 Entered as second-class matter May  
 17, 1926, at the post office at Roseburg,  
 Oregon, under the Act of March 3, 1879.  
 Roseburg, Ore., November 15, 1926

**BETTER PLAY SAFE.**  
 Of vital importance to every citizen of Roseburg is the purity of its water supply. It is a matter of grave concern when an individual or company tampers with, or attempts in any way, to launch or initiate an enterprise for private gain that would in any degree impair the health of the entire community. In fact, it is nothing less than wholesale murder, born under the disguise of alleged charity for that great mass of suffering humanity who have fallen prey to the ravishes of the white plague, and who, sad and distressing as their wants and desires may be, must find some haven of rest until the learned medical authorities of the world discover other and more effective methods of nourishing these unfortunate to a state of better health.

With the proposed erection of a tuberculosis sanitarium at Winchester, five miles north of this city, and in close proximity to the water supply of the entire community, arises the question whether or not this move on the part of the promoters will, to a more or less degree, contaminate the waters of the North Umpqua river. Physicians of standing state that it will. Others declare that it will not. But the great mass of people who have had dealings with institutions of the foregoing nature are a unit in saying that the danger sign is in sight and the time is ripe to call a halt.

If there is the remotest suspicion that through the building of this sanitarium at Winchester our water supply is going to be "tainted," it is not only imperative that the city council take a definite and determined stand against the erection of such an institution, but the entire populace should rise up and forever stamp out of existence all means and methods likely to be employed to carry out the scheme.

It is better to be safe than sorry. Definite and prompt action is necessary and it is a foregone conclusion that the confidence reposed in the council of this city to carry out the wishes of the people in matters of such grave importance will not be passed upon lightly. Therefore, we feel perfectly safe in predicting that after all the evidence has been submitted, the city fathers will take the broad view of the matter—sustaining the contention that the erection of a tuberculosis hospital near the main supply of water for this city will prove a menace to the health of the community.

Recently Governor John U. Calkins, of the federal reserve bank of San Francisco, signed a letter addressed to Liberty bond purchasers advising them of the real value of Liberty bonds and certain conversion privileges. He received many replies. To those who think that common sense Americanism is a thing of the past, this letter from a resident of San Diego, California, will be interesting: "Received your request to save and buy more Liberty bonds. That is just what I am doing as fast as my interest accumulates. I feel it is a privilege to trust this government and in a way help, while I receive a compensation also." In recent months the Liberty bond market has improved. The improvement has come about because of the fact that thousands of small investors have taken advantage of the comparatively low prices of the best securities in the world and have bought wisely while others sell foolishly. Thousands of other persons who are holding Liberty bonds are investing the interest therefrom regularly in government savings stamps.

Strange as it may seem, an unfortunate man can be convicted on the most flimsy evidence for purloining a monkey wrench or a box of carpenter's tools and given a year in the penitentiary. But when a girl of tender years is enticed from the straight and narrow path—and for no other reason than to rob her of that one God given virtue, pure womanhood—the evidence becomes so "complicated" that the average juror cannot get justice focused to that angle that a rightful conviction can be had. It's too bad Oregon's criminal laws do not provide for treating these fellows by the sterilization route.

All things considered, why shouldn't turkey meat be high? And then it tastes so much better to the visitors—and makes the head of the house who has been responsible for the Thanksgiving feast feel as though he had been "touched" by the occasion.

Seven thousand idle men in the metropolises of Oregon and a long, cold winter ahead makes the fellow with a steady job and a comfortable home feel that life is still worth living.

The old adage, "talk is cheap," is going to get a severe jolt—if the increased rates asked by the telephone company are granted.

In these days of "pure moonshine" who ever thought of the good, old sparkling water of the North Umpqua being "doped?"

Lost you forget—hit her up for the Christmas counter early. Get away from this eleventh hour stuff.

