NOVEMBER 12, 1908.
As usual, a large amount of fruit in Douglas county was lost this season for lack of a cannery. It should be made a special effort of the Commercial Club to see that this does not occur again.

It is already apparent that the tariff revision promised for next year will be upward instead of downward. That is apparently what a majority of the people voted for, so they should have no complaint to offer.

At next Monday's city council meeting definite steps will again be taken toward paving Roseburg's principal streets the coming year. Let no mistakes be made this time. We must have paved streets just as soon as it is possible to get them.

A bunch of machine politicians of this state, aided and encouraged—if not actually led—by the Portland Oregonian, are endeavoring to overthrow the primary election and initiative and referendum laws of this state. Further than this, they are endeavoring by every possible means at their command to induce members of the legislature to commit perjury by violating their sworn pledges to support Statement No. 1, in the election of a United States Senator. Perjury is a grave crime in this state and every legislator who violates his Statement No. 1 pledge should be amenable to the penalty therefor. Technically this may not be possible, yet morally the Oregonian and those working with it to defeat the practical application of that law are guilty of aiding and abetting the commission of perjury. These are plain words, yet they but state plain facts.

When it comes to being a real news paper, The Review has long been without a peer in Southern Oregon. It maintains that proud position by fulfilling its mission of giving all the news all the time. Besides fully covering the local field, in a fair and reliable manner, it has the only telegraphic news service in the county and thus places the important events of the world before its readers every day. It is not a matter of an occasional "scoop," here or there. Our service is so incomparably better than any other paper in this county that any would-be competitors are entirely outclassed. Discriminating readers know this and consequently our circulation is also on the advance of any other and is growing all the time. Big events like a national election are handled right up to the minute, and The Review was the only paper in the county that gave the detailed vote of this county by precincts and for the electors of all parties. We invite comparison at all times, being confident that our service will show everything we claim for it—the best in all lines.

With eggs retailing at 35 to 40 cents per dozen and potatoes at 90 cents to \$1.25 per bushel, there is certainly no lack of inducement for the production of these commodities. Yet it is a regrettable fact that both have been shipped into Roseburg from other counties—or states—recently. In the potato line such a shortage is not likely to occur another year, as several parties, we understand, are expecting to plant a good acreage next season. One grower recently told a Review representative that he expects to devote 20 acres exclusively to potatoes next year. Others will probably plant much larger areas, so that Douglas county will be an exporter instead of an importer of potatoes hereafter. As to egg production, our poultry growers do not seem to have solved the problem of producing a sufficient supply at all seasons of the year. Several carloads of eastern eggs have recently been brought to Portland and a few of these eggs came to Roseburg. Douglas county has the reputation of being one of the biggest poultry producing sections of the state, yet it is obvious that the egg production could be better regulated and at a good profit to the growers.

HAS BRIGHT'S DISEASE.
Governor-Elect Cosgrove, of Washington, May Never Take Office.

POMEROY, Wash., Nov. 11.—An official statement as to the real condition of the health of Governor-Elect B. G. Cosgrove, of Pomero, cannot be obtained owing to extreme reticence on the part of his physicians and his relatives, but it can safely be said that Mr. Cosgrove is a very sick man with little hope of being able to qualify for the high office to which he has just been elected and which has been his goal since early manhood.
No one but his physicians can give an exact diagnosis of Mr. Cosgrove's ailment, but there is not much doubt he is in the last stages of Bright's disease. Statements to that effect have not been contradicted by any one in position to do so. Neither has it been denied that Mr. Cosgrove has an affliction of the heart incident to the later stages of that disease.

The Ladies Society of the B. of L. F. & E. will hold a window sale of home cooking at the Rockdale store, Saturday, Nov. 14. dsw

