ABUSE and neglect will give any battery the "K. O." in short order, but it takes care and attention to keep it O. K. Charge must be kept up as near as possible to 1.280 mark—water must be put in to make up for loss by evaporation—connections must be kept tight and clean. If you want to keep your battery in the O. K. class all the time be sure to drive in every two weeks for inspection and test.
