AUGUST 2, 1909.

"Good old summer time."

More products mean more wealth. This county needs more people to grow these products. We have the finest soil and climate awaiting them.

With hop prices approaching 25 cents per pound, wheat from $1.00 to $1.25 per bushel, hay and all other farm products bringing high prices, it's no wonder many people are becoming anxious to get back to the farm.

"Shot for a deer" is the grewsome report heard again all too frequently. The manslaughter penalty should be strictly enforced in such cases. Fear of a long term in the penitentiary would doubtless help to abate such rash shooting without being sure what the object was that was fired at. Such carelessness should be stopped.

Instead of reducing the tariff, as promised, the House bill increased the Dingley rates. Then the Senate raised the House bill so much that it is called a tariff reform victory to have these last figures reduced to something near the House bill rates. And thus does the tariff juggle goes on, with the trusts winning right along in this great national game of grab. The consumers? Oh! All they have to do is to pay the bills.

Rebuilding a city is a big piece of work. Roseburg is now realizing this in rebuilding its principal streets and sidewalks. It costs money, too, but the increase in property values will be four times the outlay, so the investment is a highly profitable one. An eastern gentleman who was here a few days ago remarked the torn up condition of our streets, and added: "But it's the best thing your town has ever done. With street paving well started you can't stop it. More and more streets will be paved, right along." This is a modern species of pioneering. The present inconvenience is great, but the first six blocks of paving will probably be completed in a couple of weeks, then we will begin to realize the benefit. The surfacing crew will arrive perhaps tomorrow and the big mixing plant will be ready for operation in a day or two. The finishing work will then go ahead rapidly. We should have six or eight blocks of completed pavement before circus day—August 27—and our present inconvenience will soon be forgotten.

## THOSE TARIFF LIARS.

So it is not the tariff after all that raises prices to the consumer. That is a "patent economic fallacy of the Democrats." Senator Hale says so, and he knows, for he has been a high-tariff man all his life.

When Senator Hale votes for a tariff duty on paper, in the manufacture of which his son is interested; when Senator Scott votes for protection for glassware from his own factory; when Senator Elkins votes for protection of coal from his own mines; when Senator Guggenheim votes for protection of lead produced by the Guggenheim smelters; when Representative Fordney votes for protection for lumber from his own mills, they are not seeking an increase in prices for the benefit of themselves and their relatives and partners. The tariff does not affect prices. That is a stupid delusion on the part of the consumer. If he doubts it he has Senator Hale's solemn word for it that "the householder is paying nothing to a protective tariff that builds up American industry." It is the retailer who is the guilty wretch, the son of iniquity, who makes high prices and practises extortion upon the consumer.

The foreigner, it seems, is no longer paying the tariff. He used to, but that was before the protectionists changed their arguments. The consumer does not pay it, as Senator Hale has proved. There are no consumers anyhow, for Senator Lodge says they are all producers. Naturally the retailer does not pay it, for he robs the consumer, who is a producer.

Who does pay the tariff? Why, it must be the tariff beneficiary himself, like Senator Hale's son and Senator Scott and Senator Elkins and Senator Guggenheim. He is the wretched victim of the beneficient system, and out of charity to himself he wants duties raised so as to be relieved of his burdens.—New York World.

### Washington's Plague Spots

lie in the low, marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "Three are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louellen, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by all druggists.

