ON WOMAN'S SUFFRAGE. Roosevelt Believes in It, But is Not an Enthusiast.

NEW YORK, Dec. 4.—The attitude of President Roosevelt on the subject of woman suffrage was disclosed today at a meeting under the auspices of the National League of Civic Education of Women.

Not Enthusiastic for Suffrage. "Practically I believe in woman suffrage, but I am not an enthusiastic advocate of it because I don't regard it as a very important matter."

But at present I think most of them are lukewarm. I find some activity for it and some activity against it. While I believe in it, I do not regard it as of very much importance.

I believe that men and women should stand on an equality of right, but I do not believe that equality of right means identity of function, and I am more and more convinced that the great field, the indispensable field for the usefulness of woman is as the mother of the family.

It is her work in the household, in the home, her work in bearing and rearing the children, which is more than any man's work, and it is that work which should be normally the woman's special work.

There are exceptions as regards both man and woman; but the full and perfect life, the life of highest happiness and of highest usefulness to the state is the life of the man and woman who are husband and wife, who live in the partnership of love and duty, the one earning enough to keep the home, the other managing the home and children.

GAME LAW CHANGES. State Association Preparing For the Next Legislature.

PORTLAND, Or., Dec. 4.—Officers of the Oregon Fish and Game Association will propose extensive amendments to the existing game laws of the state at the coming session of the legislature.

In response to a general demand alike from the hunters and the farmers, the committee will recommend a law establishing a closed season of at least two years for the protection of the Chinese pheasant. Another law will be suggested prohibiting the killing of elk for a period of five or six years.

The legislature also will be asked to provide a bounty fund on crows, wolves and cougars. It is asserted by members of the committee that more birds and other game are killed annually than by the sportsmen. It is for that reason the committee believes the state should make provision for this sort of protection.

Under the present law the county courts are empowered, if deemed expedient, to provide such a bounty fund, but the members of the committee feel that the expense should be borne by the state directly rather than by any one county or group of counties, since the benefits following such a policy are state-wide and not confined to the community in which such a tax is levied.

There is a demand from many sources that the law which forbids the sale of ducks in the market be repealed. It has been suggested to the committee that in arranging for the sale of ducks in the market, the limit that can be taken any week be reduced from 25 to 15. In recommending this legislation, the committee will propose that hunters in game be required to keep a record of all purchases, the number of ducks bought, together with the date and name of the man from whom they were bought. This record shall be open to inspection by the State Game Warden.

TO EAT OREGON APPLES. Four European Orders Consignees of Twenty Boxes Now Enroute.

PORTLAND, Or., Dec. 4.—Twenty boxes of Oregon apples were started on their way to four European consignees by the Portland Commercial Club this morning.

The apples are Spitzenhorns and Newtown Pippin, and the boxes are more ordinary affairs, constructed of Oregon spruce, which being a white and lustrous wood will impart no foreign flavor to the fruit.

The express charges on the apples are over \$100, or \$5 a box. The value of the apples in Portland is estimated at \$4 per box, which is a way beyond the price paid for apples by the average Portland housewife. The fruit, however, has been carefully selected from boxes that were themselves selected and the most scrupulous care was taken that no codling moth, woolly apple, San Jose scale or any other pest had reached within a mile of it while the fruit was growing on the tree.

The shipments are to reach the tables of the respective recipients in time for the Christmas dinner. The apples are Oregon— from Hood River Valley.

ADVERTISING OREGON. Nearly Six Tons of Literature Shipped to Eastern Points.

PORTLAND, Dec. 4.—Nearly six tons of advertising matter about Oregon were shipped by the passenger department of the Harriman lines from Portland yesterday, bound for every point in the United States and many of the principal cities of Europe.

In the shipment were 57 cases weighing 200 pounds each, making the shipment amount to 11,400 pounds of Oregon advertising matter.

The booklets and advertising pamphlets are sent out at this time largely because of the travel season. The winter months are considered to be the best time to distribute booklets on the Pacific coast because the trips made by most travelers to the coast are conceived and planned for between Christmas and the spring months.

The advertising work being done for Oregon at present is on the largest scale in the world and has far outstripped the famous work done for California.

Medicine That is Medicine. "I have suffered a good deal with malaria and stomach complaints, but I have now found a remedy that keeps me well, and that is Electric Bitters; a medicine that is a medicine for stomach and liver troubles, and for run down conditions."

PRUNE SHIPPERS PROTEST. Southern Pacific Increases Rate to East 10 Per Cent.

SALEM, Or., Dec. 4.—The Southern Pacific company having announced an increase of 10 per cent in the freight rate on prunes to eastern markets, the Willamette Valley Prune Association today applied to the railroad commission to aid in fighting the advance.

The rate heretofore has been \$1 per hundred, but has been increased to \$1.10. In discussing the increase the association says in its letter to the Commission: "This will mean an unreasonable and unjust discrimination against the prune business, and one which will give the industry a decided setback at a period when it is just beginning to feel that it has a right to exist."

Business was eagerly sought for when \$200 was charged and we see no earthly reason why the rate should be advanced at this time.

As this rate applies to interstate traffic, the Oregon commission has no jurisdiction but will aid the association in presenting the matter before the Interstate Commerce Commission.

A Square Deal. Is assured you when you buy Dr. Pierce's family medicine—for all the individual ailments entering into them were printed on the bottle-wrappers and their formulas are attached under each as being complete and correct.

Not a drop of alcohol enters into their composition. A special analysis has been made of the medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children.

Dr. Pierce's Family Medicine is an important part in the cure of indigestion, dyspepsia and weak stomachs, attended by sour eructations, heartburn, flat, bloated, coated tongue, poor appetite, gasping, feeling of sickness, biliousness and kindred derangements of the stomach, liver and bowels.
