Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to get a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by Hamilton Drug Co.

EASILY UNDERSTOOD

Mr. Bryan Shows Why the Individual Favors Protection of Bank Deposits.

A MATTER OF INTELLIGENCE

Banks Should Attend to the Banking Business and Not the Government.

No issue in this campaign appeals more strongly to the individual than the protection of bank deposits. Thousands and thousands of republicans will vote for Mr. Bryan on account of this one issue, which he has presented so clearly to the people of the nation. In a recent speech Mr. Bryan presented this issue in a simple and most convincing way. He said:

"Of the many policies proposed in our platform, the protection of bank depositors is the simplest and most easily understood. Why, my friends, this question is so easily understood that I suppose there is not a person in this audience who is not able to understand it. I do not mean that every one, everywhere, can understand it. I draw the line here: When every person reaches the period of intellectual development, where he is able to see that when a man puts his money in the bank he ought to be able to get it again, he ought to have intelligence enough to understand this subject; but until he gets to this point I do not know how to reach him. I take it for granted, however, that you are all sufficiently advanced to be able to understand that when you put your money in a bank you ought to be able to get it out again. Now, my friends, there are just two questions to be considered in this matter. One of these I have given you. The other question is, who must make it secure? Our position is that as the banks make their profits out of the people's money, the bankers ought to give the insurance the people require. Now, I had supposed that that was a self-evident truth and that it would not be denied. I have made no speech without discussing the guaranty of bank deposits in all parts of the country. After I had made my speech in Baltimore, explaining our system and presenting our arguments in support of it, my attention was called to an advertisement in one of the papers. In my speech I had said that you could insure your house, you could insure your life, you could insure your buggy or your barn, but that you could not insure your money. And in this advertisement my language was quoted and the advertisement went on to say that I was mistaken, for a certain fidelity company was prepared to insure deposits. And then I found out how they do it down there. You put your money in a bank, and then go and get somebody to insure it so that you can get it out of the bank again. I believe the time has come to compel all the banks to stand back of the banks and make good the presumption upon which you deposit your money in the bank."

"Now, my friends, you may ask if the banks are not now sufficiently secured. That is what the bankers say. They will even tell you that only occasionally a bank fails, but the trouble is that we cannot tell in advance which bank is going to fail. Look at the notice they hang up. Does it say, 'this bank will fail'? No, the notice says 'this bank is closed,' and if bankers follow out this plan I will agree not to urge this insuring of deposits. Let the bank give notice three months in advance of a failure so the people can get their money out before the failure. Do you think the banks are sufficiently secured now? The easiest and general says, in his report in favor of the postal savings bank, that we are sending millions of dollars to Europe to be deposited in government savings banks there, and the people who send their money there would rather send it across an ocean three thousand miles wide than to risk the banks of this country. I say to you that we ought to make our banks here so secure that money will not be driven out of the United States to find a place of deposit. That money which is driven to Europe ought to be kept here and used in the business of this country. Not only does money go to Europe, but money goes into hiding, and this is about the time of year when we discover some of it. You will see in the paper every once in a while that Mrs. So and So for the first time this fall has found her money. Without her knowledge, had been using it as a bank. A man in New York said last fall, when the panic was on, that a billion dollars was in hiding under carpets. I do not know whether that estimate is too high or too low, but I know this, that if I were a banker I would be ashamed to have an old rag carpet running rivalry with me as a safety deposit vault. In time of danger, if any man says that the banks are sufficiently secure I will remind him that there is not a national bank in the United States that can get a dollar of Uncle Sam's money without putting up security; the state demands security; the county demands security; and each village demands security; and the fraternal orders are now demanding security, and I believe the time has come when the merchant, the laborer and the farmer should have security when they put their money in a bank."

"In Oklahoma they have had this plan in operation for now some six months. I learned of one failure there and in forty-two minutes after the bank suspended, the man in charge had an order from the government to pay every depositor in full, and the business went on without interruption. And when he telephoned out to the farmers and said to them, 'The bank has suspended, come in and get your money,' they answered, 'We are busy with the crops now, we will be in a few days.' Is it the way you do here in your state when a bank gets shaky?"

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine

Syrup of Figs and Elixir of Senna manufactured by the CALIFORNIA FIG SYRUP CO. ONLY SOLD BY ALL LEADING DRUGGISTS one size only, regular price 50¢ per bottle

Is it the way you do when a bank suspends? No! the very rumor that a bank is a little uncertain makes a rash of depositors, and they make it insolvent whether it was insolvent or not.

"This plan protects the depositors; it protects the community, and it is good for the bank as well. I would rather see the banks attend to the banking business than to have it transferred to the government, and because I prefer to have the banking business done by the banks rather than by the government, I urge the guaranty of deposits as the easiest solution of our difficulties."

