## Ford Car Stolen From Near House

A Ford car belonging to the Uhlig Electric company was stolen last night from in front of Mr. Uhlig's home on South Main street. With the car went a couple of ladders and a large kit of electrical worker's tools, which were quite valuable. Mr. Uhlig and Mr. Love returned yesterday evening from Sutherlin after completing a job there and instead of putting the car in the garage left it standing in the driveway. This morning it was not to be found. The matter was reported to the officers and a search is being made for the auto. It is believed that it will be found near the city, as the tank was only partially filled with gas.

this country would be curtailed considerably.

Many Going to Oakland.—Quite a large crowd of baseball fans are planning on motoring to Oakland tomorrow to witness the batfist between the Oakland and Canyonville teams. The teams were scheduled to play here but were not successful in securing the local grounds for an exhibition.

Dance Well Attended.—The Sutherlin dance was well attended by parties from Roseburg and Oakland as well as the residents of that city last night. A large truck load of young people journeyed to the dance from here and report a most enjoyable time. Ott's orchestra from this city furnished the excellent music for the occasion.

Reports Business Rushing.—County Clerk Ed. Lenox reports the marriage license business quite rushing this month and says that the "bride month" of June is coming up to all expectations. Hardly a day passes but what several licenses are issued and the high cost of living seems to have little if any effect on those contemplating a journey on the matrimonial seas.

A large crew of wreckers were employed on the job and the force was augmented considerably by roundhouse employes.

They see the senator quite often and state that he is of the likable sort. Newspaper clippings accompanied the letter showing the senator's popularity in the capital city.

Fine Window Display.—The Uhlig Electric store today has one of the finest window displays ever witnessed in Roseburg. One window is latticed with strips of vari-colored sere paper with two openings to form windows. On looking through the openings a dainty dining room will meet the eye and a table all set with every kind of electrical appliance occupies the foreground. The scene is a most inviting one and the firm can be credited with a clever window dresser.

Oregon has 16,000,000 acres of tillable land now uncultivated. Oregon produced 20,400,000 bushels of wheat in 1919.

If Oregon's 16,000,000 acres of tillable but uncultivated land were planted in wheat and the yield were the Oregon average for ten years—21.9 bushels per acre—new production would be 350,400,000 bushels which, at the price today of \$3 per bushel, would mean a cash value of \$1,051,200,000.

The Oregon State Chamber of Commerce expects to double the number of farmers in three years. If this means double the wheat crop, it will mean an additional yield of 20,400,000 bushels of wheat, which at the prevailing price would mean a cash value in new money of \$61,200,000.
