OAKLAND AND VICINITY

(From Oakland Tribune)

The young people of the Oakland schools presented their play, "The Matchmaker," at Coles Valley school house last Saturday evening to a large and appreciative audience.

Oakland's six-day Chautauqua dates with the Ellison-White system have been definitely fixed for May 29-30-31 and June 1-2-3, according to letters received here this week from the Portland office. A carload of seven Ford cars, one runabout and six touring cars, were received and unloaded here for distribution last Thursday, being the first of a number of carloads which these gentlemen expect to dispose of here during the present season. The same high business capacity for which these gentlemen have the reputation will be applied to the conduct of their automobile sales, while Leas & Son offer skill in their line of the service not equalled anywhere on the coast. The Ford company has done well to place its interests in this section in the hands of the men who are to look after their business for northern Douglas.

The members of the Oakland National Farm Loan Association had a pleasant surprise recently. They were out looking for any dividend on their stock in the Federal Land bank at Spokane, as the bank was a new institution and was not expected to pay dividends for some time to come. So when several of the members were notified of their credit they wrote to know what it meant. The bank paid a dividend of 1/4 of 1 per cent per month, which is surely a very fine starter. All the members of the association are not speak too highly of the treatment they are receiving from the government. The system is surely a fine thing for the farmer, and no other proposition or loan compared with it for development, convenience in payment, and abundance of time.
