## Senator Harding Leading Gen. Wood

**By Associated Press**  
COLUMBUS, April 28.—Late returns today from yesterday's primary in Ohio, with 582 precincts lacking, showed Senator Harding leading General Wood by over 12,000 votes. Additional returns late today indicated that 288 and possibly 40 out of 43 delegates to the republican national convention would be pledged to Harding on first choice.

## Not Responsible For Accident

Ray Lee, who was arrested yesterday charged with having been responsible for an accident at Canyonville, was released last night after his innocence had been proven. It was shown that he did not force the buggy in which Mrs. Milt Dabell was riding from the road and that he was in no way responsible for the accident.

## CARLOAD OF STUDEN-BAKERS ARRIVED TODAY

The long expected carload of Studebaker cars which has been anxiously awaited by C. O. Thomas, of the Studebaker-Overland garage, arrived in this city at noon today and will be unloaded by Mr. Thomas tomorrow. The car contained five automobiles of this popular make, and Mr. Thomas counts himself extremely lucky to secure them at this time when all dealers are experiencing the difficulty of obtaining sufficient cars. They will be on display at his showroom on Cass St.

## CARD OF THANKS.

We hereby express our sincere thanks to the many friends who offered assistance and consolation in the recent illness and death of our little son, and also our appreciation for the many floral offerings.

## NOTICE TO PROPERTY OWNERS.

To avoid the fly nuisance in the city, I would ask that all manure be hauled out and lime sprinkled on the ground. The marshal will visit all stables and barns in ten days and enforce this measure.

W. S. HAMILTON, Mayor.

## BUYING SHOES

Buying shoes now-a-days is an investment. To make it a good investment you must have three things. First, you must have style—the style you want. You will find it in our store, whether you prefer English, medium toe, or wide toe, we have it. Next, you must have quality, the quality that makes a shoe wear and keep its shape. Our shoes all have that quality. Last, and most important of all your shoes must fit. Every shoe you buy in our store has the wearing, lasting quality that gives you the value of your money, when fitted as we fit shoes. No matter whether the shoes cost \$6.00 or \$10.00 we give you a \$16.00 fit. And if you have any trouble with your feet our trained shoe men will relieve that for you with

## EX-SOLDIERS DO WELL AT COLLEGE

Investigation Show Former Service Men See Need of Good Education.

## EXCELLENT WORK DONE

Although Women Make Fewer Failures, Statistics Show That Men Set High Records in the Large Colleges.

"How are the former soldiers doing at college?" is a question asked and answered in a recent publication of the United States bureau of education, department of the interior. Summarizing returns to an inquiry made by one of the church boards of education, the bureau finds that as a rule "the returned soldier has fallen into his old stride and is doing work about the same as before entering the service."

One college president reported that his ex-soldier students had not done very well, and that they were restless and found it hard to concentrate on their work. This same answer was received from another institution where 16 ex-service men had registered at the beginning of the school year. Two of these had withdrawn. The rest did not do as well as hoped because of unrest due to decisions as to the future they wanted to follow and the resulting quandary as to what preparation they should make.

Albion College, however, reported that the majority of ex-service men had done excellent work, especially those who had been in college before entering the service. A number of other institutions reported their returned men doing work above the average. The report from Missouri Wesleyan college was that these men were doing far above what they did previous to the war, the grades indicating that the work of the service men is of a very high order. The 9 per cent of students receiving all "A" grades were all ex-service men. There were very few failures among the returned men at this college, showing that they realized the benefit of an education and the importance of hard, diligent work.

The majority of schools did not succumb to either success or failure of ex-service men in the first semester's work, but on the whole the men were reported as having rapidly readjusted themselves to their work.

**More Surviving Examinations.**  
In answer to a question as to how the student body survived the mid-year examinations, the majority of colleges reported an improvement in the average of previous years. As usual, failures in individual courses were greater in number than failures such as to exclude the student from continuing.

The percentage of complete failures was variously reported from 2 to 6 per cent. One school reported financial reasons and reasons other than scholarship as causing a loss of 42 students; whereas scholarship caused a loss of only 17. Of the first number six were seniors who had graduated.

