DEADLY FIRE DAMP

Explosion Takes Lives of 327 Miners in Germany

WRECKAGE RETARDS RESCUE

Missouri Powder Mill Explodes While Train is Passing, Spreading Ruin and Death

Special to the Evening Review. WESTPHALIA, Germany, Nov. 12.—Three hundred and twenty-seven men are either dead or doomed to destruction in a burning coal mine near this place. An explosion of fire damp caused the fire. The work of rescue is hopelessly retarded by the wreckage.

Explosion Spreads Ruin.

KANSAS CITY, Mo., Nov. 12.—Thirty passengers on a Kansas City and Southern train were injured, several of them fatally, when a powder mill at Holmes Park exploded as the train was passing. The train was nearly blown from the track, and timbers and rocks were blown through the cars. The explosion totally destroyed three houses and shattered buildings for a quarter of a mile in every direction. It is reported that several persons were killed in buildings.

Over Niagara.

BUFFALO, N. Y., Nov. 12.—While attempting to evade Federal officers in an attempt to enter the United States, six Chinese were swept to death today over American Falls of the Niagara river. The Chinese were crossing the river in two boats when a swell drove them on the rocks and they into the resistless currents.

Carry Safe Three Blocks.

TACOMA, Wash., Nov. 12.—Safe blowers last night entered D. Lankley's store at Spanaway, where the postoffice is located, and stealing the safe, carried it three blocks away and blew it open with nitro-glycerine. The till of the safe contained only \$5.

Record Postal Deficit.

WASHINGTON, Nov. 12.—Postmaster General Meyer today announced that the postal deficit for the last fiscal year amounts to \$16,910,278, the greatest in the history of the country. To prevent future deficits, the postmaster general suggests that special local parcels post be inaugurated over rural free delivery routes.

How to Lengthen Life of Skirts.

When the embroidery on a white petticoat begins to fray and wear out put a couple of rows of machine stitching close together just above where the embroidery has started to wear. Then cut the worn portion away and finish it with a row of lace put on the edge by overcasting it to the skirt on the wrong side. If the hem of the dust ruffle is worn take some of the old fashioned rickrack braid and stitch it to the edge of the worn hem through the middle of the braid, letting the points on one side of the braid show below the edge of the hem. This will make a strong finish which will last as long as the skirt, and it will be hidden by the embroidery ruffle.

See Romeo and Juliet at the Crescent tomorrow.

ILLINOIS: Chicago—A large and critical audience was present at the Deering piano recital at the Kimball Hall last evening. The program, an extremely difficult one, was given in a manner to arouse great interest in the young girl's future. The interpretations were thoughtful, revealing true poetic instinct, while here technique is clean, sure and marvelously brilliant.—Tribune. At the Armory Nov. 26, under the auspices of the Roseburg Commercial Club.

11 KILLED IN WRECK.

NEW ORLEANS, Nov. 11.—Eleven persons are known to be dead and a score or more are injured as a result of a wreck this morning on the New Orleans & Northeastern Railroad, at Little Woods, 12 miles from New Orleans.

Between Slidell and New Orleans the tracks of the New Orleans & Northeastern are used by the Great Northern and it was a suburban train of this road from Covington that crashed into the rear of a local Northeastern train from Hattiesburg, Miss., telescoping the four rear coaches.

IMPORTANT CASE ENDED.

The verdict was rendered last night at 8 o'clock when Mr. E. S. Cocke, of North Roseburg, purchased a piano of Burr's Music House, making three piano sales for the day. The other two homes made happy were those of Dr. A. C. Seely and Mrs. G. Wilcox. The day before we sold to Purdy Wilson, of Riddle, a beautiful Bush & Lane piano and to Mr. W. H. Lackey, of Yoncalia, a Chicago Cottage organ.

The case at issue was: Where is the best place to buy a piano?

