"First in peace, first in war."  
Oregon, the first state to go "over the top" in the Liberty loan.

# ROSEBURG REVIEW

IT'S AN OLD SAYING  
That "no one lives so far from market as he who has nothing to sell." Raise more produce.

VOL. XLII

ROSEBURG, DOUGLAS COUNTY, OREGON, WEDNESDAY EVENING, AUGUST 21, 1918.

No. 147.

## BRITISH HIT HUNS ON A NEW FRONT

SEVERAL TOWNS TAKEN BY BRITISH FORCES UNDER GEN. BYNNE ON TEN MILE FRONT BETWEEN ARRAS AND ALBERT TODAY.

## FRENCH ALSO TAKE TWO TOWNS

New British Drive Was Made With Tanks, Cavalry and Infantry During Early Morning Fog—Spain Replaces Ships.

By Lowell Mellett.  
WITH THE BRITISH ARMY IN FRANCE, Aug. 21.—General Bynne's army struck the Germans on a ten mile front between Arras and Albert shortly before 5 o'clock this morning, during a heavy fog.

By 9 o'clock the British had captured Moyenville, Courcelles, Bucquoy, Ablainville, Archies-Le-Petit and Beaumont-Sur-Ancre. This attack, which the Germans evidently expected would be launched last week, burst upon them this morning through a confusion of mist lying thickly over the fogged, worn battlefield. While the fog was clinging closely to the ground, the British tanks, cavalry and infantry pushed over and around the German trenches and new entanglements.

The British made good progress before the sun suddenly broke thru the mist at 9 o'clock. As a result of this new drive the Boches have been cleared from most of the points on the side of the high entanglement of the railway between Arras and Albert. A single artillery crash was all that preceded the British advance.

The British had kept their big guns concealed and in readiness for this new drive for several days past. They let loose at 5:20 this morning and the troops swung into action. By 6:10 parts of the old line were passed. Moyenville, where the distance was weak, was captured at 6:50. Prisoners taken there said they had been expecting a British advance for a week past. The British casualties were slight.

Made Satisfactory Progress.  
LONDON, Aug. 21.—General Haldane announced that the British had attacked on a wide front north of the Ancre River this morning. He announced that "satisfactory progress was made."

French Also Made Gains.  
PARIS, Aug. 21.—Today's official communiqué said the French continued to make progress on the whole front between the Oise and the Aisne rivers. Carlepoint and Cuz were both captured last night. These towns are each about five miles from Noyon to the south and southeast. The Germans did not counter attack in either instance.

Red Cross at Vladivostok.  
LONDON, Aug. 21.—American Red Cross units have arrived at Vladivostok from Tokio, bringing 70,000 pounds of hospital supplies and provisions for the use of the allied forces.

Spain Wants Ships Replaced.  
MADRID, Aug. 21.—The ministry of the interior announced today that the Spanish government has sent a note to Germany declaring that Spain will temporarily replace the three submarine sinkings of Spanish vessels from the German ships in Spanish harbors. (About 30 German vessels are so interned.) The ministry denied the rumors that Germany had broken off diplomatic relations with Spain. The ministry said regarding this new note that "this decision is but a natural and obligatory defense of our essential interests. We cannot risk providing further our national dignity and life. We feel assured that Germany will recognize that our decision agrees with loyal neutrality. The final status of these commandered vessels will be settled after peace has been declared."

Salvation Army Fund—  
Everett S. Hammond was here from Salem today in the interest of the coming drive for the Salvation Army fund in this state. Douglas County's quota in this drive is \$1,100, and should be raised without any great effort. Of this fund, 75 per cent is spent at the army camps in Europe and 25 per cent in the work of the Salvation Army in this country.

Letter From Wendell Bell—  
Mr. and Mrs. Wm. Bell this morning received a letter from their son, Lieut. Wendell Bell, who is in the U. S. aviation service at Ft. Worth, Texas. He expects to leave there in about ten days for Hoboken, New Jersey. There he hopes to get a fortnight of a week or ten days before taking on active service again or embarking for Europe. His wife, who is with him, expects to return to Portland from New York with her parents, who motor to return in the summer. They will return in the same manner, making it very interesting to see Lieut. Bell is now classed as an expert aviator. He sent several very interesting photos of his work as a flier.

