

Does not Color the Hair Stops Falling Hair AYER'S HAIR VIGOR

Mr. and Mrs. A. S. Bushnell were in from Ten Mile today.
Mr. and Mrs. R. L. Winniford were over from beyond Wilbur today.
See the panorama of a trip through the Swiss Alps at the Novelty theatre, tonight only.
Norman Lilly, who has been visiting with his son at Glide, left this afternoon for his home in Corvallis.
Hon. J. C. Fullerton and Atty. F. G. Meehl and John T. Long are in Salem on professional business before the supreme court.
Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment, 50 cents at any drug store.
Polk Martin arrived this afternoon from Grants Pass, and will join his brother-in-law, Walter Singleton, on a hunting trip to Fall Creek.
Mrs. J. Wollenberg left this afternoon for Cottage Grove, joining Mrs. Jennie E. Reames, State Grand Worthy Matron of the Eastern Star, on an official visit to the chapter in that city.
A supply of the new edition of the Oregon mining laws has just been received at this office. It includes everything to date in legal mining procedure. Copies only 40 cents each.
TF
Oyster season is opened. Olympus or Eastern in any style and the right kind of style at J. Falbe's restaurant near the S. P. depot. Open day and night. Clean, private boxes. Short orders a specialty. Regular dinners. dtf
Just placed on our floor, a full line of medium priced heating stoves. Get our prices for we can save you money. An elegant line of iron beds in all the latest colorings, ranging in price from \$3.00 to \$15.00. D. W. STRONG, The Furniture Man.

DAILY WEATHER REPORT

U. S. Weather Bureau, local office, Roseburg, Ore., 24 hours ending 5 a. m. Oct. 5, 1908.
Precipitation in inches and hundredths: 0.00
Maximum temperature: 73
Minimum temperature: 57
Precipitation: .00
Total precip. since first of month: .00
Avg. precip. for this month for 20 years: .229
Total precip. from Sept. 1, 1908, to date: .48
Average precip. from September 1, 1877, to 1907: .328
Total deficiency from Sept. 1, 1908, to date: .29
Average precipitation for 31 wet seasons, Sep. to May (inclusive): .3243
Thos. Gibson, Observer.

For Roseburg and Vicinity:

Fair and cooler tonight with heavy frost; Tuesday fair and warmer.

CHRISTIAN CHURCH'S BIG DAY.

The splendid remodelled structure of the First Christian church of this city was taxed to its utmost capacity yesterday when Rev. S. M. Martin, evangelist, of Seattle, Wash., commenced his series of revival services. Yesterday was a red letter day for the church. The attendance at the Sunday school in the morning was 152, collections \$8.33.
The morning sermon was delivered by Evangelist Martin on the subject of Sunday school work, which he reviewed from the time of Robert Raikes in 1780 up to the present time. In the afternoon at 2:30, Mrs. G. S. O. Humbert addressed a large and appreciative audience on missionary work, in which she is especially interested. In the evening the new auditorium room of the church, which is the largest in the city, was again filled when Evangelist Martin began his real work of the present protracted meetings. He took as his subject the command of Moses to the Israelites when they had stopped at the brink of the Red Sea and were commanded to go forward.
At the conclusion of the address the Rev. Mr. Stephens was baptized. Evangelist Martin will continue the services on Monday night, speaking again tonight at the Christian church. Evangelist Martin is one of the foremost evangelists of the Pacific coast and everyone should hear him.
XX.
Afflicted With Sore Eyes For 33 Years.
I have been afflicted with sore eyes for 33 years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors insisted upon my trying Chamberlain's Salve and gave me half a box of it. To my surprise it healed my eyes and my sight came back to me.—P. C. Earls, Cynthia, Ky. Chamberlain's Salve is for sale by Hamilton Drug Co.

TO THE PUBLIC—I will re-open my restaurant in connection with the Umpqua Bakery on Sept. 1. Service will be strictly first class. E. Jennings.

ROSEWATER AMAZES BRYAN.

Declares "Nothing is Prettier in Catch-All Line."

FAIRVIEW, Lincoln, Neb., Oct. 3.—In yesterday's Omaha Bee, a radical Republican organ, published by Victor Rosewater, member of the Republican Executive committee, and head of the republican publicity bureau, was an editorial criticizing an extract from the supposed speech of Mr. Bryan on the tariff question. The words complained of in the editorial were:
"In all tariff legislation the true principle is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with reasonable profit to American industries."

Taft Platform.
In regard to this the Bee said editorially: "Nothing prettier in the catch-all line has been offered in this campaign. The most hidebound standpat in the country can accept that as satisfactory and the rank free trader can find delight in it. The declaration means nothing. An attempt to legislate along that line would simply open the way to interminable wrangling as to what constitutes 'a reasonable profit' for hair-splitting on wages in one industry, price of raw material in another, rebates and drawbacks in a third and so on through the lists of thousands of articles that are now on the tariff lists. Under such a proposition, an attempt at tariff revision, at Bryan's direction, would serve only to halt industrial and commercial progress and keep business unsettled during his term of office."

A. SCHLOEMAN WILL BUILD.
To Erect Two-Story Block in Roseburg Next Spring.
Mr. A. Schloeman, a former baker and groceryman of this city, is preparing for the erection of a substantial two-story brick or reinforced concrete building on his property in this city. A commodious basement will also be included in the new structure. Mr. Schloeman's property fronts on both Jackson and Main streets and is located between Mrs. Kidd's grocery and F. W. Hays' brick building. He will have a frontage of 20 feet on Jackson street and 40 feet on Main street. The ground floor will be occupied by himself as a bakery and a cracker factory equipment will also probably be added. The second story will perhaps be devoted to rooming purposes.

