FEBRUARY 21, 1911.

AN IMPORTANT INDUSTRY FOR DOUGLAS COUNTY.

Fruit growers, farmers, business men of Douglas county, do you know what is happening in your midst? This week the Fruitgrowers' Union of Douglas county is making a last stand for its existence. This week the committee on soliciting shares in the Union is making a final effort to sell enough stock in the Union to make it possible to organize and to incorporate under the laws of Oregon as an association to handle the fruit of Douglas county.

Do you ask what you have got to do with it, how it is going to help you? Well, then, you are aware, no doubt, that Douglas county has become known everywhere as a fruit district, that they have therefore drawn fruit men, home-seekers and investors from every quarter and are still drawing them, and this in spite of the fact that land has advanced in price far beyond the dreams of the pioneers, and that the road poor old Douglas county. And yet can you blame any natural advantage of soil or climate that is superior to that section of old Douglas county? Unprejudiced fruit men tell us we can grow a better quality of fruit than these places, and it is certainly earlier to command the better markets. Then why have these places gone ahead? It is because they have organized. They have organized to produce fruit in spite of surroundings. They have organized to sell that fruit for top prices, and the country is running after it in spite of the price. They have organized to dispose of their by-products, and consequently do not have thousands of bushels of fruit rotting under the trees and on vines and bushes.

How does this affect Douglas county and what has got to do with the Fruitgrowers' Union?

Do you know that last year many of our fruit growers received low prices for their fruit and lost money because they had no organization back of them? Do you know that much fruit was shipped out of this county that was an injury to the county because of lack of organization? Do you know that the Northwest Fruit Exchange stands ready to accept any fruit but can do nothing unless we organize? Do you know that our golden opportunity to get a canner's shipped through our fingers last fall because we were not organized? And another effort of the same kind is being made which must fail unless there is an organization backing it.

Now then what we need is all to get together and push and lift until we are out of this mire.

It is the purpose of the Fruitgrowers' Union to incorporate under the laws of Oregon and handle and sell the fruit and produce of the growers of Douglas county. To have a central packing house at Roseburg and branch houses at the smaller towns along the railroad, all under one management working for the interests of the producer. The committee on shares of stock informs us there are only about \$1100 sold, and it is necessary to have at least \$1500 before the corporation can be formed. And it would be much better if it were \$2000 or \$2500. Then a manager could be secured and a packing house built and this year's fruit crop could be handled.

Now then, Mr. Fruitgrower, Farmer and Business Man, whether of Roseburg or other towns in the county, when the committee waits upon you this week and invites you to buy some stock, don't give them the cold shoulder but take at least one share of \$25 a share, or take more and thus help yourself, your neighbors and Douglas county. You don't need to be told how it is going to help you. If we can grow better fruit and get better prices for it, and draw more home-seekers and increase

do with it, how it is going to help you? Well, then, you are aware, no doubt, that Douglas county has become known everywhere as a fruit district, that they have therefore drawn fruit men, home-seekers and investors from every quarter and are still drawing them, and this in spite of the fact that land has advanced in price far beyond the dreams of the pioneers, and that the road poor old Douglas county. And yet can you blame any natural advantage of soil or climate that is superior to that section of old Douglas county? Unprejudiced fruit men tell us we can grow a better quality of fruit than these places, and it is certainly earlier to command the better markets. Then why have these places gone ahead? It is because they have organized. They have organized to produce fruit in spite of surroundings. They have organized to sell that fruit for top prices, and the country is running after it in spite of the price. They have organized to dispose of their by-products, and consequently do not have thousands of bushels of fruit rotting under the trees and on vines and bushes.

How does this affect Douglas county and what has got to do with the Fruitgrowers' Union?

Do you know that last year many of our fruit growers received low prices for their fruit and lost money because they had no organization back of them? And another effort of the same kind is being made which must fail unless there is an organization backing it.

Now then what we need is all to get together and push and lift until we are out of this mire.

It is the purpose of the Fruitgrowers' Union to incorporate under the laws of Oregon and handle and sell the fruit and produce of the growers of Douglas county. To have a central packing house at Roseburg and branch houses at the smaller towns along the railroad, all under one management working for the interests of the producer. The committee on shares of stock informs us there are only about \$1100 sold, and it is necessary to have at least \$1500 before the corporation can be formed. And it would be much better if it were \$2000 or \$2500. Then a manager could be secured and a packing house built and this year's fruit crop could be handled.

