## DENTISTS ACTIVE ON FRONT

### Staff of Chicago Physicians Are Lauded by British Officer for Their Humane Manner of Treating the Injured

LONDON, June 23.—By mail.—The horror of the soldier, a shattered face, is being abated at the British army by a set of Chicago physicians in their field hospital near the British front today. Their success is largely due to expert dental surgery.

Col. Dr. J. M. Neff of Chicago, head of this unit of 22 surgeons, Col. Dr. George Davis, of Chicago; Maj. Dr. Sidney McCalish, formerly of Chicago but now of London, and Maj. Dr. Charles Maaks, eye and ear surgeon of Chicago, are daily performing operations on wounded men hitherto unheard of in medical science.

These American surgeons have proved that Napoleon's adage that an army travels on its stomach is old fashioned. An army travels on its teeth. [illegible]

His death was caused by paralysis and it is feared that the epidemic of the disease that has spread over the East is now on the Pacific Coast. Mr. Lillis had been employed in the police department of the city of Portland and was about 33 years of age. The funeral will be held in Portland.

## Protect Your Eyes From the Sun

The glare of the sun on summer days makes us squint and often causes headache. Especially if we have reason to be out-of-doors all the time. For the motorist and vacationist our Auto Goggles are a pleasant relief from the attacks of "Old Sol." Amber glasses are a favorite with many people. We are showing the Noviol, a new glass that cuts off all the ultra-violet rays and is very restful to the eye. We can fit you with these in Crooke's lenses with or without prescription. These different glasses may be had in Auto Goggle style or plain. Smoked glasses, too, in various styles. Play fair with your eyes. Get a pair today.

### DEER ON EXHIBITION.

A game warden called at the East Side Public Market, 287 East Morrison street, yesterday morning to investigate the presence of a live deer there, says the Oregonian. He was advised that the deer was not for sale but merely on exhibition. It was caught in the Cow Creek Canyon, in Southern Oregon, some time ago, and is now as tame as a kitten. No action was taken by the warden.

### PASS CREEK ROAD IS SCORED.

Mr. and Mrs. L. C. Skeels and their son and daughter, of Los Angeles, are in Eugene for a visit with Mr. and Mrs. E. K. Wheeler, Mrs. Wheeler being Mrs. Skeels' sister, says the Eugene Register. They drove through, and assert that the Pass Creek canyon is by far the worst stretch of road on the entire Pacific Highway. In places, Mr. Skeels says, it is almost impassable and rather indifferent corduroy is all that keeps a car from going out of sight. Mr. Skeels was in the grocery business in Eugene a number of years ago, and finds the city much changed.

### PLACER MINE SOLD.

The Laxton placer mine, on upper Williams Creek, owned by the J. T. Laxton heirs, 600 acres of placer ground, and producing for the past 40 years, has been sold to the Pacific Placer Company, a Boston syndicate, says the Glendale News. The new owners plan a merger of the property with 400 acres adjoining and will install modern machinery and employ a full crew.

## Money In Circulation Is Wanted

The easiest way to put money into circulation is by turning raw material into finished products. We have millions of Fir trees which will bring from $5.00 to $25.00 when made into Lumber.

### Thousands of Dollars Paid in a Day

For what? Letting the cows eat grass, turning it into milk, turn milk into cream, cream into butter, butter into dollars, dollars into automobiles, automobiles turn gasoline into power, pleasure. Repeat this illustration with fir logs—result the same.

### One Man Lost a Million

Because he had no cows to eat grass, and was too lazy to milk. Some men have fir timber the same way. Don't let the man who wants to make lumber be persuaded you lack "get up." Keep quiet, and you will get some benefit, anyhow, out of a general prosperity. A louse can suck a fat dog, but not a lean one.
