

# How much should I give to make this a better world?

**A CERTAIN** man in New York filled out his income tax report. It showed an income so large that his tax was 53%. *And his total gifts to church and charity for the year were \$148.*

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

United Financial Campaign

April 25th to May 2nd

## The INTERCHURCH World Movement of North America

The publication of this advertisement is made possible through the cooperation of thirty denominations.

### DAILY WEATHER REPORT.

 Arndel, piano tuner, Phone 115-L.

### LEFT ON DOOR STEPS.

**MYRTLE POINT, Ore., April 23.**—All Myrtle Point is today talking over a "mystery baby" who was left on the steps of Dr. Pemberton's hospital the night before last. The baby, a boy of a few hours old, was in a suitcase, coddled in and is a husky lad. Yesterday a home was found for him and he is being well cared for and cooling away oblivious to being the center of the town's gossip.

**On Advisory Board.**—A. C. Marsters, of the Roseburg National bank, has been appointed on the advisory board for this county of the M. E. church campaign for the rebuilding of Waller hall, the construction of Lausanne hall and other improvements at Willamette university.

## Sugar Crop Will Total Large

(By Associated Press)  
**MANILA, P. I., April 1.**—(By Mail)—The sugar crop of 1919-1920 in the Philippine islands, now being harvested, aggregates 225,000 tons for export, and between 75,000 and 100,000 tons for home consumption, according to figures compiled by chambers of commerce, and manufacturers and exporters.

Centrifugal sugar, 96 per cent pure, forms only a small percentage of the production of the islands; the bulk of the sugar produced being muscavados, in which a large percentage of molasses remains after being produced by the open boiler process.

Out of the 225,000 tons estimated available for export this year, 150,000 tons are centrifugals and 75,000 muscavados. Practically none of the latter variety is exported to the United States, China and Japan taking the most of it.

Growers and manufacturers, however, predict that within a short time the ratio of centrifugals to muscavados will be reversed, by reason of the modern methods of manufacture being introduced.

There are at present twenty sugar centrals in operation in the Philippines, and eight others are under construction or are planned for immediate development.

The labor problem is becoming serious, according to producers and manufacturers. Many of the natives have left the island. Some have gone to the Alaska fish canneries, others have taken up a seafaring life, while a number have migrated to the Hawaiian sugar fields.

The tractor has replaced the carabao in some localities. Producers and manufacturers assert that double the present output could be cared for if a supply of common labor could be obtained to plant and harvest the cane.

Efforts are being made to induce the government to render assistance along the line of more intensive cultivation of the soil. According to statistics, the yield per acre has been stationary for many years, as little more than three quarters of a ton, while in some cane producing countries five tons an acre are obtained.

In the island of Formosa under Japanese methods of intensive cultivation, a yield of one and a half tons an acre is obtained, and growers claim that the soil and climatic conditions there are inferior to those in the Philippines.

While figures on local consumption of sugar are not given as exact, various authorities place the quantity at between 15 and 20 pounds per capita a year, as against a consumption of about 30 pounds per capita in the United States.

"The introduction of 50,000 Chinese into the sugar industry of the Philippines, would, through the application of more intensive methods of agriculture, which are not possible under existing conditions, double the present sugar production from the area at present under cultivation for cane," said George H. Fairchild, a large exporter, in a review of the sugar situation, published in the April Bulletin of the Philippine Chamber of Commerce.

## Contractor Here to Look Over Plans

Contractor Carl Stebbinger arrived in Roseburg today to look over the grounds for the prune packing plant to be erected by the Oregon Growers' association on their present holdings. Mr. Stebbinger will attempt to secure the contract which will be let about the first of May.

The association in building these packing plants is using plans which will permit additions when the growth of the business will warrant. They are stock plans, the plants at various places being identical except in regard to size. The structures are built 70 by 80 feet in size and 12 by 80 foot additions can be added whenever necessary.