## BRITISH TANK STEAMER SANK HUN SUBMARINE AFTER RUNNING FIGHT

PHILADELPHIA, Aug. 19.—A German submarine was sunk in a running battle with a British tank steamer last Friday about 300 miles northwest of Nantucket, according to members of the tanker's crew. The oil ship arrived here tonight from Mexico.

When first sighted the U-boat was two miles away, according to the captain of the tanker, who said he immediately opened fire. Two shots from the submarine struck the British ship, one of them passing thru the boiler room and the other thru a tank. Neither of the shells exploded and did no material damage, the captain reported.

Twenty-seven shots were fired by the tank ship, one or more of which her master declared scored clean hits, as flames were seen bursting from the port side of the submarine which he said sank a few minutes later.

Frank Hopkins, deputy sheriff, was down from Canyonville on business today.

## HAYNES AND CORDON ARE CALLED

TWO LOCAL MEN ARE OFFICIALLY NOTIFIED TO REPORT FOR MILITARY DUTY—DR. HAYNES AT PRESIDIO, GUY CORDON TO KENTUCKY.

## DR. F. W. HAYNES HAS DEPARTED

Assessor Cordon Will Leave for Camp Taylor, Kentucky, Next Week—Will Rejoin After Entering Army Service.

Orders were received late last evening by Major F. W. Haynes and Assessor Guy Cordon to report for military duty. Major Haynes was called to the Presidio, San Francisco, at once, and he left on the 3 o'clock train this morning. He will enter service in the U. S. Guards, beginning with the rank of a second lieutenant. This department is for service in the United States only. Hence it is probable that Major Haynes will be assigned to duty as an instructor. With his experience and ability it is very probable that he will rapidly rise in rank.

Before leaving Dr. Haynes surrendered his position as Major of the local battalion of State Guards, and recommended that Captain Percy Walsh be made his successor. This will doubtless be done.

Assessor Cordon was ordered to report at Camp Taylor, Kentucky, leaving Roseburg not later than Thursday, Aug. 29. He is delighted with the opportunity thus afforded for entering active service. After the usual month in quarantine, after entering camp, he expects about three months of active training before going across the seas. He now expects to land "somewhere in France" before Christmas. Upon leaving here he expects to turn the assessor's office over to Barton Hellwell, but probably will not file his formal resignation until after he has passed the usual examinations for entering the military service. When this point is reached, his resignation will be filed and the County Court will doubtless appoint Mr. Hellwell to fill the unexpired term of Mr. Cordon. After his recent course in the military training school at Englewood there is no reason to doubt that Mr. Cordon will be successful in his examinations and will be granted a commission as an officer in the National Army. He deems this call as a real "opportunity of a lifetime," and is anxious to go.

Church Federation—  
A mass meeting will be held at the Presbyterian Church this evening to consider the matter of a federation of the local churches for the duration of the war. It is believed the movement will meet with approval. A large attendance is expected at the meeting this evening.

## WILL HOLD REVIVAL MEETINGS AT CHRISTIAN CHURCH IN OCTOBER

Earl J. Joly the Christian Church voted to extend a call to Rev. Howard Fagan and wife to hold a revival meeting in this church. The Fagans accepted the invitation, and it is expected that they will begin here early in October or soon thereafter, as a definite date has not been absolutely fixed. The Fagans are a most successful evangelistic team, having held meetings all over the Northwest states and California. They are booked for a September meeting in Portland, and it is expected they will come here directly from Portland.

## AMERICA IS DOING A SPLENDID PART

BRITISH AMBASSADOR READING VOICES HIGHEST PRAISE FOR SPLENDID ACHIEVEMENTS DONE SO QUICKLY BY AMERICA IN THE WAR.

## CROWDING NOYON STILL CLOSER

French Drive Has Reached Within a Mile and a Half of Very Important Point in Oise Valley—Trawler is a Raider.

LONDON, Aug. 21.—"America's entry into the war removed all doubts and fears as to a certain victory for the allies, but we never imagined that America could take such a splendid part so quickly," said Ambassador Lord Reading in an address before the Luncheon Club today.

Thirty-two American Divisions.  
WASHINGTON, Aug. 21.—General March announced that there are 32 complete American army divisions now in France. He said that in order to accomplish this remarkable task in so short a time it was necessary to scour the world for ships. To maintain the present progress and achieve the projected 4,000,000 Americans in Europe by next June, will require the gathering of still more shipping.