The verdict reads as follows: At Burr's Music House, with their one-price system, 1: below all competitors in prices and easy-payment plan. In addition to this you have the protection of your home dealer, who looks after your piano in the future. The verdict could not be otherwise when you take in consideration that Burr's Music House is shipping all their pianos direct from the factory in carload lots, buying for cash, taking all discounts. No high-salaried salesman, together with their enormous expense bills. Any reasonable thinking person would readily agree that no other concern can undersell us. We invite anyone anticipating the purchase of an instrument to call and examine our piano values. We have a few second-hand upright pianos in price from \$45 to \$150; new pianos guaranteed for ten years at \$210, \$235, \$250, \$285, \$300; also the famous Bush & Lane piano, absolutely guaranteed for 20 years, at \$345 and up. BURR'S MUSIC HOUSE.

FINE LITERATURE

Issued by Sutherlin Land and Water Co.

ADVERTISING DOUGLAS CO.

Company Will Build a Hotel and Depot and Establish a Town at Sutherlin Valley

Beyond question the handsomest piece of advertising literature yet issued on behalf of making known the advantages of Douglas county, is the fine booklet just issued by the Sutherlin Land and Water Co., of this city. The booklet includes 24 pages and cover, printed on heavy enameled paper, with three color photographs—being printed in three colors. Typographically, these booklets are splendid specimens of the printer's art and would adorn the center-table of any parlor. They were compiled by Mr. J. W. Perkins, president of the company, and much credit is due him for this application of talent, time and money for aiding in making known abroad the unparalleled advantages now offered in Douglas County to homeseekers and investors.

A map of Oregon, Washington and California is included, showing the main lines of railroad leading to Roseburg and the new town of Sutherlin in Sutherlin Valley, on the main line of the S. P. R. R. in this county. Fine photographic views of the valley are also shown. Fruit-growing is made a strong feature of this booklet, as that is destined to soon become a great industry in Sutherlin Valley. That there is no question but that the best established by the company in Sutherlin Valley, on the main line of the S. P. R. R. in this county. The following indisputable authority as to its splendid adaptability for fruit and berry culture:

OREGON EXPERIMENT STATION, James Withycombe, Director, Corvallis, Or., October 7, 1908. Mr. J. W. Perkins, President Sutherlin Land and Water Company, Roseburg, Oregon.

Dear Sir:—Have your interesting favor and congratulate you and your associates in making such an excellent selection of land. I have been personally acquainted with the Sutherlin Valley for a number of years, and regard it as being one of the favored spots of the Pacific Northwest. There is no question but that the proper cultural methods, the very best of fruits should be grown in that locality. It is also one of the earliest spots in the state, and a large industry of early strawberries should be developed. I am firmly of the opinion that fruitgrowing on this tract will, under intelligent methods of husbandry, produce from \$100.00 to \$500.00 per acre of the commercial classes of fruit. I am, Yours truly, JAMES WITHYCOMBE.

OREGON STATE BOARD OF HORTICULTURE, Office of Commissioner for Third District, Grants Pass, Or., Oct. 16, 1908. J. W. Perkins, President Sutherlin Land and Water Company, Roseburg, Oregon.

Dear Sir:—Replying to your letter of the 10th inst., in the matter of my knowledge as to the adaptability of Douglas County as a commercial apple and pear-growing district, I do not hesitate to say it is among the best in the state of Oregon.

I have in the past twelve years inspected the soils and observed the fruits grown in that county, and must say its possibilities for growing the Newtown, Spitzenberg and Jonathan apples, and all varieties of pears, together with peaches and small fruits, are ideal.

In no portion of Oregon have I ever seen better and more perfect apples grow than in Douglas County. In color, the apples of Douglas are superb.

In segregating the many tracts of land in Douglas county I am sure the Sutherlin tract is among the best, and with water to irrigate, there would never be a reason for a failure to grow and mature a crop of apples, pears, or any variety of fruit any season.

The gravel subsoil of the Sutherlin tract makes it possible to irrigate without danger of damage if too much water were used, as the subsoil insures perfect drainage. I am, Yours truly, A. H. CARSON, Commissioner Third District.

OREGON APPLES AND PEARS.