**Mistland Orchards Will Be Advertised**

"This is a Mistland Orchard." Members of the Oregon Growers Co-operative Association will receive some time this fall a beautiful colored enamel sign, with the above wording. These signs are to be posted over the approaches to orchards owned by members of the Oregon Growers.

**Farmers Families To Be Favored**

Nearly every farm family in 14 of the Oregon counties will have an opportunity to attend a farmers week of their own this winter. This will give them a chance to hear their most vital problems considered by agricultural college specialists who know most about the subjects. The dates have tentatively been set as follows: Lane, Linn and Polk counties, December 13-15; Douglas, Josephine and Jackson, January 2-5; Columbia, Multnomah and Washington, January 10-12; Deschutes, January 17-22; Morrow and Wasco, on January 24-29; Union and Malheur, on January 31 to February 5. These meetings will be held at the headquarters of the county agent, in the most counties, at the county seat.

BORN—To the wife of John McClintock, of Lane street, at Mercy Hospital, Monday, Nov. 15, a boy.

At the Liberty Theatre, Tuesday, November 16th.

Allan Dwan presents "The Forbidden Thing"

**Armistice Sunday Observed Yesterday**

Many flags in the city were placed at half mast yesterday pursuant to the proclamation issued by the president, commemorative of the nation's participation in Sunday's memorial services held for the American Soldiers, Sailors and Marines and for others who gave their lives to their country in the world war. Several of the churches also observed the day with appropriate services in honor of America's fallen heroes.

**"Never Has to Call a Doctor—Bathes Internally"**

Mr. J. E. McNeil, P. O. Box 317, Clifton, Ariz., writes to the Terrill Hygienic Institute: "I have been using the J. B. L. Casadeo for the past twenty-five years and can't say enough for it. It is the best medicine I have ever had to call in a physician to treat one of the family. What a pity more of the human race are not acquainted with the virtues of the Casadeo in a family." The "J. B. L. Casadeo" cleanses the power intestine its entire length and keeps it always free of poisonous waste. Testimonials testify that Constipation, Indigestion, Stomach Troubles, Biliousness, Headaches and all the many serious troubles which cause are absolutely relieved and prevented by this nature Treatment.

**Sutherland Phone Rates Are Boosted**

Permission has been given by the public service commission for an increase in the rates of the Callapool Telephone company, now supplying telephone service for Sutherland. The business is owned by J. W. Thompson, who recently filed application for an increased rate. The findings, according to the report made by the commission, show the property of the company to be in need of repair, and in order that money for depreciation may be provided, the increased rate is allowed. No revenue has been returned by the business, the commission finds, and also reports that the profit formerly earned was not sufficient to properly maintain the business. The new rates are for unlimited business service and unlimited residence service, the cost being \$2.50 for an individual business phone and \$2.00 for party line, for business purposes, and a charge of \$2 for individual residence phone and \$1.75 for two party line. The suburban rate is \$1.50. A minimum of \$5 per month per line is fixed for farmer owned lines.

**Medford Jailer Beaten With Club**

MEDFORD, Or., Nov. 13.—George Anderson, whose residence is unknown here, arrested in this city a week ago on a charge of attempting to pass a forged check, escaped from the county jail at 7 o'clock last night by Clubbing Jailer Moses over the head several times with a bludgeon made out of a stick of wood when he entered the jail corridor to lock the cells for the night.

**Fire Trucks to Have Novel Phones**

SHANGHAI, Nov. 15.—Trucks of the Shanghai Fire Department are soon to be equipped with wireless telephones, conforming to the latest practice of the fire departments of the largest cities. The improvement is expected to enable the department at all times to keep in touch with its men while fighting fires.

**Taps Trees At 50 Cents Gallon**

MARSHFIELD, Ore., Nov. 15.—The tapping of trees for pitch at 50 cents a gallon is not so unremunerative an occupation as might appear at first glance, according to Rogeue Hurd, field man for a Portland refinery, who said that George Hayes, gathering pitch in the vicinity of Broadbent, is making \$19 a day as a result of his operations.