## TARIFF BILL "RANKEST" SORT OF GOLD BRICK.

It is becoming daily more evident that if this country is ever to receive a genuine revision of the tariff downward it must be by Democratic majorities in both houses of Congress. No man could have struggled more valiantly for real revision than has President Taft. And no man could have met with more signal defeat. There have been some "concessions" to the views of the president, but they have been chiefly of an inconsequential character and in schedules where they will afford the consumer little or no relief. It is extremely doubtful if a single commodity will be a penny cheaper to the consumer because of the Republican revision. The farce of this revision is well illustrated by the exposure, by a Republican member of the House, of the methods adopted by Speaker Cannon and his allies to deceive the people into the belief that they were to enjoy actual revision downward. Representative Edwards, a Republican from Kentucky, in a moment of anger, betrayed this one secret of the Republican method of procedure. Says Mr. Edwards: "Those of us who voted for the House bill with its free hides, $1 lumber, reduced duty on coal, reductions in the cotton schedule, etc., did so with the distinct understanding that the rates were to be increased in the Senate to a point which would be satisfactory to our constituents. Speaker Cannon himself assured us that we need have no fear about voting for the bill for the Senate would increase all the rates the House had reduced. Now if Mr. Cannon accepts a bill which contains any of these reductions it will be distinctly an instance of bad faith on his part."

The Payne bill was received by a gullible public as an evidence of sincerity on the part of the Republicans, but how insincere it was is clearly demonstrated by Representative Edward's expose.—Ex.

# When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

***Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.***

Sick women are invited to consult Dr. Pierce by letter, *free*. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing *only*, and he will send you a *free* copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.

## DRAIN PROPOSES BOND ISSUE FOR WATER SYSTEM

DRAIN, Or., July 31.—This locality has recently taken measures to have better water for the city. The water company is unwilling to undergo additional expense to give a better supply and the city, after urging that it be done has given five days' notice to do it or abandon the whole matter. The five days have about expired and a mass meeting will be called next week to authorize the council to issue bonds to build a municipal plant. Water in abundance can be procured within two miles, which will give gravity force sufficient for all purposes, and the citizens are ready to vote the bonds to do it.

Tom Richardson spoke here last evening to a full house at the request of the Commercial Club. He urged the people to earnest work in advertising Drain, and suggested ways to do it.

The town of Elkton, about 15 miles from here on the Umpqua river, is putting in its own water plant. Water has been found in the hills near that place of great quantity and purity, and it is being piped to the town. It has a fall of 300 feet and there is no difficulty in getting all the force needed. The money has been secured, a company has been formed and work is already under way.

Coquille Sentinel: Mayor Hawkins has returned from his trip by auto to Roseburg, where he looked into the road improvement situation. He learned that Douglas county has decided to expend all their energies upon the Middle Fork road as a mail route, keeping up the Coos Bay wagon road as a community road only. Their part of the Middle Fork road will be graded and graveled throughout as soon as the work can be accomplished. In addition to this the Douglas court has ordered a new survey, covering about six miles, around the ridge between Olalla and Camas. This will cut off nearly all the bad grades on the other side of the mountain and will keep the grade on the entire road within a five per cent limit. From Olalla the road will be surveyed and opened down the river by a water grade and be put in first class condition. This new survey will connect with the present road at the county line.

## CANYONVILLE NEWS.

It is stated that Timothy O'Sullivan is quite ill at the mouth of Cow Creek, where he has been prospecting. It is believed he is suffering from dropsy.

Miss Jessie Scovill has contracted to teach the Leland school next term. Salary, $70.

Sheriff Fenton has wired Marshal Cox to arrest Mrs. Mary Furlong, who was in Roseburg recently as a witness, but cannot be found. She has not been seen.

**Other Places.**

John Harp of Drew, is getting ready to move to Washington in the near future.

Mr. Case, from up the river, is at Tiller now, suffering from a badly crushed foot, the result of a severe accident.

Frank Webb and father-in-law, of Joplin, Mo., arrived at Riddle Thursday. Mr. Webb formerly lived in that vicinity.—Echo.

### Intense Colicky Pains Relieved.

"For some years I suffered from intense colicky pains which would come on at times and from which I could find no relief," says I. S. Mason, of Beaver Dam, Ky. "Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me by a friend. After taking a few doses of the remedy I was entirely relieved. That was four years ago and there has been no return of the symptoms since that time." This remedy is for sale by all druggists. C

Portland Journal: Two little girls of Mrs. Daisy Venturini, who was sent to the state insane asylum a few days ago, were committed to the care of the Boys' and Girls' Aid Society by Judge Bronaugh in the juvenile court yesterday. Mrs. Venturini came to Portland from Comstock, Or., expecting to marry James V. Dauber, who lives east of Rose City park, who had advertised for a wife. The next night she disappeared from the hotel and was found by the police in the street with her children. She was hopelessly insane. Dauber is still hoping that he will be able to claim her for his bride, but the physicians say there is no likelihood that she will recover.

