Less Than a Nickel a Week

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government).

The average American family is 4 1/2 persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than 1/4 cent per pound on all products including meat.

This averages for the family less than the price of—
1 cigar per week for father, or
1 street car fare per week for mother, or
1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.