The fruit records of the world, so far as apples are concerned, are held by the fruitgrowers of the State of Oregon. All of the established records are based on fruit sold in the open market at that time. The best records are held by the fruit growers of Douglas county, and the fruit of Douglas is the best.

mission men and fruit dealers bid in the fruit according to its condition.

Consider that one carload of Oregon Comice pears sold at auction in New York in 1907 for \$4,558.00; a single acre of Bartlett pears from the same district produced \$2,250; sixteen acres of Winter Nellis pears produced \$19,000; seven acres of irrigated apple trees, Yellow Newtowns, brought an average annual income in seven years of \$791.00 to the acre; Spitzenberg apples from James B. Smith's orchard in Douglas County, Oregon, averaged \$2,400.00 to the acre in 1908. These are only a few cases taken from the multitude at hand.

The Sutherlin Land and Water Company own and control practically every acre of the well-known Sutherlin Valley in Douglas County, Oregon.

This tract of land is about eight miles long by two miles wide, has a full grade toward the center from each side, and an average grade of sixteen feet to the mile lengthwise, so that our drainage is complete. Our soil is a sedimentary free soil, very warm, with a heavy gravel subsoil.

Our Valley lies on both sides of the main line of the Southern Pacific Railroad, twelve miles north from Roseburg, and about three miles south from the town of Oakland. We have established our own townsite, named Sutherlin; and the Sutherlin Land and Water Company will erect hotel, depot, general store building and offices during the coming winter.

Bear in mind that the Sutherlin Land and Water Company is offering fruit land of the very best quality that exists. Our land is already cleared and under cultivation. Our irrigation ditch with full supply of water covers every acre of land in the tract. We are now operating our own power plant, furnishing light and power to the residents of the Valley, and also at this date furnishing the same to the town of Oakland, Va.; have telephone conveniences, in fact every convenience known to the modern community. We do not know of another district in the State of Oregon where such a perfect and complete group of conveniences and arrangements are to be found; and we think you will concede upon glancing over the same that nothing is wanting.

Not the least consideration in connection with our tract of land is the schooling facilities and church accommodations. We are favored in our progressive community with the convenience of local schools and churches which are located on our own property and readily accessible to all locators in Sutherlin Valley.

CLARK FURNISHES BONDS.

Leaves For Gardiner to Await Hearing on Next Monday.

Rev. George C. Clark, the Gardiner minister, alleged to be the Rev. Summers indicted at Throckmorton, Texas, in 1904, on a charge of obtaining money under false pretenses, was arraigned before Justice Long, in this city, Wednesday evening, and placed under bonds of \$500. The bonds were furnished and at midnight the minister left on the overland train for Gardiner. His examination is set for next Wednesday, Nov. 18. As counsel, he has employed Attorneys F. G. Micell and W. W. Cardwell, of this city.

The object of the examination is to enable Governor Chamberlain to act intelligently upon the requisition to be made for the minister's extradition to Texas. It is understood that the local authorities telegraphed to Throckmorton yesterday for a person whose name is not divulged to come to Roseburg for the purpose of identifying, if true, the accused as Summers. If Clark is thus identified, Governor Chamberlain will, in all probability, honor the requisition, but if Clark is not pronounced to be the man wanted then the case will end there and there in a complete vindication of the minister. The statement which the minister announced that he would submit to The Review for publication does not appear for the reason that he neglected to prepare it before leaving for Gardiner.

A copy of the indictment returned at Throckmorton was received here yesterday, together with the affidavit on which it is based. Specifically, it accuses a Rev. Summers of borrowing \$100 from another individual under the false representation that the money was needed to defray the expense of a surgical operation.

F. B. Waite was over from Sutherlin Valley today and reports the sale of some more tracts of choice fruit lands there to prominent people from the east and California.

This afternoon Justice Long is hearing the case of H. H. Martin vs. R. R. Wood; an action for \$12.80, alleged to be due for the delivery of some hay.

How to Treat a Sprain. Sprains, swellings and lameness are promptly relieved by Chamberlain's Liniment. This liniment reduces inflammation and soreness so that a sprain may be cured in about one-third the time required by the usual treatment. 25 and 50 cent sizes for sale by Hamilton Drug Co.