**Polish Government To Give Prizes**

WARSAW, Nov. 15.—One million marks are to be given away each week for 20 years by the Polish government as a premium prize for a state loan announced recently by the Ministry in Finance and designed to raise 5,000,000,000 marks. Bonds of the loan are in denominations of 1,000 marks and bear four percent interest, the loan to run for forty years.

**Old Schooners Become Barges**

Disposal of large numbers of old schooners, to say nothing of an oversupply of new wood ships, has been a problem for the past few years. River and canal men, meanwhile, have been facing a shortage of barges. Putting these two facts together, Eastern shipbuilders have now evolved a new form of schooner barge, made by removing the upper works and the below-deck cabins and bulkheads of the schooners. Such barges are spacious and have the advantages of speed in towing and seaworthiness for coast work, and if lost from a sea tow can make port with a jury rig. In South America as well as the United States, rebuilt schooners for large work already are at a premium.—Popular Mechanics Magazine.

**Italians Melt Up Small Change**

The second-hand dealers all over Italy have cornered the bronze 10 and 5 centime pieces, which they have melted down and sold as ingots for soldiering at two and three times the price the pennies cost them. This has caused a great deal of annoyance, as small change is scarce, and in some of the cafes stamps have been given as change. The government has reduced the size of the new 10 and 5 centime pieces, but even that has done little good, so it has now decided to coin the new pennies out of a composition metal which cannot be used as solder if melted.

**Tables Turned.**  
 Mr. Knobone—Well I surely can envy the tramps these days.  
 Mrs. Knobone—And only a few weeks ago you chased several from the front yard.  
 Mr. Knobone—I know, but just think, they can live in box cars and we can't even get a home to live in.

**GOLD MINE OWNER HAD TO SLEEP SITTING UP IN HIS CHAIR HE SAYS**

"Every sign of my chronic bronchitis has disappeared and I have gained fifteen pounds since I began taking Tanlac," said N. Jones, 499 Webster street, Portland, Oregon, recently. Mr. Jones is well known as a miner and mechanic and owns a gold mine in Baker county, Oregon. "While stationed in camp at Washington, D. C., about a year ago, contracted Mr. Jones. 'I was put on guard duty one wet, freezing night, and as I had no heavy clothing I contracted a very cold in my lungs. It left me in a very weak condition, and finally developed into chronic bronchitis. I could not lie down, I choked up so, and had to get whatever sleep I could sitting up in a chair. Sometimes I would simply have to gasp for breath. I tried several things but got no permanent relief, and I continued to cough so that people thought I had consumption. I had a shooting pain in my chest and back every time I would breathe and I had to discontinue working on my mine, the outside work made me choke up so bad. 'A friend of mine over near Mt. Tabor advised me to take Tanlac, and it has certainly been a life saver to me. I took four bottles and now I can lie down as well as anybody and there is no sign of pain left. I work in my mine every day now and Tanlac has built me up so wonderfully I recommend it to anyone who needs a good medicine.'"

Tanlac is sold in Roseburg by W. F. Chapman, and in Dixonville by J. E. Hatfield, and by leading druggists everywhere.

**HAND COLORED PICTURES OF OREGON SCENERY.**

See Carr's windows for Columbia River Highway, Mt. Hood, Crater Lake photographs, beautifully framed under glass, size 6 1/2 x 9. Each hand colored in natural tints. They are beauties. Carr's price 95c each. Carr's always save you money. What more appropriate gift could you make? By the way, visit Carr's Christmas Store—gifts for everyone on display, for your early selection.

**Swiss Also Face High Living Costs**

BERNE, Nov. 15.—The cost of living in Switzerland reached a new record last month, being three and one half percent higher than was ever known here. The cost of maintenance for a family of four and including only the barest of necessities of life now amounts to nearly 2,700 francs yearly. The increase in the price is especially noticeable in the milk and meat trades.
