German Children Fed By Americans

PHILADELPHIA, Aug. 19.—The American Friends Service Committee, Philadelphia, has arranged to make shipments of food for the child feeding work in Germany in sufficient quantities to last until the end of the year.

Recently there have been shipped from New York 240 tons of cocoa, 317 1/2 tons of lard, and 14,320 cases of condensed milk.

In addition to this, there were shipped 31 barrels of cod liver oil for hospital use in combating rickets, the disease of children so common there because of under-nutrition. Dried peas and dried beans used in the food ration are already stored in warehouses in Hamburg to be drawn as needed; 880 tons of rice have been purchased and will be delivered at Hamburg soon. The remaining articles of the ration, flour and sugar, will be supplied in the future by the German government.

The value of these goods is about \$1,500,000 and it is expected it will be sufficient to provide a supplementary meal for about 500,000 children per day until January. This number

is slightly less than the Friends fed during the spring months of this year.

The original plan was to close the child-feeding operations on August 21, but the food situation was found to be so acute and the harvest poor that another year's program was prepared.
