To the Voters of Oregon!

The taxpayers of Portland and Multnomah County are not only willing but anxious to provide the Port of Portland with needed funds for dredging our River Channel to the sea. The Committee that formulated what is known as the Port of Portland and Dock Commission Consolidation Bill under the numbers 310 and 311 on the ballot insisted, however, upon weighting down the measure with an enormously expensive real estate scheme, and by a formal vote turned down the request of taxpayers that the Swan Island scheme and the River Channel scheme be presented as separate measures. Refusing to be forced to swallow something they cannot approve, Multnomah County is expected to vote adversely to the whole scheme by an overwhelming majority. Having done this, they will then be ready to vote for any needed amount for improving our River Channels. A Committee of the City Club has submitted a detailed analysis of the measure showing that it means an ultimate expenditure of at least \$40,000,000.

Our Chamber of Commerce and other civic bodies with all of our river pilots and steamboat owners and others have protested against it. At least twelve former and present members of the Port of Portland and the Dock Commission have declared against it. A majority, if not all, of our City Commissioners oppose it. The Committee of 15 itself that drafted the measure is divided.

The Taxpayers of Portland Appeal to You

In a spirit of fair play to save this county from the imposition upon us of such an overwhelming and paralyzing debt as this measure contemplates. It would be deemed offensive if we gave expression to what we believe to be the selfish and ambitious political motives that have inspired the measure which is submitted with a distinctively deceptive title.

We simply appeal for fair play and a decent consideration of the hopeless plight in which this community will find itself if the measure carries. As citizens of outlying counties who will not have to pay a dollar of the debt imposed, we appeal to you to consider what would be your feelings if Multnomah County should try to impose a similar burden on you. Our interests in a general way are mutual.

It is our sincere judgment that the success of this measure will seriously retard, instead of promoting, the development of this port and that the state at large will in return suffer severely as a consequence.

Vote Measure Number 311 X No

FREE SCHOLARSHIP

WITH

PROGRESSIVE SERIES PIANO COURSES.

You want the utmost possible for every dollar you spend for your child's musical education. You will get it in the Progressive Series of Piano Lessons, because:

1. It teaches the Principles of music clearly and simply, and contains the Vital Facts with all frills and extras omitted; therefore, the pupil learns to play correctly in a shorter time than is otherwise possible.
2. The pupil learns more from the Progressive Series. He is shown how to play with Expression and Feeling. After he has studied the Progressive Series he knows how to produce music that is enjoyable. People like the playing of Progressive Series pupils.

The money you spend on the Progressive Series of Piano Lessons will, therefore, give you the biggest returns. With it your child learns faster, and learns more. You will be surprised to know that the cost is no greater than that of any other material necessary for the pupil to make the same advancement.

A number of the leading Musical and Educational Institutions of the country now accept our Certificate as to work accomplished by our pupils and on entrance into their schools place the pupils in the succeeding grade without examination.

All pupils who enroll in the High School Normal Course are entitled, upon completion of the course, to a Scholarship for a Personal Normal Course of instruction in any Conservatory or University, upon the Art Publication Society's list of those authorized to give same.

WHAT THE PROGRESSIVE SERIES IS.

The Progressive Series of Piano Lessons is a complete text work for piano study, arranged in accordance with approved teaching principles.

The Series consists of printed Lessons and Exercises, Studies and Compositions, with instructive annotations.

The Lessons treat the twenty-two subjects embraced in the theory of music, in connection with the principles of piano playing, as is done in a thorough conservatory course.

The Exercises, invented by master pianists, produce the greatest proficiency in technique with the least amount of practice.

The Studies are selected from the best in existence and develop the greatest amount of skill in interpretation. They are thoroughly annotated so that the student has instruction on how to analyze and practice, ever before him.

The Compositions represent eighty-five standard composers and include the finest examples of classic, romantic and modern schools, and a series of Educational Adaptations for the piano in easy grades by Godowsky. These Adaptations afford an opportunity for the piano student, at the earliest stage of his development, to become acquainted with the best orchestral and chamber music, the favorite songs and operas, the noblest sacred music, and characteristic dance and folk tunes of different nations. There is thus open to him at this early period a vast field of knowledge, which has heretofore been accessible only to the advanced musician of broadest culture and experience.

The Compositions also have the following educational information: Biographical sketch of the Composer; Poetic Ideas; Form and Structure; Harmonic Analysis; Instruction on how to study; Glossary and General Information.

As these annotations are written by the foremost living authorities, their value to the student is inestimable.

WHAT THE PROGRESSIVE SERIES DOES

- It saves time and expense.
- It saves the drudgery of unintelligent practice.
- It saves endless repetition of oral instruction.
- It develops the intellect.
- It aids in memorizing.
- It perfects technique.
- It insures correct interpretation.
- It gives the student the proper understanding of the laws of music, their relation to each other, and their practical application.
- It enables the teacher to impart more knowledge in a given time, and the pupil to receive more.

All education in the public schools is based on text books. The Progressive Series is a text for education in music. It enables the school authorities and parents to always know the exact standing of the student.

It is the only text work that enables the private piano teacher, high school, conservatory and university to work in perfect harmony with each other.

It has been adopted by several thousand private teachers and conservatories (many of them of national, and some of international reputation), and it is recognized for credits by a number of the leading high schools, colleges and universities throughout the country.

Only teachers who have passed the required examinations are permitted to teach it. The student is therefore assured efficient instruction. A number of prominent conservatories honor certificates issued by Progressive Series teachers. Students presenting these certificates are allowed full credit for work done, without examination.

WOMEN NEED NOT STAND IT

Lydia E. Pinkham's Vegetable Compound Surely Removes Suffering and Pain. Here is Proof.

St. Paul, Neb.—"I suffered with periodical pain for about four years so that I was unable to do my work at times. A friend told me about Lydia E. Pinkham's Vegetable Compound and I took it. It soon stopped all my suffering so that I am now feeling fine in every way. I recommend your medicine to my friends who have similar troubles. You may publish this letter for the benefit of other women."—Mrs. WILLY THOMAS, St. Paul, Neb.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who now are free from suffering by its use.