Will Collect Big War Taxes.  
The new war revenue bill will authorize a billion dollar drive on income and excess profits tax slackers. In order to prevent future tax dodging, Secretary McAdoo has asked Congress for authority to force every person in the country to make an income tax return. Internal Revenue Collector Toper, in addressing the House ways and means committee revealed that these two movements are pending.

Pressing Heavily on Noyon.  
(By John De Gandt).

PARIS, Aug. 21.—The French are outflanking Ourscamps forest and have reached a point near Pontoise, less than four miles to the southeast of Noyon. The town of Noyon is now threatened more from the southeast than from the southwest, the point of the first advance. Pressure is being methodically exerted by the French forces toward both Lassigny and Noyon. General Mangin's army has advanced more than six miles from the south front and has passed Camelin and Blercourt. In yesterday's fighting the French took 8000 prisoners.

Crowding Noyon Still Closer.

LONDON, Aug. 21.—General Mangin's right wing has gained an additional three miles in the Oise Valley, penetrating to within a mile and a half of the town of Noyon. His forces on the right, near Somons, have also advanced slightly. It was stated this afternoon.

Steam Trawler Made Raider.

A CANADIAN PORT, Aug. 21.—The steam trawler Triumph, which was seized by an enemy submarine, is now armed with guns and manned by a German crew of sixteen men. It is now raiding fishing vessels in the North Atlantic, so survivors from some of these vessels arriving here declared. Three schooners have already been destroyed by bombs thrown by the raider. The crews have reached shore.

ENEMY ALIEN IS TAKEN WHILE OUT HUNTING.

Ernest Crane, deputy constable for Melrose, brought Emile Galle, an alien enemy, to this city this afternoon. Galle was caught hunting deer, having already killed two. Alien enemies are not allowed to carry guns or to obtain a hunting license. It is not known how the license was secured. Galle is lodged in the county jail at present, but it is not known just what will be done with him. He may be interned.

Another case is that of Cap Miller, who was caught hunting without a license. Owing to the fact that he had not killed any deer, nothing has been done.

Letters From "Over There"

A number of Roseburg people received letters today from the local boys who are on duty in France. J. E. McClintock received seven letters from his sons. They were just ready to move to another training camp, for a short stay from there they are to go to a "rest camp," which is thought here to mean somewhere very close to the battle front. There it is assumed they will be made accustomed to actual battle sights and scenes before going into regular action. Herbert Quine wrote to his parents, Sheriff and Mrs. George Quine, that he expected to be on the way to the front soon.

Marriage Is Announced—  
Mrs. Mary Fisher, of Edenhower, today received the announcement of the marriage of her daughter, Mabel Gertrude Norton, to John Frederick McQuade, at Everett, Washington, on Saturday, August 19. They will make their home in Seattle. Mrs. McQuade is a sister of Mrs. Oliver Johnson and Mrs. Harry Hoffman, of Roseburg.

## MORE SHIPYARD WORKERS WANTED; LABOR OFFICE TO OPEN EVENINGS

C. H. Bailey, examiner in charge of the U. S. Government Employment Service at Roseburg, announces that on Friday and Saturday of this week his office will be open evenings from 7 to 9 o'clock for the purpose of recruiting mechanics and laborers for the shipyards of Portland and Astoria.

This will be the occasion of the visit of T. J. Conway, examiner for the Portland U. S. Government Employment Service, and R. K. Howard, special representative of the Astoria Marine Iron Works at Astoria, Ore. These men are visiting all of the larger Western Oregon towns, including Medford, Ashland, Grants Pass, Roseburg, Eugene, Albany and Salem.

It is not the purpose of the Government in this new labor drive to take men from essential industries. However, there is urgent need of men at this time in certain departments of ship building. The greatest need is for laborers in Portland yards and mechanics for the installation of machinery in the Government wooden ships launched in the Lower Columbia River district, centering about Astoria. The installation of machinery is vital for the reason that some ninety wood hulls are now tied up in the Columbia River awaiting final equipment. In fact, only one from the scores of wooden ships launched in the Columbia River has yet started on a trial trip at sea.

The time has come when the Government is making special effort toward the speedy final equipment of all these wooden ships, and the greatest need is for mechanics and laborers. The Government will advance transportation direct to the ship yards.

## POSTMASTERS OF 4TH CLASS GET INCREASE IN THEIR SALARIES

An official postal bulletin just received by Postmaster Reizenstein, of this city, announces a substantial increase in the compensation of postmasters of the fourth class all over the country. This consists of allowing such postmasters 100 per cent of the first \$50 of their gross receipts, instead of the same per cent on the first \$50 only.

