North Bend Homes May Be Raided
MARSHFIELD, April 2.—Some of the residents of North Bend are very much worried for fear that their cellars will be raided by revenue men in search of liquor. It is said that some who happened to have wet goods left over from the times when Oregon was not so arid as now, have managed to smuggle them out of their storage places in the houses and concealed the bottled goods in places of greater safety.

Tri-State Debate Date Is Fixed
MISSOULA, Mont. April 3.—A triangular debate between teams representing the Universities of Montana, Idaho and Utah will take place on Friday, April 16, it is announced at the state university here. The question will be, "Resolved, That congress should enact a compulsory arbitration law for settling labor disputes that are connected with public utilities."

According to the story it seems that some person or persons in North Bend took it upon themselves to notify the prohibition officers at the headquarters that North Bend people had supplies of liquor on hand. It is said that the officers were furnished with a list of names of those who more than likely had supplies in the cellars of their houses.

Officers have come to Coos Bay. Two federal men assisted in a raid a few days ago when two men were captured for making moonshine. The list which it is claimed was furnished the officers is said to have contained the names of some prominent men. It is reported that some of those who have supplies of a high quality, such as has almost been forgotten ever existed are greatly worried because they might be seized and it appears that the warning has come out sufficiently in time to allow the happy possessors to seek another hiding place for their valuable holdings.

DESTROYER IS DAMAGED.
HONOLULU, April 3.—The United States destroyer Saucy arrived here yesterday in convoy with a hole in the stern, having been rammed by another destroyer en route from San Diego.

Girls Are Natural Born "Fibbers"

LONDON—(By Mail).—The feminine of "liar" is "fibber."
That's why women are better liars than men.
It sounds paradoxical, but Canon Peter Green says it is so. He was addressing the Liverpool police court on juvenile crime.
"A criminal boy," he said, "is silly. A criminal girl is worse. There is nothing to equal a girl who has got it the right track. Bad boys tell lies which can be spotted, but girls lie connectedly, circumstantially, and in a most interesting and probable manner, which takes infinite knowledge and wisdom to discover. The crimes of boy offenders convince me that their offenses are the outcome not of badness, but silliness and imbecility."
Canon Green ascribes this difference between boy perverters and girls of the same ilk, to the gentler criticism meted out to the frail sex.
"If a boy at school is found out in a deception he is proclaimed a liar, and boys are trained from early days to despise liars. The term is deemed too harsh for feminine offenders, and the most that are ever found out in a 'fib.' Girls will continue to fib light-heartedly, with never a blush when they are found out. This becomes a habit. And girls fib so efficiently that before long they are convinced of the truth of their own untruths and will add to a story with limitless imagination, never once regarding the yarn, until it reaches a perfectly plausible and possible finish."

U. OF W. WILL BUILD MEMORIAL STADIUM

SEATTLE, April 3.—Graduates of the University of Washington are campaigning to raise \$500,000 for the construction of Washington field, a memorial stadium planned for the university campus here.
The stadium is to be built in units. According to the present plans the first unit will be completed in time for the Washington-Farmouth football game November 27. When the stadium is completed, it will seat 79,000 people.
H. M. Sheerer, a Washington graduate, who submitted the prize-winning name, "Washington Field" in a recent contest, has turned his prize check of \$100 back to the stadium fund in return for two stadium seats.

OLD ARTESIAN WELL GETS ALL "HOT" UP

MILES CITY, Mont. April 2.—Residents of this city are astonished over the unseasonable behavior of an old artesian well, a landmark in the city.

Waste Oil Will Kill Mosquitoes

LIVINGSTON, Mont. April 3.—Waste oil from the garages of this city is to be put to work around the town, according to plans of Dr. S. E. Leard, local health officer. The waste oil, gathered in utensils placed in the garages, will be distributed in sections of the city where pools of stagnant water exist and in other places where it is suspected mosquitoes are bred. The oil also will be used in fighting flies during the summer and in burning the dead bodies of horses and other animals where such is necessary.

WILSON TRANSMITS REPORT.

WASHINGTON, April 3.—President Wilson today transmitted to the senate the report of the American commission headed by Major General Horburt, which investigated conditions in Armenia. The commission made no recommendation relative to the United States, but the report contained extensive plans for such action. The inhabitants, the commission stated, desire America to take the initiative first, with Britain second choice. No mandate should be taken, the report said, without a formal agreement with France and Great Britain and also the definite approval of Germany and Russia.
