# Does not Color the Hair

AYER'S HAIR VIGOR

**Remarks on Pruning.**  
A wound made by removing a limb heals best if the cut is made close to the trunk or branch. A stub two or three inches long does not heal and becomes a lodging place for spores of fungi and bacteria, which cause decay and death of the tree. The splitting down of large limbs may often be avoided when pruning by sawing in from the underside first, but in every case see that the wound is left clean and smooth. Wounds should also be covered immediately with a coat of paint, shellac or grafting wax to keep out the moisture and spores before mentioned. Nothing is better for this purpose than pure white lead and linseed oil.—Maryland Experiment Station.

**Breeding Sweet Corn.**  
Considerable tabular data are given by the New Jersey experiment station, showing the effect, as indicated by the composition, of breeding sweet corn by the ear to row method. Three plants were selected from the first year's planting and analyses made of a number of ears from each row. These ears were allowed to ripen and were planted in the season of 1907. The result again indicated the tendency of certain individual ears to transmit a high percentage of sugar and that this tendency prevails throughout the entire row grown from such an ear. The Crosby variety was found to be much sweeter than the Stowell Evergreen.

**Rice a Good Poultry Feed.**  
Feeding experiments at the Massachussetts station included rice, a feed which has very little fiber compared with wheat or oats. It resulted in a larger production of eggs, but was not advised for feeding purposes on account of the cost. However, it is often possible to buy slightly damaged rice at less even than the cost of corn and wheat, and in such cases it is a desirable food for variety for either the laying hens or the young stock.

## Now is the time to visit California

When summer has passed in these northern states, the sun is only mild under the bright blue skies of Southern California. This is one of nature's happy provisions—eternal summer for those who cannot endure a more severe climate. California has been called the "Mecca of the winter tourist." Its hotels and stopping places are as varied as those of all well regulated cities. Visitors can always find suitable accommodations, congenial companions, and varied, pleasing recreations.

## SOUTHERN PACIFIC CO.

Will be glad to supply some very attractive literature, describing in detail the many delights of winter in California. Very low round trip excursion tickets are on sale to California. The rate from ROSEBURG, OREGON, to Los Angeles and return is \$55.00. Limit six months, allowing stop-overs in either direction. Similar excursion rates are in effect to all California points. For full information, sleeping car reservations and tickets, call on telegraph or write L. B. MOORE, Agent, Wm. McMurray, Gen. Pass. Agt. Portland, Ore.

# A Few "Fit" Suggestions--

Concerning that New Winter Suit.

Roominess is just as important in a suit as it is in a nightshirt. There is no reason in the world why the body should be cramped for room when awake any more than when asleep. A well fitting suit must be cut full, so as to adjust itself naturally and symmetrically to the wearer's figure. The drawing or wrinkling across the shoulders, characteristic of many poorly-fitted suits, is caused by unscientific drafting and by trying to save material in cutting. No suit cut on a narrow, niggardly pattern, can possibly fit. We carry only "hand tailored" suits, nonbreakable fronts, and in fact every requirement is met in order to give you the best. We keep telling you about this kind of clothes so frequently, because we want you to get the Good Habit—Hart's Toggery good clothes habit, and then we know we have accomplished what we are working for—made a customer and a satisfied customer. Your clothes kept pressed free.

## LOCAL NEWS.

J. H. Dunne arrived here from Garfield, Wash., Sunday, to visit with relatives in this county. Examine the construction of a Bush and Lane piano and you will readily understand why they guarantee them for twenty years. At 3 o'clock this afternoon, Atty. J. O. Watson, counsel for the defense, began making his argument in the case of Harry Gilman, who was arrested at Slason, Calif., last week on a charge of larceny, preferred by S. W. Coffey, of this city. Gilman is accused of stealing an overcoat belonging to Coffey and his defense is that Coffey loaned him the coat. Deputy District Atty. E. B. Hermann is representing the state. A jury, consisting of H. W. Strong, Frank Clements, G. Worthington and Ed. Neeley, is hearing the case. The verdict was acquittal, the defendant showing he had only borrowed the coat.

**WHY IT SUCCEEDS.**  
Because it's For One Thing Only, and Roseburg People Appreciate This.  
Nothing can be good for everything. Doing one thing well brings success. Donan's Kidney Pills do one thing only. They cure sick kidneys. They cure backache, every kidney ailment. Here is Roseburg evidence to prove it. A. Fields, 1121 Mill St., Roseburg, Ore., says: "The recommendations of Donan's Kidney Pills by local people, led me to get a supply at A. C. Marsters' drug store, as I had been bothered for years by kidney complaint. They brought very gratifying results and for the relief I found through their use I am willing to endorse them."

## No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which causes constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. Red Cross Pharmacy.

## Washing the Butter.

After drawing off the buttermilk pour a pailful of cold water in the churn over the butter and give the churn four or five quick revolutions. Then draw off the first wash water and put on the second and turn as before. If the butter is hard enough after the second washing, draw it off and take out the butter.—American Cultivator.

# S.S.S. CURES CHRONIC ULCERS

Any chronic ulcer shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it of unhealthy matter from the circulation. No treatment can have any curative effect except a medicine which will renovate the blood and entirely remove the cause. Salves, washes, lotions, etc., are sometimes helpful in reducing inflammation, cleansing the ulcer, or perhaps lessening the discharge, but such applications do not reach the blood where the disease germs are located and can never effect a cure. S. S. S. goes down into the circulation, drives out all impurities and morbid matter, and by nourishing the flesh with rich pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but by beginning at the bottom, and rebuilding broken-down tissue, and supplying healthful, healing qualities to the blood, causes the place to fill in with new, firm flesh, while it steadily but surely effects a permanent cure. The ulcer can not exist when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.
