and when we say to prospective homebuilders that "now's the time to build" we are offering you really sound advice. No matter what you have heard about cheaper lumber, take it from us that you're on the safe side if you build right now. We haven't been in the lumber business for 14 years for nothing—we know a thing or two and we're willing to admit that you do, too, but in the face of all this talk nowadays about timber conservation we believe you'll agree that lumber has a fixed value and that by delaying the building of your new home you will gain nothing but inconvenience.

We believe we can convince you the above is sound advice—let's talk it over.

Thirty Years Together.  
 Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there is no guesswork in this evidence of "The Ales, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it is the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it for 40 years. It's the most infallible throat and lung medicine on earth. Unequaled for la grippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by all druggists.
