

Cause Precedes Effect

NOTHING happens without reason. Even the high cost of living can be analyzed and be found to have solid foundation. Thoughtless use of money is one of the big contributing factors in which the public at large has been wholly at fault. An account here at the Umpqua Valley Bank is a solution to even that problem, for it makes one think TWICE before spending or investing blindly.

Take a look at those baskets in our windows, Churchill Hdw. Co. The Presbyterian Missionary Society will meet with Mrs. F. A. Bemis on Fowler street. Members are asked to bring a short clipping of missionary news, either home or foreign field, attached to the stem.

REPORT WITHOUT BASIS.

SALTEM, Ore., June 8.—Reports that have gone out from Salem that it would not be surprising if Governor Olcott requested the resignation of Robert A. Booth or Simon Benson, or possibly both, in the interest of harmony among the members of the state highway commission, are without foundation. This was made plain to day by Governor Olcott, who said he had not given the minor personal differences of Mr. Benson and Mr. Booth any thought.

Reports of friction between Mr. Booth and Mr. Benson at a recent meeting of the highway commission were brought to the capital by James S. Stewart, ex-representative from Wheeler county and now a resident of Corvallis.

Since it was rumored that the two men had clashed and that the removal of one of the men would not be a surprise to friends of the governor, several applications for the office are said to have reached Salem.

BABIES ARE NUMEROUS.

LOS ANGELES, Calif., June 9.—People believe they can afford more babies now than a year ago, according to physicians and psychologists, who are endeavoring to explain the large increase in births in Los Angeles.

Figures for April, 1920, just made public, show that 577 babies were born in Los Angeles in that month, as against 714 in April 1919, an increase of 163. Of those born in April last year, a few months after the signing of the armistice, 371, or more than half, were boys. Of those born in April, 1920, fewer than half, 412, were boys.

"Why is it? Part of the general prosperity, I guess," Dr. Roy H. Johnson said. "People can afford them and the American people are bound to have what they can afford."

CANNING SEASON STARTS.

ENGENE, Or., June 8.—Canning activities for the 1920 season have begun at the big plant of the Eugene Fruit Growers' association. Gooseberries are being canned at the present time and it is expected that early cherries will begin coming in about June 20, according to O. N. Kaldor, assistant manager of the association.
