

The Difference Between Saving and Spending.

The purchasing power of a dollar has decreased at least 60% below normal standards. In other words 100 cents cash obtains what would ordinarily be 60 cents in merchandise.

By depositing your dollars at the Umpqua Valley Bank until the normal purchasing power returns would net you 100% profit, wouldn't it?

Run on Cherries Started Today

The A. Rupert cannery was today put in operation to take care of a light run of cherries. The early cherries are beginning to come in and within a few days it is expected that the full force will be required to handle the fruit. The Rupert cannery is continuing the use of the old plant on Mill street and will probably put up all of their fruit there this year. It is hoped to have the warehouse completed by the time the fruit is ready to store, as it may be several weeks before the pack can be moved on account of the shortage of cars.

CARD OF THANKS.

To the kind friends who assisted during the illness and burial of our late husband and father and for their many acts of kindness in our sad bereavement we wish in this manner to express our deepest appreciation.

MRS. A. C. KIDD AND FAMILY.

Mr. and Mrs. John Alexander were in from Glendale today.

Degree work will be a feature at the regular meeting of Philatelic Lodge, I. O. O. F., tonight. Some visitors from the Sutherland lodge are also expected to be present.

Cannery Workman Scalded Today

Ray Gilbert, machinist at the cannery, was quite badly scalded this morning when a hoist rope broke, allowing a load of cans to fall into a vat of boiling water. Gilbert was lowering the cans into the water to sterilize them and as he was doing so the rope broke, allowing the mass of cans to fall into the vat, splashing boiling water over the workman. He was rushed to the office of Dr. Shoemaker, where he was given medical treatment. He was burned about the face and hands and will be forced to remain away from his work for some time until the injuries are healed.

W. G. Woodward, son of the pioneer harness maker of this city, is greeting old acquaintances here for a couple of days. He last visited Roseburg several years ago and finds but few familiar scenes at the present time.

Edward A. Sherman of Utah has been selected to succeed Albert F. Potter as associate forester of the forest service. Mr. Sherman has been assistant forester in charge of the branch of lands in the forest service since 1915.

Hardly the Word.
"Now 'virtuosity' is a good word and in excellent repute," said the head reader to the "enb" reporter, "but you must be careful how you use it."

"Yes, sir."
"While it may be properly applied to a fiddler I would not, as you have done in this review of a vaudeville show, speak of a trapeze performer's 'virtuosity.'"—Birmingham Age-Herald.

Many believe all this.
It is unlikely to drop a tear on a letter from a friend. If you blot your paper and send it away in that condition it will find the recipient in poor health. You are sure to witness a fight if you misdate a letter. Should your letter cross in the mails one coming from your sweetheart it will cross out love. It is a bad sign to receive an unsent communication, though the postboys do not say just what will happen in that event. Just contenting themselves with the expression "bad sign" and leaving you to worry as to what it may bring. Should you get a letter with the stamp upside down you will make a mistake about money that very day "as ever was."

If you want to hurt from some one write him a long letter with a pen, telling him everything that is weighing on your mind, then tear it up and burn the fragments. At that instant he will begin to think of you and know no more until he has written to you. When an address is upside down it means bad luck.—Exchanges.
