Fisher's

FLOUR

for every purpose

Costs More Per Sack Costs Less Per Loaf

This trade phrase which we have adopted tells, in a nutshell, why the housewife should buy BLEND FLOUR.

It may cost you a few cents more per sack because it costs us just that much more to produce.

It costs you less per loaf because actual baking tests, scientifically made, demonstrate that it bakes more and larger loaves of better bread to the given amount than other flours.

Made of choicest Eastern Hard Wheat and the choicest of States BLEND is a perfect flour for every purpose-as good for cakes and pastry as for bread.

Big Tourist Season Looms

Tourist travel, which at the pres-ent time is quite brisk, appears to be chiefly in a northerly direction. A large number of the tourists spent the winter in California and are now on their way home to different places in the northwest. However not all on their way home to different places in the northwest. However not all of the travel is in that direction as a great many tourists are going south, also. Garage and service men are expecting a great deal of bandwork this spring and are laying in supplies. The democratic convention in San Francisco in June is capacian to attract a large number from Washington and the northern part of Oregun, and at least a portion of those going to that meeting will travel by auto. During the last part of May there will also be the caravan from Seattle to Stockton and that will stop for a night in Boseburg, over 100 cars being expected. These events together with a larger tourist travel than ever before means a season of prosperity for the garage men and will doubtless be a big benefit to the merchants and all other residents of the city. hig benefit to the merchants and all other residents of the city.

C E. Convention At Myrtle Creek

The Douglas County Christian Endeavor convention will be held at Myrtle Creek on Tuesday, May 4, and it is expected that it will be one of it is expected that it will be one of the best county conventions held for several years. C. C. Whoohwho, field representative of the Christian En-deavor World, a publication dealing with the affairs of the organization, will be present and will be one of the principal speakers. A good pro-gram is being arranged and the an-nual election of officers will be held Miss Florence Kohlhagen now helds the position of president, and Miss Eva Lenox is secretary and treas-urer. Delegates will attend from cokland. Sutherlin and Roseburg.

Electric Juice To Provide Jag

SAN FRANCISCO, April 30. SAN FRANCISCO, April 20.— Possibility of producing all the symptoms of alcoholic intexication on electric "juice" attracted a good deal of interest here when Dr. Albert Abrams of San Francisco demon-

Abrams of San Francisco demon-strated to medical men the use of an electrical device he has invented. The "electronic jag" discovery was purely incidental, Dr. Abrams said. "The discovery," he said, "is based on the theory that the unit of energy in the electron and that every ma-terial thus is simply a manifestation. in the electron and that every ma-terial thing is simply a manifestation of different types of vibration. I have used the vibrations of chloro-form to produce the effects of chloro-form itself."

The feet of the subject are placed The feet of the subject are placed on a sheet of zinc, an electrode is placed upon the kead, and, when the current is turned on, one newspaper writer said: "John Barleycorn is with you again. The 'kick' comes slowly and without any appreciation of the fact on the part of the subject with be finds himself unduly." ject until be finds himself unduly loquacious, happy or sleepy."

Road Conditions Are Improving

Yacht Regatta

At Erie In July

TOLEDO, Ohio, April 20.—The Interlake Yachting association made a radical departure at its annul meeting at Vermillion, O., when the members voted to hold the 1920 respective at Erie, Pa. The dates are July 11 to 17. For the past several years the regratta has been held at Put-in-Bay island.

The dates were set a week earlier than usual to permit yachtinan to take part in the International challenge races off New York the following week.

Tourists passing through Roseburg present time to be in fairly good condition. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough, is made to be in fairly good condition. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough, is made to be in fairly good condition. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough, is made to be in fairly good condition. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough, is made to be in fairly good condition. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough. Is also the property of the canyon road near Canyonville and the red clay hills north of Oakland. Cars, however, are coming through without assistance and are making good time. Only a few bad spote without assistance and are making that the reads are in fine to be in fairly good condition. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough. Smith hill, over which autoes have been towed practically all spring, is now dry and although rough with hill, over which autoes hav road passable and the stage expents to go through to Myrtle Point short-ly after the first of the month.

Lives In Glass Box For Six Days

CAMBRIDGE, England, April 12.—(By Mail)—Joseph Barcoft, a reader of physiology at King's college here, has lived for six days in a hermetically sealed glass box. The experiment arose out of a 20-year-old controversy as to whether it is possible to calculate the amount of oxygen in the blood from a knowledge of the amount of oxygen in the blood from a knowledge of the amount of oxygen in the blood from a knowledge of the amount of oxygen in the blood from a knowledge of the amount of oxygen in the breath. The test was also made to demonstrate whether it is possible to calculate the amount of oxygen in the breath. The test was also made to demonstrate whether it was necessary that airmen should have oxygen apparatus when flying at great heights. It proved that oxygen was necessary to thying men but it did not show to what height while in the box Barcoft kept a record of his sensations and made scientific observations. He said he saidered from sleeplessness but otherwise did not exteriors much

by physicians for over eighteen years, and proved safe by millions of people.

For a few cents you can get a handy tin box of genuine "Bayer Tablets of Aspirin," containing twelve tablets. Druggists also sell larger "Hayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylloacid.

morning.

ENEMY OF WORBLIES

ENEMY OF WORBLES.

"I still get letters from 'em." said ban Cloud, editor of the Montosano (Wash.) Vidette, as he chatted with friends resterday in the lobby of the Multnomah hotel, en route home from a business trip to Riddle. 'Yes indeed, I am remembered by the 'wolblies,' and every now and then some one it 'em writes to tell me that both I and my paper should be suppressed.' Time was when the Centralia murders were causing costic comment in the Washington press and later during the I. W. W. trial at Montesano, that the radical missives to Dan Cloud threatened complete suppression, such as death in unpleasant ways. Whereupon, having perused such a communication—always unleighed—Dan use to fill up his brier again and write another editorial to flay the thick hide of the enemy. Some of Dan's editorials adrieved unexpected circulation during the I. W. W. trial, when the attorney for the defense read them into record during the examination of veniremen. Montesano's friendly and capable editor is a former city newspaperman who sought health and recreation in a country city newspaperman who sought health and recreation in a country town.—Portland Oregonian.

Consecration is not wrapping one's self in a holy web in the sanctuary; it is going into the world and using every power for God's glory.—Henry Ward Beecher.