Now then, Mr. Fruitgrower, Farmer and Business Man, whether of Roseburg or other towns in the county, when the committee waits upon you this week and invites you to buy some stock, don't give them the cold shoulder but take at least one share of \$25 a share, or take more and thus help yourself, your neighbors and Douglas county. You don't need to be told how it is going to help you. If we can grow better fruit and get better prices for it, and draw more home-seekers and increase

You undoubtedly know that still thousands of people are looking to the Northwest for a home and for a piece of fruit land. And you know that the railroad companies have thrown down the bars and made a wide open case for home-seekers this year more than ever before. Are we going to get our share of desirable citizens and are we going to hold them when we get them here? Not unless we wake up. Mr. Schesser, publicity manager of the Roseburg Commercial Club, and others tell us that among the many inquiries from home-seekers are "Do you have a Fruitgrowers' Association?" "Do you have a canner?" "Are your orchards clean and healthy?" The answer must be "No, we have no association, nor any canner, nor our orchards are not very well inspected or cleaned up." It is that going to induce a man to invest his money? Is that going to bring Douglas county out of the rut and make it progressive and develop as it should?

Do you know that last year many of our fruit growers received low prices for their fruit and lost money because they had no organization back of them? Do you know that much fruit was shipped out of this county that was an injury to the county because of lack of organization? Do you know that the Northwest Fruit Exchange stands ready to accept any fruit but can do nothing unless we organize? Do you know that our golden opportunity to get a canner's shipped through our fingers last fall because we were not organized? And another effort of the same kind is being made which must fail unless there is an organization backing it.

Now then what we need is all to get together and push and lift until we are out of this mire.

the value of your property and your business.

Show that you are interested by coming out to the Fruitgrowers' meeting next Saturday at the Commercial Club rooms and fill the place so full that a larger room will be necessary. If you can't come, send a letter to W. J. Harris, Roseburg, president of the Fruitgrowers' Union, and show your interest and ask for a share of stock. It is your meeting, Mr. Fruitgrower, yours too. Mr. Farmer and Mr. Business Man, get together and push and let all be beautiful. It is up to you whether Douglas county is to hold its own and advance as it should with its natural advantages or stand still, which means go backward.

Yours for progress,
 C. E. QUINN.

CRYING FOR HELP.

Lots of it in Roseburg. But Daily Growing Less.

The kidneys cry for help.

Not an organ in the whole body so delicately constructed.

Not one so important to health.

The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble.

It is the kidneys' cry for help. Heed it.

Don't's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and help the kidneys, help them to do their work, never fail to cure any case of kidney disease.

Read the proof from a Roseburg citizen:

Mrs. C. P. Spencer, 434 N. Rose Street, Roseburg, Ore., says: "While living in Chicago, Ill., I had kidney trouble. I had backache, my head ached, and now I am perfectly cured. This remedy gave me nothing but good results. I feel that I cannot praise it too highly."

For sale by all dealers. Price 25 cents. Foster-McBride Co., Buffalo, New York, sole agents for the United States.

Remember the name—Don't's—and take no other.

LARGEST WATER WHEELS IN WORLD.

Four of them to be installed in Great Power Plant on Spokane River.

SPOKANE, Wash., Feb. 17.—Contracts have been awarded by David L. Williamson, president of the Washington Power Company, of Spokane, to a company in Philadelphia for the construction of four of the largest water wheels in the world. The wheels, which will be about 100 feet in diameter, will be installed at the Great Power Plant on the Spokane River, near the city of Spokane. The wheels will be the largest ever built in the world. The company, which has a large factory in Philadelphia, has been awarded the contract by the Washington Power Company, which is building the Great Power Plant on the Spokane River. The wheels will be the largest ever built in the world. The company, which has a large factory in Philadelphia, has been awarded the contract by the Washington Power Company, which is building the Great Power Plant on the Spokane River. RATS KILL SEVEN DUCKS.
 Albany Herald: Yesterday E. R. Weaver, manager of the Murphy commission house on second street, near Lyon, purchased eight Indian Runner ducks from a farmer residing near this city in Benton county, and when he closed up for the evening placed them in a pen in the rear of the building and went home. What was his surprise when he opened up this morning to find that only one duck remained alive, the other seven having been killed during the night by rats, with which the place is infested. The chickens which have been kept in the same pen have never been molested and it is supposed that the reason the ducks were killed was due to their inability to defend themselves. Anyone lacking practice with a 22-caliber rifle may try their skill on the rats at the commission house.

A Matter of Common Interest.

How to cure a cold is a question in which many are interested just now. Chamberlain's Cough Remedy has won its great reputation and immense sale by its remarkable cure of colds. It can always be depended upon. For sale by all dealers.