MAKES ASTONISHING CURES.
Mi-o-na Tablets Cure Dyspepsia by Promptly Removing the Cause, or Money Back.
Dyspepsia cannot be cured by taking a digester, such as pepsin because pepsin simply digests your food artificially, and not all of the food either, for it has no effect at all on starchy food, such as potatoes, rice, oatmeal, bread, etc.

GARBAGE NOTICE.
Notice is hereby given that all persons dumping rubbish or garbage of any kind along the public roadway south of Roseburg will be vigorously prosecuted. J. M. SCHAFFER, Road Supervisor.

INSOMNIA
"I have been using Cascarets for Insomnia, with which I have been afflicted for over twenty years, and can say that Cascarets has done more for me than any other medicine I have ever tried. I shall certainly recommend it to my friends as being all they are represented to be."
—Thos. Olland, Esq., Ill.

THE BEST SIGHT ON EARTH
may be impaired—yet regained—by poor, or even poorly used eye glasses. What's the use of sense of wasting your money to your own hurt? Come and have your eyes examined in a skillful manner and fitted with glasses that are the best to be had. An examination costs nothing. We have the best equipped optical parlors in this part of the state.

Representative Lloyd Shows How the Congress Gave Railroads That Sum Improperly.

Representative James T. Lloyd, of Missouri, chairman of the Democratic national congressional committee, on March 10, 1908, exposed the flagrant theft of the people's money through the unfair weighing of mails when official tests were made to determine what compensation the railroads should receive. He said:
"Mr. Chairman, in delivering my address a few days since on postal conditions, in discussing the interpretation of the law as to the weighing of the mail, I failed to state the law on the subject, and I wish to do so now:
"The average weight to be ascertained, in every case, by the actual weighing of the mails for such a number of successive working days, not less than thirty, at such times after June 30, 1873, and not less frequently than once in every four years."
"Later the time was changed to ninety days. Otherwise the law has not been changed to this date.
"Until March 2, 1907, the department required the mail to be weighed for ninety days. Sunday was not considered, so that the weighing covered a period of one hundred and five days. In other words, working days were construed to mean week days. Postmaster General Cortelyou changed this interpretation which had been accepted as correct for over thirty years and issued the following order as his construction of the law:
"That when the weight of mail is taken on railroad routes, the whole number of days the mails are weighed shall be used as a divisor for obtaining the average weight per day."
"This required in effect, that, instead of dividing the number of working or week days in the weighing period, the divisor should be the number of days on which mail was actually carried during the period. If it was weighed one hundred and five days, the divisor to obtain the daily weight was one hundred and five. If the mail was not carried on Sunday, the divisor would be ninety. This, as you can readily see, would give less compensation for carrying the full week than for six days, for the accumulated mail would be practically the same whether carried in six days or in seven.
"The present postmaster general, seeing this predicament, issued another order of construction, known as 'order 412,' which is as follows:
"That when the weight of mail is taken on railroad routes the whole number of days included in the weighing period shall be used as a divisor for obtaining the average weight per day."
"If the construction up to last year was right, then there has been withheld from the railroads this year over \$1,700,000 that is theirs under the law. If the present construction is the proper one, the railroads have received over \$70,000,000 since 1880 that belongs to the people; so that whichever view is sustained money has been wrongfully withheld through the post-office department."

"This required in effect, that, instead of dividing the number of working or week days in the weighing period, the divisor should be the number of days on which mail was actually carried during the period. If it was weighed one hundred and five days, the divisor to obtain the daily weight was one hundred and five. If the mail was not carried on Sunday, the divisor would be ninety. This, as you can readily see, would give less compensation for carrying the full week than for six days, for the accumulated mail would be practically the same whether carried in six days or in seven.
"The present postmaster general, seeing this predicament, issued another order of construction, known as 'order 412,' which is as follows:
"That when the weight of mail is taken on railroad routes the whole number of days included in the weighing period shall be used as a divisor for obtaining the average weight per day."
"If the construction up to last year was right, then there has been withheld from the railroads this year over \$1,700,000 that is theirs under the law. If the present construction is the proper one, the railroads have received over \$70,000,000 since 1880 that belongs to the people; so that whichever view is sustained money has been wrongfully withheld through the post-office department."

Representative Lloyd Shows How the Congress Gave Railroads That Sum Improperly.

Representative James T. Lloyd, of Missouri, chairman of the Democratic national congressional committee, on March 10, 1908, exposed the flagrant theft of the people's money through the unfair weighing of mails when official tests were made to determine what compensation the railroads should receive. He said:
"Mr. Chairman, in delivering my address a few days since on postal conditions, in discussing the interpretation of the law as to the weighing of the mail, I failed to state the law on the subject, and I wish to do so now:
"The average weight to be ascertained, in every case, by the actual weighing of the mails for such a number of successive working days, not less than thirty, at such times after June 30, 1873, and not less frequently than once in every four years."
"Later the time was changed to ninety days. Otherwise the law has not been changed to this date.
"Until March 2, 1907, the department required the mail to be weighed for ninety days. Sunday was not considered, so that the weighing covered a period of one hundred and five days. In other words, working days were construed to mean week days. Postmaster General Cortelyou changed this interpretation which had been accepted as correct for over thirty years and issued the following order as his construction of the law:
"That when the weight of mail is taken on railroad routes, the whole number of days the mails are weighed shall be used as a divisor for obtaining the average weight per day."
"This required in effect, that, instead of dividing the number of working or week days in the weighing period, the divisor should be the number of days on which mail was actually carried during the period. If it was weighed one hundred and five days, the divisor to obtain the daily weight was one hundred and five. If the mail was not carried on Sunday, the divisor would be ninety.