AGENT WANTED—\$100 a month and expenses to sell advertising circles to manufacturers and merchants. Write Pacific Mfg. Co., 1427 9th Ave., Seattle, Wash.

PICKENS-FRENCH WEDDINGS.

At the beautiful residence of Mr. and Mrs. H. S. French, on South Main street, Wednesday, Nov. 11th, 1908, their charming daughter, Miss Mary Francis, was united in marriage to James Earl Pickens.

The bride and groom and Vivian French and Miss Ruth Gibson, best man and bridesmaid, respectively, together with Rev. E. H. Hicks, the officiating minister, took their positions under a beautiful white bell, swung in the parlors, while Ralph W. Terrell rendered Mendelssohn's popular march. The groom was clad in black, while the bride wore a beautiful gown of silk Messeline.

About forty guests were present, and the tasteful decorations of roses, chrysanthemums, cosmos, and ivy greatly enhanced the enjoyment of the occasion.

After the ceremony, Misses Hallie Phillips, Fannie Cobb and Birdie Tipton served an elegant lunch, while Miss Inez Kitchin presided at the coffee urn. An unusually large number of beautiful and useful presents, including rugs, a bed, hand painted China, cut glass, silverware, fancy work, etc., were given. The groom's wedding gift to his bride was a handsome piano. About 9 o'clock those invited to the reception began coming and another pleasant hour was enjoyed.

The couple are well and favorably known in this city. Mr. Pickens is the son of Mrs. H. E. Pickens, and holds a position with the Hunsaker-Guest Grocery Co. His charming bride is popular equally in church, fraternal and social circles. Mr. and Mrs. Pickens have taken up their residence in the neat, new cottage just west of Mr. French's home, and on South Jackson street.

Their many friends will wish for them many years of happy wedded life. X. Y. Z.

How to Cure a Cold.

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation, one that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease, Chamberlain's Cough Remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by Hamilton Drug Co.

WANTED—Good farm, suitable for fruit, with running water and convenient to market; give full particulars and lowest confidential spot-cash price in first letter. Must be a bargain. Owners only need apply. Address H. G., care Review, SW.

MANY IMPLICATED

Slaying of Carmack Result of Sensational Plot

PARALLEL TO GOBLE CASE

Damaging Evidence Against Rector Young—Belford Farm Yields Bloody Objects

Special to the Evening Review. NASHVILLE, Tenn., Nov. 12.—Intense excitement prevails here today, following the discovery of an alleged plot among some of the biggest politicians in Tennessee in connection with the killing of ex-Senator Carmack by a son of Col. Duncan Cooper. A warrant has been issued for the arrest of John D. Sharp, ex-sheriff and former member of the legislature, who is accused of being an accessory to the crime. Other arrests will follow. It is said the plot revealed will rival that which resulted in the assassination of Governor Goebel, of Kentucky.

Probing the Rector.

SAN FRANCISCO, Nov. 12.—Documentary evidence tending to support the accusations of Edna Reynolds, of Oakland, that Rev. Payson Young, rector of the Episcopal Church of St. Mary, The Virgin, bore more than priestly relations with Edna Clark, aged 19, the missing art student, is in the hands of an ecclesiastical court of inquiry today. A letter from the missing girl to Edna Reynolds, dated Oct. 21, tells of her love for the rector. The disappearance of the girl is now the sensation of California. Rev. W. B. Clark, of Redwood City, a witness in the case, testified today that he was introduced to Edna by Young in the rector's study.

The Farm of Horrors.

MARENGO, Ill., Nov. 12.—Following the discovery of the body of Oscar Hognanson, a neighbor, a few days ago, an automobile pierced with bullets, three butcher knives, a revolver, an axe and pieces of wood stained with blood were found by a searching party on the farm of John Belford today, giving proof of further crimes. Besides Hognanson, two other neighbors of Belford mysteriously disappeared, and it is believed they were murdered also. Belford is under arrest.