At the University of Chattanooga the mid-year examinations showed the lowest per cent of freshman mortality in the history of the university. This was attributed to a bulletin published at the end of each 30-day quiz period with the names and scholarship averages of the first 10 in each of the college classes. This stimulated a great deal of profitable rivalry. It is said:

**Women Averaged Higher.**  
When asked to compare the grades received by men and by women the almost universal answer was that the grades of women averaged higher. These statements were qualified in some cases by supplementary explanations.

Chancellor Buchheit, of the University of Denver, calls attention to the fact that women as a rule do not earn their living, and that on the other hand a great number of men earn their living in whole or in part. Montana Wesleyan reports just compiled from work of the first semester show that there are few failures among the women, and that as a whole a better grade of work is done by them. The men average in having some of their number attain a high rank. In the college department 95 per cent of the women passed in all their subjects. The men showed 85 per cent with no failures while 7 per cent failed completely. The other 13 per cent failed in some subjects and passed in others. In statistics "A" grades the men surpassed the women. Nine per cent of the men received all "A" grades, a record not made by any of the women.

First Straw Hat Appears—Along with the appearance of the first rose comes the straw hat which appeared on the streets today supported by Dr. Brunfield, probably the first wearer of the Panamanian product. This is straw hat weather, no doubt, and they will probably form a combination surpassing the overall epidemic within a few days time.

Studebaker Man Here—E. L. Smith, state sales manager of the Studebaker Automobile Co. for Oregon, arrived in this city last night from Portland where he maintains headquarters, and spent the day here attending to business matters and conferring with local Studebaker agent, C. O. Thomas. Mr. Smith is making a regular trip over the territory, and will continue on to Southern Oregon. He stated this morning that the car load of Studebaker assigned to Mr. Thomas would arrive here within a short time as they had been shipped some time ago.

## Manure Piles to Go Says Mayor

Manure piles and other fly breeders in the city must be discontinued at once, according to an edict issued today by Mayor Hamilton, who states that Chief of Police Dave Shambrook will visit all stables within the next ten days and will see that the manure has been removed and the ground deodorized. This campaign has been instituted in the interest of a flyless town and will be followed by other campaigns tending to abate the nuisance.

## Priscilla and John Assisted

PORTLAND April 28.—If Priscilla had not made her famous remark to John Alden, the Pacific coast would have lacked one of its leading colleges, as genealogical chart just published by Reed college shows that Amanda Reed, the founder, is a direct descendant of Priscilla and John Alden. Had the demure New England maid failed to say, "Why don't you speak for yourself, John?" Portland would never have had Reed college.

Coming to Portland from Quincy, Mass., in pioneer days, Simeon Reed started the line of steamboats on the Columbia river, which later became the Oregon Railroad and Navigation Co. When he died he suggested that his wife use his fortune for some institution of value to the citizens of Portland. In 1904 Mrs. Reed died, leaving her entire fortune of several millions for the founding of Reed college.

## Wood Has Lead Over Hi Johnson

**By Associated Press**  
NEWARK, April 28.—In 1145 districts, with 166 missing, Leonard Wood is leading Hiram Johnson with a plurality of 533 votes.  
NEWARK, April 28.—Although 1893 out of 2025 election districts gave Wood a lead of 648, the result of the preferential primary and the alignment of the state's 28 delegates appeared still in doubt late today.  
NEW YORK, April 28.—General Leonard Wood is still leading Senator Hiram Johnson this afternoon in New Jersey's primary contest. The Californian took the lead early last night, losing it later. He gained this morning but General Wood also gained some votes. Wood had a lead of 533 votes at 1 o'clock today.

## Griggs Says No More For Him

**By Associated Press**  
COLUMBUS, Ohio, April 28.—The Valley of Ten Thousand Smokes near Kodiak, Alaska, will see no more of its discoverer, Robert F. Griggs, professor of botany, Ohio State University. Prof. Griggs, who describes the valley as "hell, scathing hell, with the lid off," says five trips to this desolate country atop the earth is enough and that he is "fed up on it." During the coming summer Prof. Griggs expects to complete his book describing this valley of mystery and the eruption of Mt. Katmai nearby.
