Noble Andrews was among the Myrtle Creek people in town Thursday. He reports that section of the county going ahead nicely and land values rapidly increasing. In the town of Myrtle Creek 22 houses and cottages have been erected this season, a residence, built by Mr. Johns, being among the finest in the county. The interior is finished in selected fir, showing the grain of the wood making a beautiful effect. Mr. Johns is the local manager of the Myrtle Creek Lumber Co., which company is contemplating extensive operations the coming year, among the improvements projected being a logging railroad into the big timber belts or the upper part of the Myrtle Creek district.

That there should be a specific law punishing the killing or wounding "by mistake" or "accident" while hunting in the woods is the firm opinion of Atty. Albert Abraham, state senator-elect, of this city. Mr. Abraham states that unless some other legislator precedes him he will introduce a bill at the next session of the legislature to conform with his opinion. Under the present Oregon manslaughter statute, Mr. Abraham thinks that homicidal hunters are amenable to punishment, but he believes that the law will never be enforced until there is appended to it a specific clause relating to such cases.

S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin. It is its acid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all its acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.

October 11, the Herald classed Delaware as republican, and Maryland as democratic. Now, both these states are marked in the balance. Describing the shifting of states that has taken place in several days, the Herald has placed Idaho and Utah with three electors each, and Wisconsin with 13, in the Taft "string," and has lifted Maryland, with her three votes. It will be noticed that Indiana, Kansas, New York and South Dakota—with a total of 68 electors—are classed among the doubtful, with republican leanings. New York is stated to be the great center of the conflict at the very end of the campaign. "Mr. Bryan, it is said, now realizes that he must have the 39 electoral votes of New York or he cannot be elected to the presidency. Judge Taft, it is understood, realizes that if he loses New York he will lose his own state of Ohio, a large number of states in the Middle West, Delaware, Maryland and perhaps New Jersey and Rhode Island in the east and will be defeated. The betting in New York favors Judge Taft.
