRED.

The trust has flown; the merger is dead.
Alas! What is there in a name?
The wicked railways, so 'tis said,
Go on combining just the same.
—Washington Star.

PROPOSE ANTI-CIGARETTE BILL.

Representative-elect Chas. McDonald, of Multnomah county, has drafted a bill which he will introduce at the legislature next winter, having for its purpose the utter extermination of the "coffin tack" in the Beaver state. Even substitutes for cigarettes will be placed under a ban, and anyone caught giving or selling the "makings" will be subject to a fine, and if the fine is not paid, then off to prison he (or she) must go. Conservative statistics show that 500,000 cigarettes are smoked daily in Oregon. These figures may reach 800,000, for the 500,000 daily consumption is based on 40 per cent of the smokers smoking only ten of the "tacks' a day, and any cigarette smoker will confess that ten "cigs" a day is a niggardly allowance, and should be 20 or 30. Then again more than 40 per cent of the voters use cigarettes and many who are not voters are heavy customers. The "makings" sold in this state in a week run into several thousand dollars, so the passing of the proposed reform measure of Representative McDonald would cut deeply into the profits of the tobacconists. The bill which was prepared by an attorney and sent to Mr. McDonald for his approval, follows the Washington law. McDonald, who is now in Curry county on his vacation, has written that the draft of the measure is satisfactory to him, and promises that it will be one of the first bills introduced in the coming session. The bill does not prohibit the smoking of the "coffin tacks," but it makes the securing of the materials difficult, almost impossible, in fact. Says the bill:

"It shall be unlawful for any person, by himself, clerk, servant employe or agent, directly or indirectly, upon any pretense or by any device, to manufacture, sell or exchange, barter, dispose of or give away, or keep for sale, any cigarettes, or any paper made or prepared for the purpose of being filled with tobacco for smoking; any person for violation of the same will be guilty of a misdemeanor, and upon conviction shall for the first offense pay a fine of not less than $25, nor more than $100, and costs of prosecution and stand committed to jail until such costs are paid; and for the second and each subsequent offense shall pay upon conviction a fine of not less than $100 nor more than $500, and costs of prosecution, or be imprisoned in the county jail not less than one month or more than six months; provided, that the provisions hereof shall not apply or interfere with the sale or disposal of by any person in this state to any persons outside this state."—Forest Grove Times.

GROWTH OF FORESTRY.

"In the last ten years," says the Yearbook of the Department of Agriculture for 1907, "forestry has advanced in this country from an almost unknown science to a useful growing profession. In that time the number of technically trained foresters has increased from less than a dozen to over 400. Ten years ago there was not a single forest school in the country; now there are several professional forest schools which rank with those of Europe, and a score more with course in elementary forestry whose usefulness is steadily growing. Forest lands under management have grown from one or two tracts to many, aggregating 7,503,000 acres, scattered through 39 states. The National forests have increased from 39,000,000 acres, practically unused and unprotected, to 165,000,000 acres, used, guarded and improved both in productiveness and accessibility. The number of states which have state forests has increased from 1 to 40; and of those which employ trained foresters none to 11. The membership of forest associations has increased from 3,600 to 15,800. Ten years ago, except for the foremost botanists, European foresters knew more about American forests than did the people of this country. In Europe they were then using preservatives to prolong the service of beech ties, and so adding from 20 to 40 years to their life. Here, on the other hand, scarcely a treated tie had been laid, though there are now 60 treating plants, 27 of which treat ties exclusively, and an engineer who recently returned from Europe reports that both in size and mechanical perfection the treating equipment of this country is ahead of any to be found [illegible].

"And yet American forestry has only safely passed the experimental stage and got ready to do something. Action, immediate and vigorous, must be taken if the inevitable famine of wood supplies is to be lessened. We are now using as much wood in a single year as grows in three, with only twenty years' supply of virgin growth in sight. Only the application of forest knowledge with wisdom, method and energy in the next ten years can prevent the starving of national industries for lack of wood.

TWELVE STATES DOUBTFUL.

Represent 128 Electoral Votes—Taft Needs 46 of Them, Bryan 81.

NEW YORK, Oct. 1.—A comparison of the claims of both parties shows that an even dozen states are included in the doubtful column by the forecasters at the headquarters of one or both parties. These commonwealths are New York, New Jersey, Indiana, Minnesota, Nebraska, West Virginia, Utah, South Dakota and Wisconsin. Some of these states are claimed as certainly Republican by the leaders of that party, while others are just as certainly placed in the Democratic column by the supporters of Bryan. The principal battles of the campaign will be fought in these twelve states, with New York and Indiana the most important scenes of contention.

The twelve states which are placed by one party or the other in the doubtful column have a total electoral vote of 128. In other states which are considered as reasonably certain to give decisive majorities, the Republicans can depend upon 194 electoral votes and the Democrats 161. If the Republicans can gain 46 electoral votes from the doubtful territory, according to this showing, Mr. Taft will be the next president of the United States. On the other hand, if the Democrats carry the doubtful territory to the extent of winning 81 electoral votes, Mr. Bryan will be the next occupant of the White House.