TWO PLANS OUTLINED.
Statement 1 Men Can Either Resign or Receive Pledge.
PORTLAND, Or., Nov. 11.—Gradually the plan of campaign to prevent Governor George E. Chamberlain from being elected United States Senator by the legislature, is assuming definite form, and the chief point of attack now is on the phalanx of the Statement No. 1 members. Those who are engineering the proposition express themselves as confident of the ultimate success of their designs and the overthrow of Chamberlain, despite the pledge which the Statement men voluntarily made to the people who elected them.
In the legislature there are 52 members who were elected on the Statement No. 1 pledge, and Governor Chamberlain needs but 45 votes to elect him to the Senate. To defeat Chamberlain, therefore, it is essential to eliminate seven of the Statement No. 1 men in some manner, and this is to be accomplished, according to the enemies of Chamberlain. To do this two methods have been mapped out, the first is to have certain of the Statement men resign and to have others renounce their pledge. Those who are to resign will do so because they do not want to vote for Chamberlain and do not want to vote for anyone else, as that would be breaking their pledge, and consider that resigning is the lesser of the evils confronting them. As a salvo for the conscience of those who will renounce their pledge, a petition will be sent them signed by voters who will urge them to vote for a Republican in preference to a Democrat.

An Outside Opinion.
After stating editorially the fact that the supreme court of North Dakota had decided that members of a legislature pledged to vote for the popular choice for senator cannot be compelled to keep their pledges, the San Francisco Chronicle, a staunch Republican newspaper, says:
"Of course they cannot. Everybody knew that. The method of choosing United States senators is determined by the constitution of the United States, and no state legislature can in any way affect it. But neither does the federal constitution prevent legislators from promising to vote as their constituents direct. It, however, they make these pledges, no power on earth, except their own sense of decency can prevent them from 'welching.' If a man desires to publicly confess himself a liar and a sneak he has the moral—no, the immoral—right to do so. And if a legislator thus pledged should thus violate his promise it would be utterly illegal for his constituents to lynch him in a horse pond after he got home. But they might do it and see their chances with the law and the recording angel."

DECREASED \$139,000,000.
Annual Earnings of Railroads Drop \$1000 For Every Mile.
CHICAGO, Nov. 11.—Gross earnings of the railroads of the United States decreased by the sum of \$139,000,000 during the fiscal year ending June 30, 1908, according to Slayson Thomas, manager of the Bureau of Railway News and Statistics whose report has just been issued. The figures are compiled from the monthly reports of the railways to the Interstate Commerce Commission. The figures show the gross earnings for the last fiscal year to have been \$2,450,000,000, with a mileage of 230,000, or \$10,652 per mile. For the corresponding fiscal year the gross earnings were \$2,589,055,783 with a mileage of 227,454, or \$11,383 per mile.
As the operating expenses for 1908, approximately \$1,729,000,000 are not more than \$20,000,000 below those of 1907, the report continues, the official returns for the year just closed will show a loss of \$120,000,000 in earnings as compared with 1907.

A Lazy Liver
May be only a tired liver, or a starved liver. It would be a stupid as well as a savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but a indication of an ill-nourished, enfeebled body whose organs are weary with overwork. Start with the stomach and allies organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burden imposed upon it by the defection of other organs.
If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, dependent, frequent headaches, pain in distress, small of back, yawning or distressed feeling in stomach perhaps nausea, or "rising" in throat after eating, and kindred symptoms of weak stomach and torpid liver, you will find relief in this medicine. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to it until you are vigorous and strong.
The "Discovery" is a non-sensory, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle wrapper and attested under oath. Its ingredients are well known and analyzed by the most eminent medical writers of the age and are recommended to cure the disease for which it is advised.
Don't accept a substitute of unknown composition for this non-sensory MEDICINE OF KNOWN COMPOSITION.

Umpqua Cold Cure is a guaranteed remedy. Quick and sure, at Hamilton's. TF

WM. BYBEE DEAD.
Oregon Pioneer of 1852—Odd Fellow For Forty-eight Years.
MEDFORD, Or., Nov. 11.—William Bybee, one of the best known pioneers in Southern Oregon, died at his home near Jacksonville this afternoon of stomach trouble. Mr. Bybee was born in Clarke county, Kentucky, in 1839, came to Oregon in 1852 and to Jackson county in 1854. In 1864 he joined Jesse Walker in fortifying against the Indians then at war in Southern Oregon. In 1878 he was elected sheriff in this county and served two terms. His land holdings have been larger than that of any other man in Southern Oregon.
He was married in 1854 to Elizabeth Walker, daughter of Jesse Walker. To this union 11 children were born. Of these, Mrs. Charles Prim and Frank Bybee, of Jacksonville; Mrs. Fred Luy, of Medford; William Bybee, Jr., of Alaska, and Robert Bybee, of North Bend, B. C., are living. Mrs. Bybee died in 1899. Funeral services will be held on Friday afternoon. Mr. Bybee has been a member of the I. O. O. F. since 1869 and the funeral will be under the direction of that order.

