MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, Mother! If coated, or your child is listless, cross, feverish, had breath, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipated poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." (Adv.)

STOP Being Robbed Of Your Cream Profits

CREAM waste is costing thousands of American dairy farmers *$20.00 per cow per year!* Out-of-date and inefficient cream separation methods (such as the gravity system) is actually robbing them of this much profit per cow.

Swedish dairy farmers have stopped all cream waste. Their farming conditions have compelled them to do so. Their demand for perfect, wasteless cream separation has produced the closest-skimming, easiest-running machine in world—the *Viking*.

We want to show you how to

Get All The Cream With A VIKING CREAM SEPARATOR

the most [illegible] in the world [illegible] *A Lifetime!*
