

# Maurice Browne Players at Chautauqua

Will Present Charles Kenyon's Powerful Drama "Kindling"

Coming as a feature attraction for Chautauqua audiences this year in the South and West is the production of "Kindling," by the Maurice Browne players. This powerful drama written by Charles Kenyon, made a record-breaking success in New York by running two years. It is one of the plays of recent years that seems destined to live. It reaches deep into the hearts of people everywhere and leaves a profound impression. The problem raised is age-old and one that must be faced and solved.

The Maurice Browne players is a company of finished artists, headed by Moroni Olsen and Janet Young and coached by the eminent playwright, Maurice Browne of New York, one of the pioneers of the Little Theater movement in America. With his wife, Ellen Van Volkenburg, he was founder and codirector from 1912 to 1918 of the Chicago Little Theater, which in the words of Clayton Hamilton, "made a name for itself that is known throughout the English-speaking world."

## Brougner Is On Baptist's Board

BUFFALO, N. Y., June 29.—The late submitted to the Northern Baptist convention by the nominating committee, and headed by Ernest I. Tustin, of Philadelphia, was elected, the tellers reported today. Rev. J. W. Brougner, of Los Angeles, was elected one of the thirteen members of the executive committee. Opposition to Mr. Brougner developed because of his attitude on the question of marriage and divorce. He performed the marriage ceremony of Douglas Fairbanks and Mary Pickford and on account of this act and subsequent utterances on the subject a certain element sought to replace him on the committee slate by nominating the Rev. James A. Francis, of Los Angeles.

## Yoncalla Water Service to Stop

The Public Service commission has granted permission to J. P. Daugherty, of Yoncalla, to discontinue his business of supplying water to a number of residents of that place. Mr. Daugherty has been supplying about 20 patrons at Yoncalla with water from several wells, the water being pumped by engines into storage reservoirs. He holds no franchise for his mains, and as he could obtain no contract and was unable to make a profit on his business, he recently filed application to cease business as a public utility. Most of the residents of the town have private wells and the commission has instructed Mr. Daugherty to continue in business for sixty days, in order to give those not having wells an opportunity to provide water for themselves.

## COLIN DYMENT NOW DEAN.

EUGENE, June 29.—Colin W. Dymont, member of the faculty of the University of Oregon, who during the past year has been executive secretary for the University of Oregon's extension center in Portland, is the new dean of the college of literature, science and the arts of the University of Oregon, succeeding Dean John Straub who voluntarily resigned this year to give his full time to the deanship of men. Professor Dymont is a newspaper man having for years held executive positions on several large journals in the northwest. He was also professor of journalism at the University of Oregon, head of the department of journalism at the University of Washington before the war, and at the outbreak of the war

## To Be Married at Silverton Tonight

At Silverton tonight, Miss Paul Patrick, of this city, will become the wife of Millard Meredith, also of this city. The wedding is to be performed at the home of the bride's parents, who have been residing at Silverton for the past two years. The bride is a graduate of the Roseburg High School, and for some time past has been employed in the office of Dr. B. R. Shoemaker. She is the daughter of Mr. and Mrs. C. B. Patrick of this city, and is quite popular locally. Mr. Meredith is also a graduate of the Roseburg High School and served overseas in the recent war, having been a member of the local National Guard company. He was one of the successful ex-service men in the recent land drawing, and has a very good homestead where they expect eventually to make their home.

## PORTLAND MAN SAYS HE IS NOW FEELING ALTOGETHER DIFFERENT

"When I began taking Tanlac I had gone down to one hundred and twenty-two pounds in weight, but now I tip the scales at one hundred and thirty five and am still gaining," was the statement made recently by J. C. Sumner of 553 Market St., Portland, Ore., a well known employee of the Simmons Salvage Co. "I had been a sufferer from stomach trouble, disordered kidneys, backache, sleeplessness and a general run down condition for the past three years," Mr. Sumner continued. "I had little or no appetite and what I ate soured and started gas to forming which would bloat me up tight as a drum. Every morning my mouth would be as bitter as gall. My kidneys bothered me a great deal and I had such terrible pains across the small of my back that I could hardly get up or down. My liver seemed to be sluggish and I would get so dizzy at times that black spots would come before my eyes. I could never get a good night's rest and many a time I would be in such pain that I wouldn't get over an hour's sleep. I lost about twenty pounds in weight and was so weak it was hard for me to do my work."

