The G. A. R. and the W. R. C. will hold their annual picnic at Bellows Grove Friday, July 30. All members are requested to be present.

Take no chances with fire in the forest.

NOVELTY PHONOGRAPH BEING MANUFACTURED IN THE EAST

The Dryola, a phonograph, made in the shape of a barrel, with a faucet, etc., and inside the barrel is a concealed phonograph. But why should Roseburg people care for a substitute when they can get the real thing for the same price. It is now no longer necessary to substitute as we have plenty of Edison's, the phonograph with a soul, and the only phonograph that can stand the acid test of direct comparison with the human voice. Also the Victrola, the old standard by which all others are compared. We also have the Sonora, known the world over as the highest class talking machine in the world, and the Chener, absolutely the only phonograph made that it is impossible to hear any surface sound or needle scratch on the record. This seems almost a miracle, but nevertheless it is a fact. The four best makes on earth, and you can try them in your own home any time you like, as we have the goods the Edison, Victrola, Sonora, Chener, Ott's Music Store, Roseburg, Ore.

Come and have a good time at the Mid-Summer Dance, Thursday, July 29. Macabee hall.

American Ship Takes Final Race

**NEW YORK, July 27**—When the Resolute crossed the line just before the time limit expired tonight, America was again the winner of the international yacht races, and the cup remains here despite the fact that Sir Thomas Lipton's Shamrock took the two first events apparently with ease. Today's was the fifth and final race of the series.

The start was held up two hours while the shippers awaited a wisp of a breeze. The yachts got under way at 2:17:00, both being handicapped because of failure to cross the line within two minutes after the starting signal was sounded.

Captain Burton maneuvered the challenger into the advantageous position and took the lead which at one time was increased to a quarter of a mile. Captain Adams, however, through skilful handling of his yacht, was able to take the lead from the Shamrock when about five miles from the first mark.

Resolute was leading Shamrock by four minutes and eight seconds as she headed for the finishing line. This was the condition at the finish.

Regulations For Waterpower Bill

**WASHINGTON, July 27**—Regulations for the administration of the federal act opening up the country's vast water power resources to private development are now being drafted. As soon as they are completed the water power commission, composed of the secretaries of war, interior and agriculture, will hold hearings on them.

The commission, of which Secretary Baker has been appointed chairman by President Wilson, will hold its first meeting immediately upon Secretary Payne's return from Alaska about August 5. The hearings on the regulations will be pushed as speedily as possible so that the water power legislation, which has been ten years in the making, can be put into effect without undue delay.

The tentative regulations are being drawn up by a special committee of the war, interior and agriculture departments. It is composed of Major-General Crowder, representing the war department; O. C. Merrill, water power expert in the forestry service, who has been designated executive secretary of the commission; and H. A. Stabler, of the interior department.

Members of the committee say the regulations will be extensive and will probably be announced in series, with open hearings on each group before they are made final. Those relating to form and condition of application or surety permit or license will be the first announced. The most difficult problem involved in drawing up the regulations, members of the committee say, is that of establishing a uniform system of accounting for licenses as required by the act. Under the water power bill the commission is empowered to issue licenses for a period of not exceeding 50 years. The licenses will pay to the government reasonable annual charges in an amount to be fixed by the commission. Upon the expiration of any license the government, if two years' notice in writing has been given by the commission, will have the right to take over and operate any water power development after payment of the net investment of the licensee in project or projects taken, not to exceed the fair value of the property plus such reasonable damages, if any to property of licensee as may be caused by the severance therefrom of property taken.

A FEW OF OUR SPECIAL BARGAINS IN HOUSES.

**SUPERIOR ROCK SPRINGS COAL**—Best on the market; dry slab wood and mill ends by the tier or cord. Special price on 10 tier lots. H. J. Denn, cor. Oak and Main.

Christian and Baptists Tie

Another live ball game was played last night on Bellows field between the Baptists and the Christians. These teams have played a number of tie games, and last night proved to be another, the score ending eight to eight. The Baptists started out like easy winners, but had a big blow up in the sixth and let the Christians get two ahead but began earlier as the last inning was played in the dark when the ball could hardly be seen. The Baptists made one run in the first, on a base on balls to Carl Black, a steal, a wild throw and a passed ball. They made two more in the third on a base on balls to Davis, L. McClintock's hit, a steal, a fielder's choice, and a passed ball. They added one more in the fourth on J. McClintock's hit, a steal, a passed ball and a sacrifice. The Christians made their first in the rubber in the fifth. Lloyd reached first on an error. Fulp made a clean hit, Grimm got to first on balls. Althaus hit an infield fly on which he was automatically out. Lloyd scored. Reibel went out to first, but on the play, Fulp scored. The Baptist came back with two in the same inning on a clean hit by Davis, a wild throw and Cecil Black's clean hit. Black worked all around on errors.

With the score six to two against them the Christians began the sixth which was a trot around the bases. Hits and errors let the team bat second round. Ritzman retired in favor of McClintock, who went in with a cold arm, and could do nothing to stop the trot of the bases. Carl Black took up the burden, but when the fireworks were over the Christians had scored six runs and lead eight to six. In the last inning it was dark and the Baptist came back with a rush. The Christian manager made the mistake of taking out a warm pitcher and putting in one with a cold arm, and the result was three clean hits and two runs that tied up the score. The Christians and Presbyterians will play Friday night and games will soon come to a close.

COOLIN MOTH SPRAY. (Also Anthracnose Spray)

Apple growers should begin to apply the next coolin moth spray about August 1st. Use the regular arsenate oil lead spray, 1 1-2 pounds to 50 gallons. No lime sulfur is needed. On account of the anthracnose being so serious in some sections of the county, it will be necessary, in these places, to add Bordeaux 4-4-50 to the arsenate of lead. As the Bordeaux is to keep the anthracnose in check until the fruit is harvested, it is necessary to apply this spray to all the limbs and bodies of the trees. The Bordeaux may russet some of the tender skinned yellow varieties such as the Grimes, or Ortley, or possibly Benana. Where there are many trees of these varieties it would be well to omit the Bordeaux and handle the anthracnose by early fall spraying.

E. C. ARMSTRONG,  
County Fruit Inspector.  
July 27, 1920.

NOTICE.

Several persons erecting buildings in this city recently have neglected to secure building permits, and are therefore subject to prosecution under the building laws. This matter should be attended to at once. Permits may be secured at the fire station.