The Cry of Politicians.

The best service that can be rendered for permanent prosperity is to rebuke the assumption which certain politicians continually are seeking to create in the public mind, that continued prosperity depends on the success of a particular political party.

Our form of government contemplates changes from time to time, and nothing is so disastrous as to instill in the people's minds the belief that there is danger to business in changing a portion of the officers of our government. If the people cannot change their officers without creating a panic, then the logical step is to go to a monarchy, which, of course, none advocates.

For Chronic Diarrhoea.

"While in the army in 1863 I was taken with chronic diarrhoea," says George M. Felton, of South Gibson, Pa. "I have since tried many remedies, but without any permanent relief, until Mr. A. W. Miller, of this place, persuaded me to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, one bottle of which stopped it at once." For sale by Hamilton Drug Co.

NIGHT RIDER CONFESSES.

UNION CITY, Tenn., Oct. 28.—"Red" Burton, a night rider, has made a confession implicating at least 40 men, some of them the most prominent in the disturbed section. More than half of them are under arrest and held at the military camp maintained by the state militia. Burton tells of the plot that resulted in the lynching of Captain Quentin Rankin at Reel Foot lake on the night of October 30, and which would have had a fatal result for Judge R. Z. Taylor but for his almost miraculous escape.

Burton says James F. Carpenter, an attorney of Union City drove Rankin and Taylor to Walnut Log on the pretext of a timber deal. They were taken from the hotel at Walnut Log by a band of night riders, led, Burton says, by Tom and Garrett Johnson, both under arrest, and William Watson, who is under bond in connection with another raid. Burton says he was not a member of the band that carried out the plot to its fatal ending. His part consisted in framing up the plot with Carpenter. He was fishing on Reel Foot lake on the night of the raid and heard the shots fired when Rankin was killed. Burton admits he aided in the burning of a fish dock at Samburg, and aided in the whipping of Justice of the Peace Wynn, an old man. Carpenter is under arrest.

LOUISVILLE, Ky., Oct. 28.—A suit for \$100,000 has been filed in the United States circuit court here by Henry Bernott, a victim of night rider outrages, who was beaten horribly and whose tobacco factory was burned last February. He names as defendants not only those actually present, but many others as alleged conspirators. The suit will be so directed as to break up, if successful, an organization the object of which was to force all independent raisers and handlers of dark tobacco to place their tobacco in the pool controlled by the Dark Tobacco Association.

WHAT CAUSES DYSPEPSIA.

And Incidentally Constipation, Coated Tongue, Nervousness, Headache, and Other Symptoms.

Did you ever know that the stomach is a churn? That just as soon as you are done eating, the healthy stomach commences to roll the food around, and mixes it thoroughly with the juices of the stomach?

And did you know, dear reader, that if the stomach is run down or flabby, so that it cannot do the churning, that dyspepsia is the result?

If the food is not churned, it lays heavily on your stomach, turns sour, and causes all kinds of distressing symptoms, such as headache, coated tongue, constipation, etc.

And so, as every physician will tell you, the way to cure dyspepsia, is to fix the churn, or in other words, build up the stomach so that it will properly mix the food.

If you have dyspepsia and want to get rid of it before it gets rid of you, go to Red Cross Pharmacy, the druggist, and get a large box of M-O-n-a tablets. The cost is only 50 cents, and every reader of the Review is welcome to his or her money back if M-O-n-a does not cure.

PASSES TO RAILROAD MEN. Interstate Commerce Commission Also Rules on Excursions.

WASHINGTON, Oct. 28.—Free passes may be issued to bona fide employees of a railroad who are traveling to re-enter the service. Passes cannot be extended to the families of employees who died a natural death while in the service of railroads, although the privilege is accorded to the family of employees killed in the service. These are among the rulings announced by the Interstate Commerce Commission yesterday.

The Commission holds that a railroad may provide in its tariffs that whenever, because of mishaps or accidents, passengers delayed beyond their ticket limit or so as to curtail their stopover privileges, the conductor or other agent may, by indorsement on the ticket, extend the time to cover such detention. This is to be honored by succeeding conductors on the company's line, but no carrier can provide such extension over lines other than its own, except when provided in a proper joint tariff.

The commission also had authorized changing (by November 30) the terms of short-time excursion fare tariff under certain conditions. Where the excursion is limited to not more than three days, changes may be posted one day in advance in two public places for these reasons: Change of dates or meeting, extension of the return limit, additional selling dates, additional stopover privileges, etc.

If the excursion is limited between three and thirty days, cancellation of tariff or change in its terms may be made on like notice of three days.
