JACKSON STREET ROSEBURG, OR.

Roseburg Agents for Ladies' Home Journal Patterns

The past three months have been mighty busy months for us. To begin the season we had a large assortment of summer goods. Now we find we have an accumulation of small lots, broken sizes, remnants, etc., etc. We want to dispose of them at once. We do not carry any summer goods over to the next season. Therefore, we are offering at this CLEAN-UP SALE bargains unheard of before in Roseburg.

And to add interest to this important sale we are going to offer

25 PER CENT REDUCTION

on all Lawns, Parasols, Ladies' Tailor Made Suits and Skirts, all Men's and Boys' Clothing, Fancy Vests, Etc. Kayser's Long Silk Gloves With Double Tips 75c a Pair.

This is seasonable, stylish merchandise, and at prices that should create enthusiasm among women who need summer goods.

Do not forget that we buy for CASH ONLY, and are, therefore, in a position at all times to give better bargains than stores that do a credit business. So, when we say we will give a reduction of ONE-FOURTH it means something—it means that we will lose money on many of the articles as the sale price is less than we paid for them, but we are determined not to carry any of this year's stock into next year and, besides, we need the room for our New Fall Goods that will arrive within a short time.

Wm. B. Orr, representing the Evening Telegram, of Portland, is in the city to interest the Commercial Club in the "Oregon" edition which the Telegram will issue during the coming October. As the title indicates, the issue will not be devoted to any particular locality, but to the state in general, and none of the state's resources, industries and opportunities will be overlooked. The Commercial Club has practically agreed to see that Roseburg is represented in this great advertising project, and liberally enough to make the city compare equally with other sections of the state.

One week of married life came to a sad ending in Roseburg Tuesday evening, when Mrs. Ruth Peterson, aged 25 years, was committed to the state asylum for the insane. Mrs. Peterson and her husband—her second—Ole Peterson, both then of Cottage Grove, were married at Eugene a week ago last Monday. The couple came to Roseburg the day after the marriage and went out to a farm on Deer Creek, east of here, to live. Hardly were they located when the unfortunate woman began to manifest insanity, finally getting uncontrollable and making her commitment imperative. She was taken to Salem this morning. In order to temporarily quiet her she was allowed to take along her baby, a 14-months-old daughter by her first husband, Benbow, by name.

JUST ANOTHER OF HARRIMAN'S BLUFFS

Prineville Paper Ridicules Proposed Deschutes Railroad—Expects No Line for 10 Years.

Over at Prineville the people look upon Harriman's central Oregon railroad project along the Deschutes as a joke, if the following article from the Prineville Review is a criterion of public sentiment:

"A Grass Valley dispatch says:

"Twohy Bros., railroad contractors, of Spokane, have established headquarters at this place and have rented six office rooms. They have also secured a warehouse for a commissary and have it filled with supplies for men and teams. They have built a strong cellar for storing powder, have rented a large livery stable for teams and have 10 head of mules here now.

"They have also established camp on the top of the Deschutes hill and have 150 men at work building a wagon road down the hill so they can establish camp on the river. The estimated cost of the wagon road is $7000."

This is about the best thing we have seen lately anent the Deschutes Railroad project. The contractors are going to build a wagon road down the bluff and haul their equipment five miles from Grass Valley to the river. Haw! haw! haw! This is a brand new way of building a railroad. Next thing they will be hauling ties and rails from Kent down Buck Hollow to the river. It's only about 'steen miles. There is seemingly no possible way to start grading from the main line at the mouth of the river. Impossible sand dunes bar the way and thus Grass Valley, 14 miles south by township lines and 21 by rail, is designated the base of operations. It is the wierdest railroad building ever heard of. No railroad man with a modicum of brains would ever select the Deschutes route for penetrating Central Oregon so long as any other route lay open. Especially foolish does the Harriman system appear to be in this matter, all the more for the fact that it is spending lots of good money for nothing, since it has no rivals for the possession of the canyon.

It is generally the opinion around here that Mr. O'Brien's latest move is nothing more or less than a gigantic bluff, made to secure the Deschutes canyon against a rival that does not exist, and that Crook county will have no railroad from that direction for at least ten years.

DATES OF DRAWINGS FOR LAND ANNOUCED.

Commissioner Dennett Says Bona Fide Settler Will Get Preference Over Speculator.

SPOKANE, Wash., July 20.—Superintendent James Witten today announced the following dates when the drawings will occur for the three Indian reservations, the lucky applicants' names to be drawn by lot by three little girls:

For the Coeur d'Alene reserve, August 9 and 10; for the Flathead reservation, August 12 and 13; for the Spokane reservation, August 16 and 17.

In speaking of the opening of the reservation after the drawing, Fred Dennett, Commissioner of the General Land Office, at Washington, D. C., said last night:

"The policy of the government is to protect the bona fide settler as far as possible and to prevent the speculator from acquiring title to government lands without proper compliance with the law. The interests of any community are injured by the acquisition of land by persons who do not intend to live thereon. The settler loses a neighbor, who would otherwise aid him in building roads and in the establishment of school districts, and the merchant loses a customer, who, under all rights, should be on the land, putting it to its best purposes."

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years.