WATTERSON'S SON KILLED.
NEW YORK, Nov. 11.—Harvey W. Watterson, a lawyer and younger son of Henry Watterson, editor of the Louisville Courier-Journal, plunged to his death from the 19th floor of his office building at 37 Wall street late this afternoon. His body shot down ward from a height of 110 feet and landed on the roof of a 19-story building adjoining. Almost every bone was broken and the head was crushed.
While there were no witnesses to the tragedy, evidently it was entirely accidental. Mr. Watterson's hat and coat were on his closed desk. Presumably he had attempted to lower the window and, either stumbling over the radiator, which was in front of the low sill, or losing his footing in some other manner, pitched forward and down to death on the roof of the building below.

A MONSTER POWER PLANT.
One of the greatest enterprises of southern Oregon is soon to be inaugurated by the Alameda Consolidated Mines Company and it will attract much attention to the Galilee Mining District. The company is now arranging for the early development of a water power of from six to eight thousand horsepower, also to build an electric road to some convenient point on the Southern Pacific railroad. The dam will be constructed in such a manner that the power can be increased as conditions demand. This improvement will save the company over \$60,000 per year as compared with present methods of transportation and power; also it will be of great value to the district in general, as it will mean cheap transportation and cheap power to the mines, of which that section stands very much in need at the present time.
It is learned that Grants Pass will attempt to secure this new railroad and already steps have been taken to have the line run from Alameda to a point on the Applegate river where the Illinois valley Road is to cross that stream. An effort will be made by the railroad company to secure the Alameda road as a branch. It may be that the Alameda dam will furnish the power to run the Illinois line. This is a case where both companies will be benefited by consolidating their railroad interests. The building of an electric line from Alameda to some point on the S. P. R. R. will add greatly to the prosperity of the Galilee Mining District. The lack of railroad facilities has kept this whole country back for many years.
It is now high time that new and better methods of transportation are

ORINO
Laxative Fruit Syrup
Pleasant to take
The new laxative. Does not gripe or nauseate. Cures stomach and liver troubles and chronic constipation by restoring the natural action of the stomach, liver and bowels. Refuse substitutes. Price 50c. For sale by Red Cross Pharmacy.

Stop--don't do the work a Machine can do
The Yost
Gearless motor will do it, simple as A B C, self-oiling—will last a lifetime. No metal cogging. We invite your personal inspection.

R. will add greatly to the prosperity of the Galilee Mining District. The lack of railroad facilities has kept this whole country back for many years.
It is now high time that new and better methods of transportation are

augmented. An electric road will make a dozen mines in this district paying producers.—Pacific Outlook.
Biliousness and Constipation.
For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Peppin preparations and cathartics only made matters worse. I do not know where I would have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by Hamilton Drug Co.

THE MIGHTY POWER OF MI-O-NA.
MI-O-NA, that extraordinary and perfect stomach tonic, will relieve dyspepsia in twenty-four hours. It will cure, and is guaranteed by Red Cross Pharmacy to the readers of The Review to cure the most pitiful cases of dyspepsia, if taken according to directions.
MI-O-NA tablets not only cure dyspepsia, but all stomach disturbances, such as vomiting of pregnancy, or car sickness, and the stomach sickness after excessive indulgence.
MI-O-NA cures by strengthening and invigorating the flabby stomach walls, and after a course of MI-O-NA treatment, constipation, if there is any, will entirely disappear.
Read this from the president of a New York corporation:
"I have been a terrible sufferer from dyspepsia and gastritis for two years. The most eminent physicians prescribed for me with no effect. I have been absolutely cured by your MI-O-NA tablets. The first one gave me a relief almost incredible."—Herbert H. Taylor, 501 West 143 St., New York City.
MI-O-NA is a most economical treatment—a large box of tablets only costs 50 cents at Red Cross Pharmacy and the dyspeptic, nervous or otherwise, who does not give them a trial, is losing an opportunity to regain health.

TEA
Good tea, close price. There is no other way to build a good business or keep a good business.
Your grocer returns your money if you don't like Schilling's Tea; we pay him.