If the Republicans can carry New York and Indiana, Taft and Sherman will almost certainly have a safe margin in the electoral college. Unless the unexpected happens and some of the states normally Republican should go for Bryan. The Democrats will have to secure 27 electoral votes from the other doubtful states in addition to carrying New York and Indiana, in order to elect Bryan and Kern. California is placed in the doubtful column by the Democrats, while Wisconsin and New Jersey, considered doubtful by Democratic prophets, are listed as certainly Republican by the Taft men. Admission of these claims would change but slightly the results as here given, and the great fight for supremacy will be in the states mentioned.

CAMP TAFT OPENS.

NEW YORK, Oct. 2.—With an address by Governor Hughes, the season at Camp Taft, in 125th street, commenced last evening. Tonight Leslie E. Shaw will be the principal speaker. Republican campaign meetings will be held every night at Camp Taft from now until election. The "camp" consists of a big tent. The meetings will be under the auspices of the Republican county and district committee.

"DRY" HOTEL FAILS.

NEW YORK, Oct. 2.—That no big metropolitan hotel can be run at a profit, or even pay expenses, without a liquor license, is the declaration of the managers of the Hotel Gotham, which will be sold at auction under foreclosure of judgment on October 13. The big 21-story hostelry is among the finest in New York, but has been a financial failure from the first, its nearness to the Fifth Avenue Presbyterian church preventing the hotel managers from securing a liquor license. Managers of other big hotels point to the Gotham as an object lesson and declare that if the metropolis should ever become "dry" the hotels would be forced to nearly double their rates in order to make a profit.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid rising in throat after eating, stomach gets sour, burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, and dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherry-bark, Queen's root, Bloodroot and Mandrake root.

The following leading medical authorities among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of "American Dispensatory;" Prof. Jos. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Physio-Med. Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

STARTS AT BOTTOM.

Theodore Roosevelt, Jr., Will Work in Carpet Factory.

HARTFORD, Conn., Oct. 1.—Tomorrow morning Theodore Roosevelt, Jr., son of the president, will don overalls and jumper and assist the operators in the wool department of the Hartford Carpet Corporation at Thompsonville in unloading the raw wool from the cars and in assorting and washing it.

It is thought he will get about $15 or $18 a week. For the present young Roosevelt will live at a private residence, but later on he will move to a Thompsonville boarding-house, where he will live the same as other boarders.

PROF. HORNER A MEMBER.

Gov. Chamberlain Names Commission to Revise State Names.

SALEM, Or., Oct. 1.—A revision of geographic names in Oregon is the purpose of the creation of a commission appointed by Governor Chamberlain today. The commissioners are W. G. Steel, of Portland; Prof. J. B. Horner, of Oregon Agricultural College, and Professor Joseph Schafer, of University of Oregon. These gentlemen will co-operate with the United States Geological Board. In a letter conveying the appointments Governor Chamberlain thus states his reason therefor:

First. There are lakes, streams, creeks, valleys and mountains in the state bearing the same names, and for purposes of identification this duplication, whether on official maps or in tradition, ought to be corrected and prevented.

Second. Many of the old landmarks of the state, particularly in the mountain ranges, either have no names at all or else have names entirely without significance from an historical point of view; in some instances being placed on the maps bearing the names of engineers or other persons entirely disconnected with the traditions and early history of the state.

Early legends connected with Indian or pioneer life cluster around many of these historic places, and some concerted effort ought to be made by our local authorities and the United States Geological Board before it is too late so to name these points of interest as to preserve the traditions of the state, whether of pioneer or Indian life.

Had a Close Call.

Mrs. Ada L. Croom, the widely known proprietor of the Croom hotel, Vaughn, Miss., says: "For several months I suffered with a severe cough, and consumption seemed to have its grip on me, when a friend recommended Dr. King's New Discovery. I began taking it, and three bottles affected a complete cure." The fame of this life saving cough and cold remedy, and lung and throat healer is world wide. Sold at A. C. Marsters & Co's. drug store, 50c and $1.00. Trial bottle free.

NOTICE TO TAXPAYERS.

The last half of taxes due for the year of 1907 will be delinquent after Monday, October 5, 1908.

Delinquent taxpayers will take notice that delinquent taxes will not be advertised as heretofore; under a law passed by the last legislature of this state taxes that are delinquent after the expiration of six months from the first date of such delinquency may be paid by any one demanding to pay same and a certificate of delinquency will be issued to such party.

Section 37, of said law, in part, reads:

"Any day after the expiration of six months after taxes charged against real property are delinquent the tax collector shall have the right, and it shall be his duty, upon demand and payment of the taxes, penalty and interest, to make out and issue a certificate or certificates of delinquency against such property," and section 38, in part, reads:

"Certificates of delinquency shall bear interest from the date of issuance until redeemed at the rate of 15 per cent per annum."

Delinquent taxpayers are therefore advised that if they have not paid at least one-half of their taxes on or before the first Monday in April that the same are delinquent and have been delinquent since said first Monday in April, and those who have paid one-half of their taxes as above the remaining one-half will become delinquent after the first Monday in October, and six months from such dates a certificate of delinquency bearing fifteen per cent interest per annum may be issued against your proerty.

To save further costs, penalties and interest you are earnestly requested to settle the same at once.

B. FENTON,
Sheriff and Tax Collector.