As at present, fourth class postmasters will continue to receive as compensation 60 per cent of the next \$100 or less of their receipts, 50 per cent of the next \$200 or less, and 40 per cent of the balance.

When the total compensation does not exceed \$50, the postmaster shall receive 20 per cent additional. No fourth class postmaster shall receive compensation in excess of \$250 in any one of the first three quarters of any fiscal year, exclusive of money order commissions, and in the last quarter he will receive the full amount due from the foregoing method of compensation up to a sum that will not bring his total salary for the entire fiscal year above \$1,000.

The new law further provides that no fourth class postoffice shall be advanced to the third class by reason of the "temporary" salary increases. The new salary schedule is effective now, and all fourth class postmasters will receive the benefit of it for the first time in entering their postal accounts for the quarter ending September 30, of this year. Douglas County has 59 postoffices of the fourth class, in addition to seven of the third class and one of the second, the last being Roseburg, the central accounting head of the county.

Congress has enacted a law forbidding any increase in the salaries of postmasters of the first, second and third classes during the war.

May Burn Shastings—

H. O. Fargenter, secretary of the Douglas County Fire Patrol Association, today received a telegram from F. A. Elliott, State Forester, stating that Governor Withycombe had withdrawn the order forbidding the burning of slashings, and that the local organization would now be permitted to issue permits under the usual conditions. The recent fire has obviated the danger of fire spreading at this time.

## N. B. POOLE, AGED RESIDENT OF TILLER VICINITY, DROPPED DEAD THERE

N. B. Poole, an aged resident of the Tiller vicinity, dropped dead near that place last evening. Coroner Hittler went there last night to investigate the case. Mr. Poole was 82 years of age and a native of Iowa, but had been a resident of this county for over 50 years. He is survived by seven sons and one daughter, one daughter being dead. His wife died two years ago, on the 12th of September. Mr. Poole will be buried at Canyonville, but as yet the time is not known. The funeral will be postponed until the children can arrive from California and eastern points.

## WORK OF THE RED CROSS KNITTERS

QUANTITY OF YARN AVAILABLE FOR RED CROSS KNITTING WILL PROBABLY BE LESS THAN LAST YEAR BUT WILL STILL BE LARGE.

## SPEED UP FAMILY ALLOTMENTS

Soldier Allotments to Their Families From Their Monthly Pay Are to be Expedited—The Matter is Explained.

That the millions of Red Cross knitters may know the plans of the Red Cross for future knitting, Geo. E. Scott, acting manager of the American Red Cross, today issued the following statement:

"When the War Industries Board some time ago advised the Red Cross that future production of knitting yarn would be greatly reduced we immediately commenced to purchase all yarns suitable for our knitting. As a result we have today in stock or on order 1,400,000 pounds of yarn for distribution to our chapters. It is hoped that we may obtain some additional yarn from wools unsuitable for Government use. The expected total will, however, be considerably below the ten million pounds used last year. While the total of yarn we can secure is being determined, we are studying how to use our supply to produce only garments which are most essential. When a conclusion is reached we will announce our full program of knitting."

"In addition to this stock of yarn, the Red Cross has ready for distribution 1,600,000 sweaters, 134,000 mufflers, 384,000 wristlets, 228,000 helmets and 1,328,000 pairs of socks, a total of 5,574,000 articles. We are hopeful that these and such additional garments as we shall be able to make will enable us to meet the more urgent requirements of our men during the coming winter. In this connection it will be of interest to the women who have been knitting to know that from September 1, 1917, to June 30, 1918, the Red Cross distributed 3,875,000 knitted garments to the army and navy of the United States. During the same period 870,000 knitted articles were sent to the Red Cross commissioners in France and Italy for distribution to soldiers, sailors and civilians.

"At the request of the War Industries Board, with which the Red Cross works in close co-operation, we have urged chapters and individual workers not to buy wool in the open market but to secure their materials through our department of supplies."

DOUGLAS COUNTY CHAPTER A. R. C. M. F. Rice, Publicity Mgr.

Allotments Speeded Up.

The following detailed statement is issued by the Douglas County Chapter, American Red Cross:

Families of soldiers all over the country have suffered grief because of the delay in receiving allotments. The cause of the delay has been discovered too late to remedy. Now the entire system has been simplified by there being two standard allotments, irrespective of a man's pay. And because these changes may cause some delay and confusion, they are explained in detail.

