portion of the United States there
was in 1910 a population of 30,635,
694 or 151 per square mile. France
has a population of 39,252,000, or
189 per square mile. The section of
the United States mentioned has
337,395 miles of roads or 1.76 miles
per square mile, while France has
363,770 miles of roads or 1.75 miles
per square mile. The population in
this country for the area mentioned
is 55.7 per mile of road, and in
France 107.9 per mile of road. The
report says:
"As the mileage of officially clas-
sified roads in France in proportion
to area is approximately the same
as for the territory comprised in the
states named, and as the density of
population in France is somewhat
greater, it is reasonable to suppose
that the northwest section of the
United States has nearly reached its
maximum road mileage. If the other
portions of the United States ulti-
mately reach this density of popula-
tion, we may look forward to an in-
crease in road mileage which, based
upon this comparison, would make
the total length of roads for the
United States aggregate nearly 5,
000,000 miles; but owing to the
large area of mountains and semi-
arid lands included in our total area,
it is extremely improbable that the

country will ever need this great
mileage of roads."
However, an increased mileage is
inevitable and the necessary outlay
of public funds "will require careful
legislation and efficient supervision."

Most Prompt and Effective Cure for Bad Colds.

When you have a bad cold you
want a remedy that will not only give
relief, but effect a prompt and per-
manent cure, a remedy that is pleas-
ant to take, a remedy that contains
nothing injurious. Chamberlain's
Cough Remedy meets all these re-
quirements. It acts on nature's plan,
relieves the lungs, aids expectoration,
opens the secretions and restores the
system to a healthy condition. This
remedy has a world wide sale and
use, and can always be depended upon.

FALLING HAIR.

Many People Have a Simple Way of
Stopping It.

It was Dr. Sangerbond, of Paris,
who first discovered that dandruff
and falling hair were caused by a
microbe.

And now that Parisian Sage, the
remedy that kills dandruff germs is
sold in every town in America, the
clean people of this country have
awakened to the fact that dandruff
is unnecessary; that falling hair and
itching scalp can be quickly stopped,
and that people who use Parisian
Sage will never grow bald.

To every reader of the Review who
wishes to eradicate disgusting dan-
druff, stop falling hair, and have an
immaculately clean scalp, free from
itchiness, we make this offer:
Parisian Sage is sold by druggists
everywhere for 50 cents a large bot-
tle. It is an ideal, daintily perfumed
hair dressing, free from grease and
stickiness, and will cause hair to
grow lustrous and luxuriant. Sold
and guaranteed by the Red Cross
Pharmacy.

Parcel Post Atlas

FREE

Everybody Should Have One.

A complete Parcel Post map, showing instantly the rate of postage under this new system from any point in the United States to any other place in the Union is what everyone is looking for at present.

The Review has just such a map. Better still, it will be given free to subscribers who pay for a year in advance for either the Daily or Twice-a-Week Review.

This map, printed in colors, occupies two pages of a 12-page atlas, the pages being 14 by 18 inches in size, thus giving a U. S. map 18 by 28 inches. A large detailed map of the Panama Canal zone in colors occupies two other pages and a big Parcel Post map of Oregon is another feature. The latter, as well as the U. S. map, is laid off in parcel post units, showing instantly the rate on parcel post packages from any postoffice in the state to any other postoffice in Oregon. To find the rate it is only necessary to measure the distance with a ruler, a stick or a piece of string, on either the Oregon or the U. S. map, on a direct line between the two points desired, and then place this measurement on the "zone" diagram at the foot of the map. There the postage rate per pound will be found in plain figures whatever the distance may be.

In addition to these maps there are several pages of detailed information regarding the new parcel post laws and regulations, explanation of the "zone" system and postage rates, etc. Also full information as to what may be sent by parcel post, as well as other postage rates and classifications. All the important facts relating to the Panama Canal are also included.

These maps are certainly the best we have ever seen, and doubtless are the best yet devised, for showing instantly the parcel post rates between all points in the United States. We are informed that the U. S. maps alone, using this same universal zone unit system, are being sold for 75 cents each.

Following our custom and belief that nothing is too good for Review subscribers, we ordered a quantity of these parcel post atlases by wire, and they have just arrived by express, direct from the manufacturers in the East.

The newest thing out. Something everybody needs. They are Free to Review subscribers who pay a year in advance. Send in your order now and get the benefit. This atlas will save you many trips to the postoffice to ask about parcel post rates and regulations.

GIVEN ABSOLUTELY FREE

with a year paid in advance subscription to either the Daily or Twice-a-Week Review. This applies to either new or old subscribers. We also have other fine premiums and splendid clubbing offers. Address, REVIEW PUBLISHING CO., ROSEBURG, OREGON.