# S.S.S. NATURE'S PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body. ## WAYWARD ROSEBURG GIRL IS COMMITTED.

THE DALLES, Or., July 31.—Acting on telegraphic advice from the sheriff of Douglas County, Sheriff Chrisman today took Miss Maud Kooken off from an eastbound passenger train. When arrested, the girl, who is 14 years of age, had a ticket for La Grande, and said she was going there to secure work. Her story is that her stepfather abused her, and for that reason she left home with the consent of her mother.

When the sheriff arrested her she was seated in a car with a man by the name of Wing, who claimed to have known her in Roseburg, but denied any responsibility for her leaving home.

The sequel to the above case is that the girl has been turned over to the care of the Boys' and Girls' Aid Society in Portland, the committment papers having been issued in Roseburg on Saturday. The girl was taken to Portland direct from The Dalles. She is a step-daughter of J. L. Springstead, who conducts a dairy on the Sheridan place, one mile south of town. The girl, together with her sister, conducted a milk delivery wagon in this city for several months. She left Roseburg last Friday night.

## REVIEW ADVERTISING BRINGS RESULTS.

Dunsmuir, Calif., July 26, 1909.

Editor Roseburg Review,
Roseburg, Oregon.

Dear Sir:—

We are gratified with the result of our advertisement of the **Vulcan Copper Gold Mine** in your paper. We have received scores of inquiries for our stock from all sections of Douglas County, and we think this speaks pretty well for your paper, and for the substantial character of the people making up the citizenship of your up-to-date communities. Under broad and systematic plans of development, the Vulcan Mine is showing resources in Copper and Gold unequalled in the largest mines of the Shasta Copper Belt, and is, therefore, the center of attraction throughout the Siskiyous. We shall continue to tell the people about our good investment in the "Review" until the offering is withdrawn.

### Cholera Infantum Cured.

"Something like two years ago my baby, which was then about a year old, was taken seriously ill with cholera infantum, vomiting and purging profusely," writes J. F. Dempsey, of Dempsey, Ala. "I did what I could to relieve her but did her no good, and being very much alarmed about her went for a physician but failed to find one, so came back to Elder Bros. & Carter's store, and Mr. Elder recommended Chamberlain's Colic, Cholera and Diarrhoea remedy. I procured a bottle of it, went home as quickly as possible and gave the baby a dose of the remedy. It relieved her in fifteen minutes and soon cured her entirely." For sale by all druggists. C

Eugene Guard: J. W. Baker has retired from the Fisher Laundry Co., selling his interest in the big plant on South Willamette street to his partner, E. L. Fisher, who is now the sole owner. From here Mr. Baker will go to Prince Rupert, on the coast of Canada, where he will probably engage in the same business.

From an authentic source it was learned today that Mayor Hoover has filed with the city recorder his appointment of T. J. Williams to be city marshal, to succeed I. J. Norman. This appointment is subject to ratification by the council, which meets in regular session tonight. One of the councilmen declared this morning that the appointment of Mr. Williams would not be confirmed and that the mayor realizes this. Mr. Williams' qualifications, he said, were not questioned, but the councilmen, or at least a majority of them, are averse to making a vacancy in the police force by dismissing either Joseph Huffman or C. D. Palm, both of whom have given complete satisfaction. Mr. Williams is an uncle of Mayor Hoover and was until recently in business at Wilbur. Mayor Hoover left Sunday for Upper Olalla on a hunting trip and it is predicted that he will not be present at tonight's meeting of the council, leaving the question of the city marshalship to be settled by the councilmen, as he has doubtless intended from the first that it should be.