Part of the work of the Red Cross is to look after the morale of the soldier, and it does this by seeing his family does not suffer. That is the work of the home service section. Therefore, home service sections in Red Cross chapters are undertaking to see that the law is thoroughly explained to families of men in the service and that no family shall suffer for need of money during a lapse in the payments caused by the new arrangement. Any soldier's family or relatives who does not know what arrangements should be made to insure prompt payments under the new regulations, which became effective during August, should call upon the home service section of the Douglas County chapter. The explanation of the law is as follows:

If an allotment man whose pay was \$30 a month was allotted to his wife and children only the amount required by law, there would be no change whatever in the checks that they would receive from the Government. The amount which every enlisted man is required to allot to his wife and children, irrespective of the amount that he is receiving, under the new law is \$15. If he has been contributing more and wishes to continue to do so, he may make a new allotment for the difference through the War Department or the Navy Department. Thus, for example, if he had formerly allotted \$18 to his wife and children and wishes to continue to do so, he must make a new allotment of \$3 through the War or Navy Department, as the War Risk Insurance Bureau in the future will only handle the compulsory allotments. Prompt notice of these facts has been sent to all men in service, but it will of course require a little time for the new forms to be executed and reach Washington.

## HEAD OF WASHINGTON GRANGE, NON-PARTISAN LEAGUE LEADER, HELD

SEATTLE, Wash., Aug. 19.—Charged with violation of the espionage act, William Bonick, of Sedro-Woolley, master of the Washington State Grange, and organizer in the Northwest Non-Partisan League, was arrested Monday at Mount Vernon by a Deputy United States Marshal on a secret indictment returned against him by the Federal grand jury.

The specific charges are that Bonick, in the course of a public address delivered at Bow, Skagit County, on June 12, last, declared that if the war lasted three years more it would cost the United States \$100,000,000,000 and that a mortgage would be placed for years on all the children of the country except those of the rich, that the latter would grab all the Liberty bonds, and that the war would not end until the rich had filled their pockets.

He requested that the filing of a formal plea be deferred. Special Assistant United States Attorney-General Reames assented to counsel's request and Bonick was later released upon furnishing bail in the sum of \$5000.

## CITY TO REPEAL BOND MEASURES

CITY COUNCIL WILL SUBMIT TO VOTERS AT REGULAR ELECTION ON NOVEMBER 5 MEASURES TO REPEAL R. H. BONDING AMENDMENTS.

## WOULD CLEAR CITY RECORDS

Also May Offer Amendment for Assessing Cost Engineering to Adjoining Property in Making Improvements.

A movement to repeal the various dormant bonding amendments voted in this city will be taken up by the city council at a special meeting called for Thursday evening. Measures are being drawn for this purpose by City Attorney L. B. Riddle, to be submitted to the voters at the regular city election on November 5.

It is proposed to submit measures for repealing the railroad bonding amendment to the city charter for building a railroad to Rock Creek. Also one for repealing the amendment for a bond issue of \$500,000 for building a railroad from Roseburg toward Coos Bay. The former is generally known as the Kendall proposition, and the latter was for the purpose of co-operating in a movement for securing the construction of a railroad to the coast.

The former failed to materialize, after a building a railway career, including several battles in the courts. The Coos Bay railroad project would have probably been declared invalid if tried out in court. Hence it is probably best that both be wiped off the city books. Like action will also be taken as to a tentative bond issue voted many years ago for putting in a city water system. This would also be impractical in its present form. As none of these measures would ever come up again in the same form, the present plan is to repeal them and leave the city unburdened.

A measure to amend the charter will probably also be submitted for the purpose of empowering the city to assess engineering costs against property benefited by sewer or street improvements, along with the other costs of such improvements. At present the engineering costs of such work must be paid out of the general fund of the city.

Many men may decide to change the amount of the allotment, and in that case the amount of the check you will receive from the Government might be less than before. In many cases men have made allotments to parents, brothers or sisters through the War Risk Insurance Bureau, but have not requested Government allowance, either because the relatives were not dependent, or although dependent the men in service did not understand that they could get the allowance by requesting it. If the man wishes to continue to get the allotment he must make application for it thru the War or Navy Departments. If he should decide to do so, these relatives will in the future cease to receive any payments whatever. If such a relative should deem himself entitled to the Government allowance by reason of dependency, he can only secure it in the future by asking the man to discontinue his allotment through the War or Navy Departments, and make application to the Bureau of War Risk Insurance, stating that he wishes to make an allotment which will carry allowance with it. It is of the greatest importance that the soldiers and

(Continued on Page 4.)

