RAPA, Dangerous Archipelago, South Pacific, June 30.—(By Mail.)—They toil, not, neither do they spin, and in all the reaches of the Seven Seas it would take a long voyage to find a more lazy population than Rapa's. In Rapa, the women are the hewers of wood and the drawers of water.

The people of Rapa wear no clothes—or did not until a scandalized white missionary from Tahiti insisted on gathering some old garments from his more favored parishioners and hurried them to Rapa.

## Resting Place of Dead is Purchased

(By Associated Press.) PARIS, August 10.—In order to prevent any commercial encroachment upon Romagne cemetery, where 25,000 American soldiers are buried, the French government has been asked by the American Army Graves Registration Service authorities to purchase the gentle slope facing the front of the cemetery, and the entire crest of the hill occupied in part by the cemetery, as well as plots at both sides.

The Roman, Suresnes, and Belleau Woods cemeteries have been approved by the Secretary of War as the permanent resting places of more than 30,000 soldier dead who will continue to sleep in French soil. Suresnes, which is on the slope of Mont Valerien, one of the forts built to defend Paris, is already protected against encroachment of any sort, and the same is nearly true of Belleau Woods.

The extra ground to be purchased at Romagne will not only safeguard the cemetery against any encroachment, but will provide areas which will be used by American horticultural experts to surround the hallowed trees and shrubbery. At the present time the cemetery is surrounded only with a long wall, and there is no available space for planting.

The beautification of the cemetery will not begin for some months as most of the bodies in the cemetery now are to be removed to America, and this work will not start until mid-September and cannot be finished until some time next year. After this work is finished, bodies from other cemeteries will be moved in.

## OPEN-AIR CREMATION.

(By Associated Press.) VANCOUVER, B. C., Aug. 10.—Following recent action of the city council in notifying the local Hindu colony that no further open-air cremation of bodies would be allowed in the plot hitherto reserved for that purpose in the Mountain View cemetery, a petition has been presented to the civic health committee by the Khalsa Diwan society against such action.

The aldermen were urged not to interfere with Hindu funeral rites, for their religion requires open-air ceremonies. They objected to using the crematorium as the aldermen suggested.

## Easterners Have More Time to Play

(By Associated Press.) PHILADELPHIA, Aug. 10.—The reason the East has an advantage over all other sections of the country in tennis, is due to the fact that Easterners have more time to play the game, according to Dr. Edward T. Pancoast, formerly one of the best players in this city, but now of Peru, Indiana. He is visiting here. Dr. Pancoast, an Episcopal clergyman, is still a keen student and advocate of the sport.

"The Middle West has just as good a material to work with," he said. "We have stars who would be just as good as the best in the East, if they all weren't too busy making a living. Take for instance Ralph Burdick. Here is one of the leading players we have, who is so busy, he feels thankful if he can get a racquet in his hands once a week. Ralph gave Bill Tilden, the world's champion, the hardest kind of a battle a short time ago and was leading 6 to 3 in the first set and 5 to 1 in the second, when a volley broke the net. After a 10-minute lay-off, Burdick lost his terrific pace and Tilden finally won."