The local plant will have a concrete base and the first story will be of concrete. The two additional stories will be of wood. The building is so designed that it can carry a great deal of weight and repairs and replacements can be easily made when needed.

Mr. Stebbinger has built several buildings in this vicinity, among them being the federal building and the soldiers' home hospital. He and his brother have the contract on the government bridge on the Canyonville-Galesville section of the Pacific highway and will start work there May 1. This bridge is to be built entirely of concrete and is quite difficult of construction. A force of workmen will be on the grounds in a few days and the material will be at hand ready to start operations. It is expected that the bridge will be completed and opened for travel in approximately 60 days.

## Revival Service Reaches Close

The revival meeting which has been going on at the Christian church for the past four weeks closed last night with a wonderful service. Every service of the day was a great one. The Bible school again passed the 200 mark, and the morning service brought a full house with five responding to the invitation. In the afternoon there was a beautiful and touching service for mothers. A carnation was presented to each mother present, and all others had a bouquet. The sermon and the song were both touching. One daughter responded to the gospel invitation. At the closing service last night the house was packed to its capacity, and another responded to the call. At the close of the service the pastor baptized eight more. Sixty-two came forward during the meeting. At an after meeting a band of 30 tithers was organized. Mr. and Mrs. Cross have won many friends here for themselves, and for the great cause they represent. They proved to be good workers. The congregation of the Christian church is having plans for a forward movement.

## Green Scribe Finds Some News

Evergreen Grange held a very interesting meeting Saturday evening and several new members were enrolled. Those who joined the Grange were Mr. and Mrs. Joe Claypool, Mr. and Mrs. John Claypool, Claude McCulloch. The lecturer had an excellent program prepared for the evening's entertainment which was enjoyed by all present. A delightful luncheon was served at the close of the session and all went home feeling that the evening was well spent.

Mrs. Sarah Webb arrived in Roseburg last Sunday and went to Green to spend a couple of months' vacation with friends.

Leslie Weatherford, aged about 24 years, died at the family home after a short illness. The funeral services were held Monday and interment followed in the Civil Bend cemetery.

The Green district road is getting to be quite a thoroughfare and with

## Marine In League Of Nations Class

**TULSA, Okla., April 26.**—This puzzle in nationality has the marines guessing.

Louis C. Minette, accepted for enlistment in the U. S. Marine Corps here today, said that his mother was an American who married a Frenchman in Italy. He was born on a ship flying the French colors while lying in the English channel. At the age of five his parents died in Sweden, and he was adopted by a German who brought him to the United States. His adopted father is not a naturalized citizen.

"Would you class him as 'The Man Without a Country,'" the recruiting sergeant was asked.

"Man without a country nothing," said the sergeant. "I'd class him as a League of Nations."

### WRECK SUNDAY.

A derailed car attached to a southbound freight held up traffic south of this city for about three hours yesterday. The derailment occurred about seven miles north of Glendale at 11 o'clock in the morning and it was 3 o'clock in the afternoon before the line was opened.

## THIS NURSE ADVISES

**Women Who Are Ill To Take Lydia E. Pinkham's Vegetable Compound.**

East Rochester, N. Y.—"I have used Lydia E. Pinkham's Vegetable Compound for several years and think it fine. I am a practical nurse and when I get run down and nervous I take the Vegetable Compound. I also have trouble with my bladder when I am on my feet and Lydia E. Pinkham's Sanative Wash relieves that. I have recommended your medicine to several young ladies who have all benefited by it."—Mrs. Agnes L. Bellows, 306 Lincoln Rd., East Rochester, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

Write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Women only open, read and answer such letters.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull tired feeling—a sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 25c.

## THE RUITER SANITARIUM

(Incorporated)  
 Our improved facilities are being appreciated, so that even now desired entrance should be arranged for several days in advance. Dr. Rويتر is the house physician and is prepared to answer any call made upon him. Phone 313. 327 West Douglas street.  
 DR. V. L. RUITER, Medical Director