## COMMUNITY FAIR A GREAT SUCCESS

GREATEST EVENT OF ITS KIND EVER HELD IN THE LOWER EMPIQUA COUNTRY WAS THE COMMUNITY FAIR ON SMITH RIVER.

## THE EXHIBITS WERE SPLENDID

Largest Crowd That Ever Assembled in That Vicinity—Several Very Able Speakers Present—Had Bountiful Dinner.

The community fair excursion to Reedsport, Gardiner, Smith River and Elkton was a decided success and was pronounced one of the most delightful trips ever enjoyed by many of the participants who were in attendance from this city. A number of the members of the party returned here last night for a day's rest before proceeding to other towns where they will hold the community fairs. Those who enjoyed the excursion to the coast points were County Supt. O. C. Brown and wife, Mrs. Jennie Kemp, field agent of the Federal Food Administration; Mrs. A. C. Marsters, representative for the Women's Defense League; C. J. Hurd, County Agricultural Agent; County Fruit Inspector Earl Pearey and wife; W. L. Kaddery, assistant leader of county agents, from Canyonville; Prof. Peterson, of Corvallis, emergency club leader; Supervisor and Mrs. A. E. Street, and L. P. Harrington, field worker for the state educational department, Salem.

A number of the party made the trip to Scottsburg by automobile, while some went by rail and joined the party at Gardiner. The auto parties reached Scottsburg Sunday afternoon, where they were met by a boat and enjoyed the twenty mile trip to a Gardiner. Early Monday morning the company began their trip up Smith River to York's landing, about 12 miles above Reedsport, where the community fair was held. The trip was made in a private launch, the Gasco, piloted by Ed. Patterson. The trip was pronounced truly wonderful. The combination of an incomparable day, the smooth, gently flowing river and the lovely scenery along the river bank so completely captivated the excursionists.

Great preparations had been made for the community fair. Large hand bills had been printed and distributed about the country, and red and white and blue ribbons had been prepared for awarding to the prize winning exhibits. Free transportation was provided for all who wished to attend, and seats were on hand to convey the livestock exhibits to the location of the fair. The landing was crowded with boats of all descriptions, and for a quarter of a mile on either side of the landing the bank was lined with boats and sews and barges at anchorage. The crowd which turned out was absolutely the largest ever seen in that community, the fair being the most important event of its kind ever held in that vicinity. The people came from all parts of upper Smith River and the lower Emiqua. The fair was held in a beautiful natural grove of spruce and maples. A large open air pavilion, which had previously been used for dancing, accommodated the speakers. The main speaker for the morning's program was L. P. Harrington, who spoke on "The History and Purposes of Club Work." The afternoon speaker of note was Mrs. Jennie Kemp, who gave a patriotic address on food conservation, full of pathos and humor and stirring appeals. Mrs. Kemp is undoubtedly one of the most noted speakers of the state.

Other members of the party who made short addresses were: J. C. Hurd, whose subject was "Care and Feeding of Livestock," Earl Pearey, who spoke on "The Development of the Home Orchard," W. L. Kaddery, on the county agents' work in assisting the winning of the great world war; Mrs. Brown and Mr. Street, who spoke on industrial club work; and Supt. O. C. Brown, who also spoke on industrial club activities. Mr. Brown had entire charge of the speaking program, acting as chairman throughout the day.

At noon a bountiful repast was served, and although following strictly the Hoover rules throughout, was simply unsurpassed. The delicacies were of such great variety and quantity that a lunch was afterwards prepared from the left-overs for the members of the excursion to take upon their return journey to Elkton.

The afternoon's program was prepared by Miss Esther Medley, teacher of district No. 63, and given by her pupils. She was assisted by the Misses Fern Scott, Vera Tipton, Marguerite Brookhart and Helen Shaffer, all teachers in that vicinity. This afternoon program was as follows: Song, "America"—By all. Recitation, "Little Boy Blue"—Alton Noel. Recitation, "When Some Fellow's Daddy Kills Some Other Fellow's" (Continued on page 4.)
