

### Ex-Pugilist at Antlers Tonight

Joseph M. Javental, better known as Tommy Ryan, ex-middleweight champion from 1910 to 1915, will appear tonight at the Antlers theatre in a vaudeville performance consisting of five acts. Tommy Ryan was one of the leading battlers of his time, retired undefeated in 1915, following the precedent of champions of that time who if undefeated after seven years retired from the ring. After leaving the ring Ryan served as a trainer for James Corbett and James Jeffries while they held the heavyweight championship and in his

performance tonight uses the same punching bag that he used at that time. After Jeffries' retirement Ryan accepted a position as athletic trainer for the late Theodore Roosevelt, and during the past few years has been in vaudeville. He will put on several acts of bag punching, weight lifting, etc., and in connection will give a lecture on clean living. Although 72 years of age, he is in perfect physical condition and will tell you how this has been achieved. There will be only one program, starting at 8:30. An admission price of 25 cents for children and 50 cents for adults, including tax, will be charged.

### Profiteering to be Fought With Unions

NEW YORK, July 19.—Profiteering in the Women's Garment Industry will be fought with union owned shops, factories and stores by the International Ladies' Garment Workers Union. This became known here today when officials of the union announced that it has a committee at work laying out the foundation for the first group of union owned factories, which are expected to be in operation by next spring. These factories are to be established, according to Benjamin Schlesinger, International president, to demonstrate that the workers can be paid first class wages, work less hours and enjoy better working conditions than they are now getting, and reap a "reasonable profit" from their product and still sell it at considerably under the regular market price. The union proposes to sell its output direct to the consumer through their own stores. The first group of six factories will be established in New York, together with a number of union stores, the union officials said, and others will be located in Chicago and Philadelphia. Ample funds for the factories have been provided by the international union, Mr. Schlesinger said, and later as more money is needed, "union shop and factory assessments" will be levied to finance the project until it is put on a paying basis. "We expect to be turning out the medium and high priced garments for the spring trade," A. Baroff, secretary of the union said. "The first factories will probably employ about 1,000 workers to be selected

by the union. They will pay higher wages than are paid by employees in the garment industry, and a seven hour day will be in effect," he said. The workers now work an eight hour day, with a half holiday on Saturday. The local unions of the Ladies' Garment Workers, according to Mr. Baroff, are also taking steps on their own initiative to defeat the high costs of living by establishing co-operative restaurants and stores. A number of stores have been started in New York, and a restaurant is being operated by unions in Philadelphia, he said.

### THE CENSUS OF 1920.

(From Munsey's Magazine). Every little village has a census of its own. Every town and city to expansiveness is prone. Frogville thinks its gain should be quite ninety-nine per cent. Pumpkin town has blossomed to a marvelous extent. Billingsville will reach the hope of many decades past. When its newest figure beats Bethesda Creek at last. All of these were smaller far but ten short years ago. Stevensville and Squankum, Strawberry Springs and Simplicio! Ah, but every census leaves some village feeling flat. Folks with civic pride find they've been talking through their hat. Frogville's population has decreased by three or four. Pumpkin town has two more cats, but men it has no more. Billingsville is still behind Bethesda Creek—in fact. Charges that the latter town was fraudulently packed. And 'tis clear if every place as hoped for had increased. We could boast today two hundred million at the least. —A. BURSTEIN.

B. B. Bullwinkle returned home to Riddle yesterday from Portland, where he has been serving on the federal grand jury. A recess has been granted the jurors until October.

### Poles Fall Back From Railway Point

(By Associated Press.) WARSAW, July 19.—Polish troops are falling back to the south and southwest from the railway junction of Lida, which has been occupied by the Russian bolshevik forces.

### CAR GOES OVER BANK.

A car left standing on the Main street hill yesterday afternoon without properly applied brakes, started down hill and carried by its momentum went over the curb and through the wire netting surrounding the Hillwell tennis court and down the bank into the court. The car was not damaged and stopped after striking and breaking the tennis net. It dragged considerable wire onto the court and this aided in stopping the runaway machine. The car was not injured and was driven back to the roadway.

### CHILDREN HAVE GOOD TIME.

One of the finest sights of the Chautauqua was the children at play this morning. For the first time Roseburg has had a sample of what a real play ground is like and over 250 kiddies had a good time. Volleyball, baseball, football and other games were played and then came the story telling hour. The need for a municipal playground was never more fully demonstrated and it is probable that the demand of the youngsters will soon bring about the creation of such a playground. Miss Schorl, who has charge of this work, is very experienced and is adept at handling children.

### COUNCIL TO MEET.

The city council will meet tonight in regular session. It is expected that at tonight's meeting the council will take up the consideration of the issuance of bonds for construction of a municipal light and water plant, as recently ordered by the people of the city at a special election. Mayor Hamilton is anxious to see this project go forward and it is expected that he will do all in his power to start the council at the work. A number of other matters are to be considered, several improvement ordinances read, and sidewalk problems discussed. It is expected to be a very busy meeting.

### BUSINESS IS BUSINESS.

"Business is business," the Little man said. "A battle where 'everything goes,' Where the only gospel is 'get ahead' And never spare friend or foe. 'Slay or be slain' is the slogan cold. You must struggle, and slash and tear. For 'business is business, a fight for gold. Where all that you do is fair."

"Business is business," the Big Man said. "A battle to make of earth A place to yield us more wine and bread. More pleasure and joy and mirth. There are still some bandits and burglars. Who are jungle bred beasts of trade. But their number dwindles with the passing of years. And dead is the code they made."

"Business is business," the Big Man said. "But it's something that's more, far more. For it makes sweet gardens of deserts dead. And cities it built, now roar. Where once the deer and the gray wolf ran. From the pioneer's swift advance: Business is magic that tolls for man. Business is true romance."

"And those who make it a ruthless fight Have only themselves to blame. If they feel one whit of the keen delight In playing the Bigger Game. The game that calls on the heart and the head. The best of Man's strength and nerve. 'Business is business,' the Big Man said. "And that business is to serve." —Berton Braley in "The Nation's Business."

Sir William Bart Wiseman has been in Washington on what was reported to be a secret mission for the British government.
