

Goodyear Mileage = and Tires for Small Cars

A well built tire yields much more mileage for each dollar of cost than a tire purposely made to be offered at a sensationally low price; buy the tire, not the price.

Built to deliver exceptional mileage at exceedingly low cost, Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, save inconvenience, disappointment and money.

Their value results from the application of Goodyear experience, expertness and care to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—for the real worth and endurance that Goodyear builds into them.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$2350

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$2150

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size \$450 in waterproof bag

GOODYEAR

LEAGUE THREATENS THE ENTIRE STATE

Movement to Gain Control of Northwest Is Started By Nonpartisans.

MONEY IS IN SIGHT

Campaign in Oregon is Being Conducted Under Cover at Present But Will Soon be Open and Public Political Warfare.

The Nonpartisan League is a political organization founded a little over five years ago and which today controls absolutely the state of North Dakota, is seriously near to a similar control in Minnesota, Washington, Idaho, Colorado and Wisconsin, and is rapidly gaining ground in South Dakota, Iowa, Utah, Colorado, Kansas, Oregon, Indiana and Nebraska.

Purporting to espouse the farmer's cause, the league was started by A. C. Townley, a socialist worker with a genius for organization, and it has grown in dimensions until as was recently said by a noted writer in the New York Times, it far surpasses any other menace of the present day to our national institutions and government.

The movement may be termed a gigantic conspiracy to impress socialism upon the American nation. Few people realize that an astoundingly powerful socialistic empire is rising in the central west under the efficient guidance of one of the ablest political organizers America has ever known. The Nonpartisan League was formed by socialists, is officered by socialists, completely controlled by socialists and has for its ultimate purpose the overthrow of our government and the realization of the principles of Marxian socialism.

Three years ago before A. G. Townley had any where nearly realized the powerful organization he at present controls, Theodore Roosevelt said of him that he was one of the four most dangerous men in the United States. Today Townley stands at the head of what Peter W. Collins, noted lecturer, called in a speech he made in Portland recently, the most scientifically devised political scheme ever conceived.

By electing overwhelming majorities to both houses of the legislature in North Dakota in 1918 and by electing a complete state ticket, the Nonpartisan League has been able to inaugurate a trial of state socialism which up to the present time has all but wrecked the state.

The program staged by the league includes the opening of a state owned bank, a chain of subsidiary banks, issuance of \$17,000,000 in bonds to permit the state to engage in private commercial pursuits, formation of a chain of league co-operative stores, construction of a state owned flour mill, and an increase in state taxes which has all the earmarks of later confiscation by taxation.

Through a law requiring all public funds to be deposited in the state bank, the league secured control of \$35,000,000 in public money to experiment with in socialistic ventures. In addition to this they have control of \$60,000,000 in the school funds and \$17,000,000 of state bonds. Its memberships and through the league stores the Nonpartisan organization has collected over \$4,000,000 to date from the farmers of North Dakota alone. These entire sums, practically speaking, are under the absolute control of one man, A. C. Townley, president of the Nonpartisan League.

In Minnesota as a result of their widespread victory at the recent primary, the league is practically assured of a large majority of the representatives in the lower house at the next session of the legislature. Their candidates captured the republican nominations in 77 out of 86 counties for the lower house. They hold many county offices, have the republican nomination for a judge of the supreme court and have nominated four congressmen on the republican ticket. It is estimated that

the league will spend \$1,000,000 on their Minnesota campaign alone this summer. In 1918 the league candidate for governor lost the republican nomination by 50,000. In this year's primary he lost by 7000.

In Washington and Idaho the alarming strength of the league is evidenced by the extensive campaigns that are under way to defeat them at the fall elections. It is freely conceded by the opposition in Idaho that if the direct primary were not done away with, the league would probably by now have captured the entire republican organization.

In Oregon so far, the league has worked fairly well under cover. Up until a few weeks ago there were 30 organizers at work in various counties. These were taken back east for the primaries in Minnesota and North Dakota. It has been announced that at least 50 additional organizers will return to Oregon with the former workers for the campaign in this state this summer. Although the exact figures are not known, it is certain that four or five thousand farmers in Oregon have taken out memberships in the league or have expressed themselves as willing to do so.

The heads of the State Grange and the entire executive board of that organization has individually endorsed the league program for Oregon. This program includes a state owned bank, state guarantee of bank deposits, a chain of state owned retail stores and state owned and operated packing plants, canneries, grain elevators and water powers.

In announcing their program for Oregon the leaguers let it be known that \$200,000 had been appropriated from the National Nonpartisan League treasury for the campaign. Negotiations are also under way in this state for the purchase of five newspapers by the league.

A canvass of the sentiment of the farmers toward the league at the recent annual session of the State Grange showed that they were practically unanimous for it. An estimate of its actual and potential strength at the present time in the rural districts indicates with the accession of some strength through the labor vote that they may carry the entire state at the next election.

Literature in behalf of the league is now being sent broadcast to the farmers of Oregon through the local organizations that have been formed in the various counties. It is expected a state publication for the league will be put in the field shortly as has been done early in their campaigns in every other state where the league has made entry.

DODGE BROTHERS BUSINESS CAR

The Business Car can be relied upon always to haul its full capacity at a very low cost.

This element of certainty all the year around is one of its strongest appeals to business men.

TO TAKE SHORT COURSE.

Donald C. Parker, instructor of violins at the Heintze-Moore conservatory of Music and Physical Education during the past year, will leave Sunday for Portland where he will take a six week's course of vio-

lin instruction with the well known Portland artist, Prof. M. L. Bettman, in the Telford building. Mr. Parker expects to resume his work at the conservatory this fall.

CLUB ROOMS ABANDONED.

The Railroad Club, which has occupied club rooms in the local yards for a number of years, has been disbanded and the club rooms are being converted into an office for the yardmaster. The supplies and fixtures belonging to the club are being sold and new furniture suitable for office work is being installed.

Insure against loss—equip your tractors so they won't set fires.

Stop and reflect—great fires from little sparks are spread. Be careful with fires.

Hereafter we will do either rough dry or wet wash. There will be no charges less than 50c, but you can have 60c worth of wet wash at list price done for 50c, or \$1 worth for 75c. Overalls and jumpers 18c each. Call up Tel. 467, Rough Dry Laundry.

HOW TO HANDLE YOUR WIFE WITH ELECTRICITY

Doing things electrically is quite the proper caper these days. The following is an interesting illustration of what may be done along these lines.
If a woman is sulky and will not speak—Exciter
If she gets excited—Controller
If she talks too long—Interrupter
If she goes up in the air—Condenser
If she wants chocolate—Feeder
If she eats too much—Reducer
If she gossips too much—Regulator
If she is contrary—Transformer
If she is willing to come half way—Meter
If she wants to go farther—Conduc-tor
If she will come all the way—Receiv-er
If she is a poor cook—Discharge
If she becomes upset—Reverser
If she slopes—Telegrapher.
