

Legislate Against the Profiteer.

THAT has been the hue and cry so long that it is time the matter were viewed from another angle. It is our opinion that so long as the people continue to buy and invest indiscriminately, high living costs will appear as the wolf at the door. Regulate profiteering by regulating your own use of money. An Umpqua Valley Bank Account is some little regulator.

ROSEBURG OREGON

Left for California—

Mrs. Sam McConnell and son, Sam Junior, left last night for San Francisco where they will join Mr. McConnell, who is employed by the Southern Pacific and who is stationed there for a short time. They will return to this city together later in the summer. They were accom-

panied as far as Sacramento by Carl Henry Faulkner, son of Mrs. Ella Faulkner of this city, who will spend the summer at the W. R. Faulkner home.

To Visit Mother—

Mrs. H. H. Laird and children left this morning for Portland, where Mrs. Laird will visit with her mother.

Reproduces All Tonal Beauties

STILL the very latest and most advanced in phonographs is The Brunswick. This remarkable instrument has attracted nation-wide attention. Chiefly because of the Brunswick Method of Reproduction. This new development brings finer tone for every record, whatever make. No other instrument has these advanced ideas.

Now Brunswick Records

We bring now as a further contribution to the phonographic art our own make of records. We include all the fine standards of today, yet add what we consider a vast improvement. And this we know will be the verdict of the public.

This is the secret—each Brunswick Record is interpreted by a noted director or an accomplished artist technically trained in the art of recording. Thus we unite the talent of the artist with the genius of the composer.

We feel sure that you will recognize the betterment brought out by this idea. We want you to judge Brunswick Records by those same severe tests with which people have judged Brunswick Phonographs. And that is by comparison.

Remember—Brunswick Records will play on any phonograph with steel or fibre records.

Just Hear The Brunswick and Be Convinced