"I tried everything I knew of but nothing ever did me any good until good until I began taking Tanlac, and by the time I had finished taking four bottles, I was feeling like a different man altogether. Indigestion is a thing of the past and it makes no difference what I eat I am never troubled in any way afterwards. My liver and kidneys are in splendid condition and the pains across my back have disappeared entirely. I have not had a dizzy spell since I commenced taking Tanlac and I am sleeping like a log at night. My entire system has been built up and I am stronger and healthier than I have been in years. I am recommending Tanlac to all my friends and I think so much of it I want to stop and tell everybody I meet about it."

Tanlac is sold in Roseburg by W. F. Chapman, and by the leading druggists in every town.

The rollers of a sectional roller for farming operations that has been constructed at the Colorado agricultural college were cast from concrete in this metal rims. Machines have been developed by the United States bureau of Standards to test airplane landing cords for strains and materials for covering planes for wind pressures.

## Republican Nomin. e Makes First Speech

WASHINGTON, June 29.—The nation "requires no council of foreign powers to point the way of American duty," Senator Harding, republican nominee for president, declared in his first campaign speech today. He urged the preservation of Americanism as the first and the highest endeavor of all citizens of the Republic.

The candidate's first utterance of the campaign was heard by no audience today, being made for a phonograph record to be used throughout the campaign. A copy of the senator's address was made public at his office and with it a speech made last week by Governor Coolidge, of Massachusetts, the party's vice-presidential nominee, for a similar purpose.

Senator Harding chose "Americanism" as his subject, while Governor Coolidge spoke on law and order. America, Mr. Harding said, does not mean to hold aloof, chooses no isolation and shuns no duty, but he continued, "we arrogate to ourselves the keeping of the American continent and every concept of our moral obligation." The presidential candidate added that "it is very practical to make sure our own house is in perfect order before we attempt the miracle of world-stabilization."

In urging maintenance of law and order, Governor Coolidge defined the need of America as a "broader, deeper, deeper faith in the people a faith that men desire to do right, that the government is founded upon a righteousness which will endure."

Czechoslovakia was the only country in Europe last year that produced more sugar than it needed for home use and was able to export a surplus.

### PROBLEMS OF THE RECONSTRUCTION ERA

Discussed at Chautauqua by Chamberlayne of New York.

Carlton Chamberlayne, associate editor of one of New York's big dailies, is coming to talk to Chautauqua audiences on the second afternoon on the problems of reconstruction days. Chamberlayne is known as one of the most progressive thinkers and forward

looking men of the country. He is the type of man needed today to help "steady the boat." He has a wide and comprehensive grasp of conditions, is an eloquent speaker and a constructive builder through and through.

The AUTO ELECTRIC STATION welcomes your patronage in their new location at Oak and Pine Streets. Drive in for Service. Phone 136 **Willard** STORAGE BATTERY Paul E. Nygren

## PILGRIM BLOOD, PILGRIM IDEALS

Judge Alden Inherits Traits of Forefathers.

A direct descendant of Priscilla and John Alden, Judge George D. Alden, who comes to Chautauqua on the fourth night, has inherited just the traits we would expect to find in him. He is a clean cut, high minded man with deep convictions. He was for

merly Judge of the Supreme Court of Massachusetts until he left the bench to enter the lecture field, and in the few years he has been upon the platform he has attained a position of the highest prominence among American lecturers. He has a keen mind, a heart to feel the world's needs and the spirit of a Crusader to pound home his convictions.

A screw fastener patented by an Australian for wool bale bands enables the bales to be made tighter and permits the use of narrow bands, saving steel.

## CARRIED PHOTOGRAPHS.

The Martin bomber plane which shortly after noon was carrying photographs of the democratic national convention taken at the opening session. These pictures were consigned to the newspapers in Portland, Tacoma and Seattle. At the time the plane was ditched from San Francisco to the northwest another ship was sent to Salt Lake where it met an east bound train and delivered convention photos for use in eastern publications.

## DIVE INTO CANYON MADE.

PORTLAND, June 29.—A. W. Richardson, president of a chiropractic college in San Francisco, his wife and two nephews, in his car, narrowly escaped death while on their way here to attend the session of the American Association of Chiropractic Physicians at Vancouver, Wash. The machine left the road south of Roseburg and plunged down the precipitous wall of Cow creek canyon. Richardson hung on to the

## OPPORTUNITY IS WORKING OVERTIME

"Opportunity hasn't missed a working day since the Garden of Eden was laid out in building lots." So wrote a popular writer six years ago. But that was before the war.

Today—opportunity is not only putting in a full day's work, between sun-up and sun-down, but it is working overtime. The country has never been so prosperous.

Take advertising, for instance. There's opportunity right here in these pages—for the men who sell.

—for the men and women who buy.

Don't miss the advertisements. They are guide posts to better buying. They will save you money.
