RADICALISM IN EUROPE.

Radicalism in power breeds, first,  
more extreme radicalism, and then  
reaction, remarks one writing of  
conditions in Europe. This was true  
in Russia, where the moderate so-  
cialism of Kerensky was quickly suc-  
ceeded by the radical socialism of  
Lenine and Trotsky. Once the peo-  
ple put their faith in the mere pro-  
grams of politicians, without respect  
to the appeal the schemes make to  
sober common sense, power quickly  
passes from the hands of those who  
promise and deliver less to those of  
leaders who promise more. In Ger-  
many moderate socialism is giving  
way to more radical socialism, to  
communism, to syndicalism. This  
in turn will be succeeded by even  
more radical schemes of govern-  
ment, or non-government. Back of  
it all, in Germany, as in Russia, will  
be that which supports all forms of  
autocracy whether that of the  
dynasty or that of the class—the  
bayonet. Ultimately all these  
schemes of class and group govern-  
ment will fail, despite the free use  
of force in terrorism. Probably the  
dictatorship of some strong military  
despot, ruling in his own proper  
person, will come with the next tur-  
n of the kaleidoscope. The United  
States present the one feasible form  
of free government, the representa-  
tive republic. It is unfortunate  
that at such a time as this in world  
history, when institutions elsewhere  
are falling and new governmental  
structures are being erected, Amer-  
ica did not have leadership which  
believes in this form of government  
rather than in the European con-  
ception of "democracy." The Amer-  
ican principle of government would  
have brought unity and federation  
to Europe. The continuance of the  
European system of multiplied na-  
tionalities, based upon racial and  
dynastic hatreds, and of the per-  
petuation of class and class, will  
keep Europe in chaos, which is one  
very good reason why this country  
should hesitate to risk the perman-  
ency of our form of government in  
any general scheme for perpetuating  
and safeguarding the existing Eu-  
ropean system.

THE SERVICE OF POLITICIANS.

Political campaigns do not run  
themselves. An enormous amount  
of preliminary organization must be  
done. Some systems of settled pol-  
icy, some definitely accredited list  
of candidates, must be presented to  
the voters, otherwise action will not  
be taken along definite and practi-  
cal lines. Suppose no one laid any  
plans or framed any program in ad-  
vance of primaries and elections.  
The voters would come to the polls  
without any conception of what can-  
didates stood for, and what they  
would do if they were elected. The  
people would vote blindly and un-  
intelligently, many irresponsible and  
incompetent officials would be  
chosen. There would be no well de-  
fined programs of policy to work on.  
Everything would run hit or miss.  
The public feels irritated at control  
by rings and bosses, and the body  
of politicians big and little. Yet the  
class of people known as politicians,  
are not fools. They are patriotic  
and honest as the average man. They  
are no doubt seeking their own in-  
terest. Yet they realize that they  
can not advance in public favor, un-

less they provide a fairly decent ad-  
ministration of public affairs. So  
while the politicians are often short-  
sighted and time serving, yet they  
preserve a minimum standard of  
fitness in candidates who are alto-  
gether unfit to hold the office they  
aspire to. The public element is re-  
sponsive to the voice of the people.  
If the public make it clearly manifest  
that they want a thing done, the poli-  
ticians tumble over each other in their  
eagerness to accomplish it. Then  
they all claim to have originated it,  
though commonly the idea starts  
from an entirely different type of  
mind.

Good publicity work with the  
modern touch not merely is an amaz-  
ing booster for any store, but it  
helps the whole community where  
the store is located. It gives the  
outlying country the idea that a  
town is full of life, and is in touch  
with the enterprising business spirit  
of these bustling days. The business  
men of Roseburg as a general thing  
write excellent specimens of adver-  
tising. If they ever fall short of  
the mark, the trouble is lack of time  
rather than ability.

The big New York dailies, owing  
to the scarcity of print paper, have  
been reduced to eight pages, a re-  
markable improvement compared to their re-  
cent condition. The switchmen's  
strike has interrupted freight ser-  
vice and a regular news print famine  
is the result. New York papers de-  
pend entirely on a day to day sup-  
ply of paper and the situation is  
critical.

Give a woman the choice between  
caring for a sick man and a yelling  
baby and she'll choose the baby  
every time.

Since the disappearance of hock-  
beer, fresh air has taken its rightful  
place as a spring tonic.

City Has Chance  
To Buy Hangars

Aviation landing fields will soon  
be as common and well advertised  
by the patrons of the air as auto  
camp grounds. The Chamber of  
Commerce is in receipt of a letter  
from Portland stating that a car-  
load of "T" shaped canvas hangars  
is going to be sent to the Pacific  
coast for sale. These hangars are  
sufficiently large to accommodate the  
De Havilland planes which are the  
type used by the government for  
forest patrol work. They cost ap-  
proximately, at the present price of  
canvas and material, \$1200 each.  
And the chamber is advised that the  
city of Portland is purchasing six of  
them for their municipal landing  
field at that city. The hangars are  
25 feet wide, 25 feet in length, 16  
feet high in front and slope to 12  
feet in the rear, and are made of  
12-ounce canvas. Two hangars can  
be purchased by the city of Rose-  
burg for \$400 if an order is placed immediately.  
And then the question—Why do we  
need an aviation field?—The time is  
practically here when the owners of  
private flying machines will demand a  
place to land and those towns hav-  
ing landing fields which are charted  
will seek some tourist dollars from  
the air routes and receive consider-  
able publicity all over the country.

