GRAHAM'S BASEBALL DECISION REVERSED.

WASHINGTON, Jan. 19—Judge Graham's famous decision in the Gus Hetling case, which resulted in taking from the Portland baseball team three games it won from Oakland and giving to Oakland three games it lost to Portland, has been overruled by the National Baseball Commission and the Portland team will receive credit for all its victories during the past season.

While this decision does not alter Portland's standing, inasmuch as it carried off the pennant, in spite of Judge Graham's handicap, Representative McCredie is highly elated to find he is entirely vindicated in the fight which he made on Judge Graham, for the National Commission sustains all of McCredie's contentions on the main points involved.

That the Portland club must pay a penalty of $100 for "farming" Hetling to Spokane, McCredie considers of minor importance.

No tears will be shed over this loss, inasmuch as the National Commission has restored to Portland all the games to which it was rightfully entitled.

YEAR 1911 WILL HAVE FIFTY-THREE SUNDAYS.

An interesting fact about the year 1911, one which has not been noted before, is that the year begins and ends on Sunday, making fifty-three Sabbaths in the 365 days. There will not be 53 Sundays in a single year again until 1922, eleven years hence.

This number of Sundays usually occurs every six years, leap year adding one more day. Each year usually begins on the day which follows the day in the calendar week upon which the preceding year began. Leap year, adding one more day, makes the following year skip a day.

The last year in which there were 53 Sundays was 1905. Preceding it were 1899, 1893 and 1882. Often leap year begins on Saturday and the following year then starts on Monday, owing to the extra day. This is the case with 1916 and 1917.—Ex.
