Keep Away from the Fire Let Electricity take its place

Electricity

Will eventually become the universal cooking agent, particularly in Summer, because heat is applied where it is useful.

The wasted heat from a coal or gas range raises the temperature of the inside house. Electric irons and cooking appliances radiate the least possible heat to the atmosphere.

We are always glad to demonstrate any of our electrical appliances, and invite you to call.

**Few Hot Weather Items of Interest**

1. An Iceless Refrigerator, will prevent butter running.
2. An Ice Cream Freezer, gives you the means of preparing the most palatable and cheapest desert you can have.
3. A "JEWELL" oil stove, by far the best kitchen helper you can have. Most economical of any cooker. Does not over heat you or your rooms. With all a good looker.
4. Hotpoint utilities, such as launder irons, toaster, grill, percolator. Get one now, when it will be of the most use. You pay for current, why not use it?
5. "Vacuum" "Big Three" the best and cheapest, quality considered, of any electric washer. Cost operating not more than an ordinary lamp; but, saves time, saves aches and pain, and makes home happier as all good things should. Look it over anyway.