Bible School  
Convention Soon

The program of the county Sunday  
school convention has been com-  
pleted. The county convention meets  
here next Thursday and Friday, be-  
ginning at 2 o'clock Thursday af-  
ternoon, and will meet in the Epis-  
talian church. There will be four Sun-  
day school specialists in attendance,  
Harold Humbert, international  
secretary; W. L. VanNays, of  
Portland, Pres. state secretary; Mrs.  
Clara G. Eason, state secretary of  
the Christian Bible schools, and Joe  
Host, of Ashland, southern Oregon  
field worker. This convention will  
be of interest to all county Sunday  
school workers.

Frank Norton in City—  
Frank Norton, Sutherlin employ-  
man, spent the day in Roseburg at-  
tending to business matters.

Born, to Mr. and Mrs. K. L. Shirley,  
of Roseburg apartments, on Thurs-  
day April 15, 1920, a girl.

IN POLITICAL CIRCLES

Press Comments on Qualifica-  
tions of Candidates in Race  
for Honors at the  
Primary Election.

Formidable Candidate.  
Oakland Tribune: Another form-  
idable candidate for the office of  
county commissioner has entered the  
lists this week, R. W. Long, a well  
known and prosperous resident of  
that section, having announced his  
 candidacy for the democratic nomi-  
nation last Monday. Mr. Long is  
a mighty good timber for the office he  
seeks, and that he will give any op-  
ponent a hot race is generally con-  
fided. The coming political cam-  
paign promises to develop some in-  
teresting contests, and it behooves  
every voter to get out and boost for  
the man who is his choice for the  
county commission.

Mighty Popular Official.  
County Judge Stewart was look-  
ing after county business in this  
section the first of the week. Judge  
Stewart is proving himself an ag-  
gressive and competent as well as a  
popular official, and he is trying to  
faithfully fill a position in county  
affairs in which one is liable to get  
more than one's share of criticism  
and censure. The man who can fill  
the position of county judge of Dou-  
glas county and keep a sweet temper,  
must be a pretty good sport. So  
far the judge has not given away to  
poets or profanity over affairs con-  
nected with his office—so far as the  
Mail editor has been able to deter-  
mine.—Myrtle Creek Mail.

Has Many Friends.  
The Sutherlin Sun in announcing  
A. E. Shiria, a well known resident  
of that city, as a candidate on the  
republican ticket for the office of  
representative has the following to  
say: Mr. Shiria has a legion of  
friends throughout Douglas county  
who will be glad of this opportunity  
to express their friendship by vot-  
ing for him on May 21.

Making a Sacrifice.  
Hon. A. F. Storms has decided to  
become a candidate for county com-  
missioner in the coming republican  
primary at no small loss to his per-  
sonal business interests and does  
so only with the feeling that as a  
member of the county court he can  
serve the people of the county. That  
he would meet the problems con-  
fronting the administration of our  
county with farseeing and capable  
business talents of the highest or-  
der is well known.—Sutherlin Sun.

A Relentless Prosecutor.  
George Neuner, our present dis-  
trict attorney, has his announcement  
for re-nomination in this issue of  
the Mail. George has been a vigorous  
and relentless prosecutor, and while  
the job is not one that has a man  
many bouquets, he has nevertheless  
served the people well and faith-  
fully. Like the rest of the race, he  
has doubtless made mistakes, but in  
the main he has made Douglas county  
an unpopular place for crooks  
and lawbreakers and has kept faith  
with the taxpayers.—Myrtle Creek  
Mail.

Capable Man.  
Noble Andrews, one of the candi-  
dates for the republican nomination  
for representative in the legislature  
for this county, visited Oakland the  
latter part of the week in the in-  
terest of his campaign, says the Oak-  
land Tribune. Mr. Andrews is a  
reputable man, with a splendid  
reputation in this county, and would  
ably represent the interests of the  
people if nominated and elected. He  
is a prominent Old Fellow and a con-  
scientious Christian man, and has  
for many years been a minister of  
the gospel, although is at present  
engaged in farming near Myrtle  
Creek.

To Dilhard—  
Miss Alvira Lewis left last night  
for Dilhard, where she will spend  
the week end visiting with relatives.

Fine Progress In  
Near East Relief

The business men's teams brought  
in an additional \$72 yesterday from  
contributions in the business sec-  
tion, bringing the total of contribu-  
tions from this district to about  
\$620. Individual contributions con-  
tinue to come in at a very satisfac-  
tory rate.

Mrs. Libburn, county chairman,  
states that the women's teams for a  
canvass of the residence district have  
been secured and they will start out  
on their work early Monday morn-  
ing.

S. S. Bruce, field secretary of the  
Near East relief, yesterday addressed  
five assemblies at the Rose, Benson  
and Fullerton schools, and returned  
enthusiastic over the interest shown  
by the students. He goes today to  
Glendale to assist in organizing that  
community for its part in the cam-  
paign.

Mrs. O. C. Brown addressed a  
meeting at Green last night. Mrs.  
Brown and A. E. Street report the  
teachers throughout the county tak-  
ing a very active interest in promot-  
ing the relief campaign through the  
proprietary of the school geography  
lessons several history and geography  
sessions to their classes relating to  
Armenia, thus taking the present ap-  
portunity to vitalize these studies and  
at the same time help the cause of  
relieving the sufferings of that stricken  
section of the world. Contributions from  
the schools will be received next Tues-  
day.

Roseburg high school pupils are  
co-operating very energetically on  
the campaign. A large number of  
the girls have offered their services  
as volunteers for selling tags. Work-  
ers have been posted today at strate-  
gic points in the city.

The boys of the sophomore class  
whose numerals "22" have occupied  
the space on Mt. Nebo during the  
greater part of the present school  
year, have erased the figures and  
are preparing to do a little publicity  
work in the interest of the Near East  
relief campaign. Townspeople who  
for years past have seen only high  
school numerals on the time-honored  
spot are watching with interest to  
see what the new symbol will be.

A group of young people has ar-  
ranged to give a dance next week  
the proceeds to go to the Near East  
relief under the name of the Young  
People's Help to the Armenians.

Unique Sermon  
Last Evening

A most unique sermon was pre-  
sented last night at the Christian  
church by Evangelist Cross. The  
sermon was presented from a chart  
that set forth the railroads, side-  
tracks, yards, derrailments and all  
phases of the life. A number of  
railroad men heard the sermon, and  
the house was filled with listeners.  
Mr. Cross having been a fireman,  
and having done other work on the  
road, understands the matter. The  
railroad men have greatly enjoyed  
him. Mrs. Cross sang the song that  
had been dedicated to railroad men,  
and it also was much appreciated.  
Tonight the sermon will be on,  
"Heart Throbs Around the Cross."  
Sunday morning, "Life's Discover-  
ies." Sunday night, "Seven Church  
Facts." Plans are well laid for a  
great men's meeting Sunday after-  
noon. The orders have been invited.  
Mr. Cross was for a long time chap-  
lain of one of the largest Elk lodges  
of the south, and is also a Mason of  
high degree. He is speaking Sun-  
day afternoon on "The Third De-  
gree Man." He is a man's man, and  
men greatly enjoy him. He is a  
fine speaker, and has a way of pre-  
sented things that grip one. The  
meetings continue through the com-  
ing week, and will likely close Sun-  
day, April 25.

RECEIVES OFFER.  
Rev. C. H. Hilton, pastor of the  
local Christian church, this morning  
received an excellent offer from a  
Boise, Idaho, church to take charge  
of the work at that place. Since  
coming to Roseburg Rev. Hilton has  
received a number of flattering of-  
fers but so far has declined to ac-  
cept. This offer, however, is one of  
the best he has received and he is  
as yet undetermined whether or not  
he will accept.

Saint George's Church, corner Main  
and Cass streets. The Rev. H. R.  
White, vicar.—The Sunday services  
will be as follows: 8, Holy Commu-  
nion; 9:45, church school; 11:00,  
Holy Communion. The sermon at  
eleven o'clock will be on "The  
Church—Its History." This will be  
the first of four sermons of The  
Church. We are glad to have any  
attend the services. Those who de-  
sire to know the church's position on  
various questions are especially in-  
vited to be present.

DAILY WEATHER REPORT.

U. S. Weather Bureau, local office,

The After Effects  
of Pneumonia

This is No. 2 of a series of advertisements, prepared by a com-  
petent physician, explaining how certain diseases which attack  
the air passages—such as Pneumonia, Influenza, Whooping  
Cough, Measles or even a long continued Cold—often leave  
these organs in an inflamed, congested state, thus affording a  
favorable foothold for invading germs. And how Vick's Vapo-  
Rub may be of value in this condition.

Pneumonia attacks the air cells  
of the lungs. An inflammation  
is set up and matter is thrown  
off which causes the air cells to  
solidify, thus preventing the  
natural flow of blood thru the  
lungs. This "backing up" of  
the blood causes the heart to  
pump harder, just as stepping on  
a hose increases the water pres-  
sure, which is the reason why,  
during this disease, the physician  
watches the overburdened heart  
so carefully.

After recovery the lungs are  
filled with a mass of wreckage—  
the debris of the battle—which  
must be gotten rid of by a process  
known as resolution. Frequently,  
inflamed spots remain, congestion  
persists, cough hangs on, and the  
least exposure brings on a cold  
that is hard to get rid of. If  
neglected, such damaged air pas-  
sages may easily develop serious  
disease of the lungs.

Such cases should always con-  
tinue under a physician's care  
and frequent examinations should  
be made to see that nature is
